# Housing Commitments in Redditch Borough

Base date: 1 April 2011  
Updated: 31 March 2014

## HOUSING COMMITMENTS IN REDDITCH BOROUGH AT 1.4.2014

Following the change of Government in May 2010, proposals emerged to abolish Regional Spatial Strategies (RSS) and the housing targets embedded in them and return spatial planning matters and decision making to the local level. The Localism Act (2011) made provision for the abolition of the regional planning tier; and the West Midlands RSS was formally revoked on 20 May 2013. The revocation of the RSS placed the responsibility on Redditch Borough Council to determine its own objectively assessed housing need. Redditch Borough Council commissioned additional work to supplement the Worcestershire Strategic Housing Market Assessment (2012) to support a case for a locally derived housing target (Worcestershire SHMA – Redditch – Updated Household Projections Annex, May 2012). Further demographic forecasting work (the AMION Report) was undertaken (March 2014) to underpin the robustness of the Council's objectively assessed housing need, as a consequence of questions raised about the reliability of the methodology used in the Worcestershire SHMA at the Examination of the South Worcestershire Development Plan. The scenarios and their analysis presented in the AMION Report confirm that the figure of 6400 dwellings for Redditch up to 2030 reflects the Borough's objectively assessed housing need.

Based upon the locally derived evidence, the housing requirement from 1 April 2011 is for the construction and completion of around 6400 dwellings between 1 April 2011 and 31 March 2030.

This document details the completions and commitments which contribute to meeting the Borough's requirement of around 6400 dwellings up to 31 March 2030.

Housing commitments can be classified as follows:

- **Large Site Commitments (sites of 10 dwellings or more).** This includes:
  - (i) Local Plan No.3 sites with capacity remaining at 1.4.11
  - (ii) Sites newly allocated to the Borough of Redditch Local Plan No.4 through planning consent since 1.4.2011 or which had planning permission at 1.4.2011
  - (iii) Sites newly allocated to the Borough of Redditch Local Plan No.4 identified through SHLAA analysis
  - (iv) Sites to be delivered through the Prior Notification Initiative
  - (v) Inclusion of residential institutions (Class C2) as advocated in NPPG (ID: 3-037-20140306)

Some of these sites were completed by the latest date for monitoring information (1.4.2014) but nevertheless contribute to the commitments figure.

- **Small Site Completions (sites of less than 10 dwellings).** Since the start of the new Plan period (1 April 2011), any completions on sites of less than 10 dwellings contribute to the commitments figure
- **Small Sites Commitments (sites of less than 10 dwellings).** Any valid planning permissions on sites of less than 10 dwellings
- **Small SHLAA Site Commitments (sites of less than 10 dwellings).** Identified SHLAA sites for between five and nine dwellings
- **Small Sites (sites of less than 10 dwellings) to be delivered through the Prior Notification Initiative.** Sites falling under the new permitted development initiative (May 2013) allowing change of use from B1a office development to C3 residential through prior notification only
- **Preferred cross boundary development sites.** Sites identified in Bromsgrove District in the Housing Growth Development Study (January 2013)

This document provides detailed information in relation to the above classifications of commitments.
