

BALANCE OF TRADE POLICY

To ensure that the market remains viable and sustainable for the future, Redditch Borough Council through the Market Manager will maintain a balance of trade policy (dependant on the line of goods) for each day, however the council will permit traders to increase their stall allocation to maintain their protection by application to the Council.

Please note however, that this list is not exhaustive, and the council reserves the right to add/change this list, if in the view of the council the balance of trade is not adversely affected and is justifiable.

Regular Traders must complete on their trader agreement form to which line of goods under which they are trading.

Casual and seasonal traders are **not** covered by this policy and therefore do not have any stall protection – this is covered in the trader agreements.

Note that this regulation only applies during normal market days (subject to stall availability and space) and not during any specialised markets/events.

This policy will operate from 1st March 2025 for all traders.
