1. Introduction

1.1 This is the Scoping Report as part of the Sustainability Appraisal (SA) for the Borough of Redditch Local Development Framework.

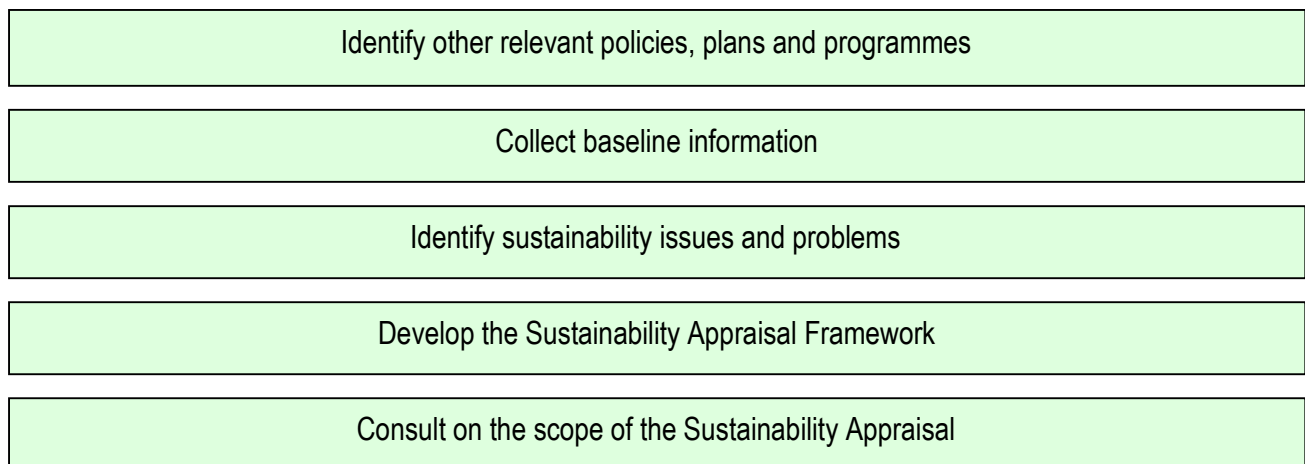

1.2 The Scoping Report incorporates the requirements for a Strategic Environmental Assessment (SEA) of Redditch Borough Council's Local Development Framework. As identified in Section 39 of the Planning and Compulsory Purchase Act 2004, a SA is required for all Local Development Documents (LDDs). This Scoping Report represents the first stage (Stage A) in the SA process assessing Development Plan Documents (DPDs) and Supplementary Planning Documents (SPDs). In line with the current Local Development Scheme this Scoping Report is specifically tailored to consider the Core Strategy Development Plan Document, as the only LDD in the LDS. However future LDDs will use this Scoping Report as the basis for its SA process.

1.3 This is an updated version of the Scoping Report, published 1 April 2009.

Purpose of this Report

1.4 This Scoping Report follows a five stage approach as outlined below:

Figure 1: Five stages of the Scoping Report

1.5 Stage A of the Sustainability Appraisal process (consisting of this Scoping Report) was undertaken during the pre-production stage of the Core Strategy DPD. The Scoping Report set out a series of questions for stakeholders to answer in order to ascertain if the focus of the Sustainability Appraisal is correct and if there are any issues which have not yet been considered. These questions are detailed in the relevant places throughout this Scoping Report.

1.6 Sustainability Appraisal allows the policies and plans to be aligned alongside sustainability criteria from development to adoption. The SA report will enable any implications of potentially conflicting environmental, social or economic factors to be taken into account at an early stage. It is also intended to demonstrate how the Borough Council has considered environmental, social and economic issues, thus ensuring that sustainability remains at the core of decision-making when progressing the LDF. To further inform the Preferred Options document for the Core Strategy Development Plan Document, this version of the scoping report is an update from the original version published on 5th May 2008.

What is Sustainability?

1.7 In terms of defining sustainability, a widely accepted definition is found in the Bruntland Report (Our Common Future, 1987), where it is stated that sustainability is “Development which meets the needs of the present without compromising the ability of future generations to meet their own needs.”

1.8 Sustainability covers three main aspects. These are:

- environmental issues
- social issues
- economic issues

1.9 The ‘UK Strategy for Sustainable Development’ (1999) outlines four main objectives which must be realised in order for sustainable development to be achieved. These are:

- “social progress which recognises the needs of everyone;
- effective protection of the environment;
- prudent use of natural resources; and
- maintenance of high and stable levels of economic growth and employment.”

1.10 A Sustainability Appraisal is a useful tool, in which the four aims of sustainable development are taken into account and addressed when developing a Local Development Framework.

Strategic Environmental Assessment and Sustainability Appraisal

1.11 In 2001, Directive 2001/42/EC was adopted by the European Union, necessitating the assessment of any effects that relevant plans and programmes would have on the environment. This Directive is commonly known as the ‘SEA Directive’. The SEA Directive requires that the Sustainability Appraisal consider the effects of the LDF on the following issues:

- Population
- Human Health
- Material Assets
- Cultural Heritage
- Biodiversity
- Air
- Water
- Soil

1.12 All Local Authorities must undertake a Sustainability Appraisal (SA) as prescribed in the Planning and Compulsory Purchase Act 2004, for each DPD and SPD forming part of the LDF. SA is a statutory requirement alongside the requirements of the SEA. The SA process identifies policies that strongly support sustainable development principles and also exposes policies that may not be in accordance with an aspect of sustainable development. The SA will aim to assimilate environmental, social and economic objectives into the LDF.

1.13 The latest Government advice states that the requirements of the SEA Directive should be incorporated into the wider SA process to ensure that consideration is made of social, environmental and economic effects. The following table sets out the SEA Regulations requirements and identified those sections of the Scoping Report in which these requirements have been met.

Figure 2: SEA Requirements

SEA Regulations Requirements	Location in Scoping Report
The relationship of the plan or programme with other relevant plans and programmes (Annex I(a))	Stage A1, Identify relevant Plans, Policies, Programmes and Sustainability Objectives, (Pages 6 - 9) Appendix A – Review of PPPs (Pages 24 - 102)
The environmental protection objectives established at international, community or national level which are relevant to the plan or programmes and the way those objectives and any environmental considerations have been taken into account during its preparation (Annex I (e))	Appendix A – Review of PPPs (Pages 24 – 102)
Relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme and the environmental characteristics of the areas likely to be significantly affected (Annex I (b), (c))	Appendix B – Baseline Data (Pages 103 – 179)
Any existing environmental problems which are relevant to the plan or programme including, in particular, those relating to any areas of particular environmental importance, such as areas pursuant to Directives 79/409/EEC and 92/43/EEC (Annex I (d))	Stage A3 – Identify Sustainability Issues and Problems (Pages 11 – 17)

Consultation

1.14 In accordance with the requirements of the SEA Directive this Scoping Report consults three designated bodies. These are English Heritage, English Nature and the Environment Agency. This Scoping Report will be issued to these three bodies for consultation over a 5 week period between 1st October 2007 and 5th November. As required by Government guidance on SA and by Planning Policy Statement 12, other relevant agencies or bodies with social, environmental or economic responsibilities may also be consulted on this Scoping Report. The additional consultee's are listed below:

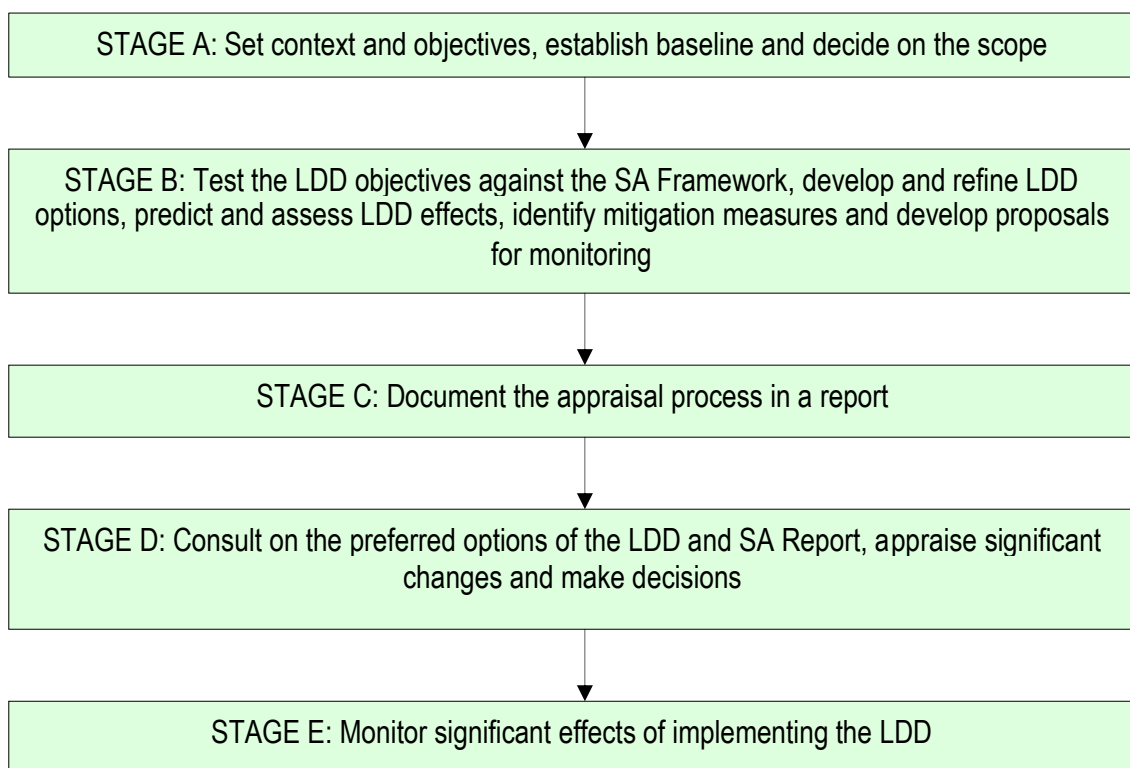

- Advantage West Midlands
- Bromsgrove District Council
- Feckenham Parish Council
- Government Office of the West Midlands
- Malvern District Council
- Sport England
- West Mercia Constabulary
- Wyre Forest District Council
- Worcester City Council
- Worcestershire County Council
- Wychavon District Council
- Redditch Borough Council Internal Officer Consultation

1.15 The purpose of this early consultation is to ascertain the social, environmental and economic issues that consultees consider to be relevant to Redditch, and also to establish whether consultee's hold additional baseline information for the area that has not previously been considered. Furthermore the consultation seeks to determine whether any documents or strategies that the relevant bodies have produced, and which have not been previously assessed, need to be reviewed as part of the SA process.

Five stage approach to Sustainability Appraisal

1.16 The guidance contained in 'Sustainability Appraisal of Regional Spatial Strategies and Local Development Frameworks' (November 2005) sets out a number of stages that are involved in the preparation of a SA. This Scoping Report represents 'Stage A' in the process, in which the scope and the level of detail to be included in the initial Sustainability Report and the final Sustainability Report for each LDD is determined. The process, including the various stages, is detailed below.

Figure 3: Stages in the Sustainability Appraisal process

Approach

1.17 The approach to this Scoping Report (incorporating the Strategic Environmental Assessment requirements) is the approach advocated in the Government's consultation draft guidance 'Sustainability Appraisal of Regional Spatial Strategies and Local Development Frameworks' September 2004, ODPM. This report is also prepared in accordance with 'A Practical Guide to the Strategic Environmental Assessment' ODPM, September 2005. The Scoping Report is however, written in the context of the Local Development Framework for Redditch Borough.

1.18 The term Sustainability Appraisal will be used throughout this report but it is important to remember that this term refers both to the SA and the SEA.

1.19 In accordance with the SEA Directive a thorough assessment of the environmental consequences of implementing the policies and the preferred options in LDDs is vital. The SEA Directive requires the following information to be included in a Scoping Report:

- The relationship of the LDD with other relevant plans and programmes;
- An examination of the state of the Borough and the identification of the key issues that could affect sustainability in the area;
- Identification of any further environmental problems;
- Consultation on the scope and level of detail of the Environmental Report with relevant environmental consultees.

1.20 The area to which this Scoping Report relates is the whole of the Borough of Redditch, but this area is flexible in the boundaries it covers. The West Midlands Regional Spatial Strategy Phase Two review process is underway, and this review is indicating that Redditch Borough will have to meet a proportion of its housing and employment targets across its boundaries in Bromsgrove and/or Stratford on Avon Districts (contiguous to Redditch's urban area). Until Redditch Borough Council receives further clarification on this cross-boundary issue, the Scoping Report will collect information on areas surrounding the Borough.

STAGE A1 – Identify relevant Plans, Policies, Programmes and Sustainability Objectives

2. Relevant Plans Policies and Programmes

2.1 The SA/SEA must be framed in the context of international, national, regional and local objectives, as well as strategic planning, transport, environmental and economic policies. All Local Development Documents can be influenced by other Plans, Policies or Programmes (PPPs). Therefore it is necessary to identify any relevant PPPs and their objectives, which are relevant to the production of the Borough of Redditch Local Development Framework. These relevant PPPs are listed below:

International

The Kyoto Agreement, United Nations (1992)
European Spatial Development Perspective (1999)
European Sustainable Development Strategy (2001)
European Directive 92/43/EEC – Conservation of Natural Habitats and of Wild Flora and Fauna (1992)
European Directive 2000/60/EC - Water Framework Directive (2000)
European Directive (75/442/EEC, as amended) - Waste Framework Directive (1975)
The Directive to Promote Electricity from Renewable Energy (2001/77/EC)
Aarhus Convention (1998)
EU Sixth Environmental Action Plan (2002 - 2012)
Council Directive on the convention of wild birds (1979/409/EEC)
European Air Quality Directive (2000)
European Landscape Convention (2006)

National

PPS 1: Delivering Sustainable Development (2005)
Planning Policy Statement: Planning and Climate Change – Supplement to PPS1 (2007)

Final Report
Bromsgrove and Redditch SFRA and WCS Addendum (January 2009) Final Report
Redditch New Town Planning Proposals (1966)
Redditch Biodiversity Action Programme (2001)
Feckenham Parish Plan (2006)
Redditch Borough Council Housing Needs Survey (2006)
Redditch Borough Council Strategy for the housing and support of older people (2008 -2026) Draft

2.2 A review of the implications which these PPPs could have for the Sustainability Appraisal and for the LDF has been completed at **Appendix A**. New PPPs will be reviewed as they emerge or are revised. With the preparation of each new LDD, the PPPs will be reviewed and any conflicts or inconsistencies will be recorded.

The review of the PPPs has provided some relevant indicators or targets useful for testing and refining the Sustainability Objectives.

Key points from the PPP review

2.3 From the review of the PPPs the Borough Council has identified some key points that should be taken into account during the progression of the LDF and potentially any associated Sustainability Appraisals.

2.4 An examination of the relationships between the PPPs will highlight synergies to be exploited as well as inconsistencies or constraints to be avoided. Many of the PPPs have the same objectives; therefore the implications for the LDDs and the SA are the same in many instances. There are no identified conflicts between objectives and the implications for the LDDs and SA are consistent, therefore it has not been necessary to indicate preferences in terms of the precedence of plans and guidance.

STAGE A2 – Collect baseline information

3. Collection of Baseline Data

3.1 Baseline information has been collected in order to help identify environmental, social and economic issues in Redditch. Sufficient baseline data has been collected to ensure that we have a sound understanding of the current and potential future state of the area to which the Local Development Framework relates. This has enabled the effects on sustainability, resulting from the LDF, to be adequately predicted.

3.2 It is important to note that at the time of preparing this Scoping Report, the Regional Spatial Strategy for the West Midlands is undergoing a review. A spatial options document was published for consultation early in 2007 and this identified options for strategic growth for Redditch Borough. The document stated that in terms of meeting the needs of Redditch, potential options for growth may involve development in neighbouring Districts. In order to assess the potential for growth in neighbouring Districts, it has been necessary, where practicable, to collect baseline information relevant to the surrounding parts of Redditch Borough.

3.3 The baseline information collected has had a number of positive functions:

- it has helped to formulate SA objectives
- it has highlighted any sustainability issues
- it has established targets or thresholds that currently exist
- it has provided the basis for monitoring effects, which in turn helps to identify if sustainability is no longer being achieved.

3.4 Government guidance on Sustainability Appraisal includes a list of possible sources of information, which have been used for evidence gathering for this report. The sources include international, national, regional and local level sources. All of these sources have been researched for possible relevant information and a baseline summary is set out in **Appendix B**. Other sources of information were also explored because not all of the baseline data suggested in the Government guidance can be collected. Neither are all of the data sources relevant to the Borough of Redditch LDF. As and when any missing data becomes available at the local level, it will be possible for future Sustainability Appraisals to include this information.

Baseline Results

3.5 Some of the main issues arising from the baseline information gathering exercise have been summarised in **Appendix B**.

STAGE A3 – Identify sustainability issues and problems

4. Identifying Sustainability Issues

4.1 Identifying sustainability issues helps define key issues and options for the LDF and gives us an opportunity to develop sustainable objectives and options. The sustainability issues have been identified predominantly through the analysis of the baseline assessment, the SEA Directive requirements and from the issues resulting from the review of relevant Plans, Policies and Programmes (PPPs). These sustainability issues may be more pertinent to some DPDs than others. The relevant evidence supporting each issue is displayed in the tables below.

4.2 SEA guidance requires that biodiversity, population, human health, fauna, flora, soil, water, air, climatic factors, material assets, cultural heritage including architecture and archaeological heritage and landscape issues need to be addressed. Also, in light of the SA requirements, economic and social issues, as well as these environmental issues, have been identified.

Table 1: Economic, Environmental and Social issues for the Borough of Redditch Local Development Framework

Issues	Supporting Evidence from Baseline Assessment/SEA Requirements/Review of PPP's
Economic	
Vitality and viability of centres	<p><u>Review of PPP:</u></p> <ul style="list-style-type: none"> - Planning Policy Statement 6: Planning for Town Centres - West Midlands Regional Spatial Strategy - State of the Region Report - Redditch Borough Council Retail and Leisure Needs Assessment <p><u>Review of Baseline Information:</u></p> <ul style="list-style-type: none"> - There have been no residential dwellings completed in Redditch Town Centre since at least 1996 - There is a high retail vacancy rate in Redditch Town Centre as a consequence of lower prime retail yields - New Town District Centres are unattractive - There is a lack of shopping facilities in Feckenham - Office rents are low and offices are poorly located in the Town Centre - The food offer in Redditch Town Centre is very poor - Town Centre vacancies have fallen significantly but are still slightly higher than the national average - Redditch's night time economy is poorly perceived
Redditch's economy	<p><u>Review of PPP:</u></p> <ul style="list-style-type: none"> - Worcestershire Economic Strategy - Worcestershire Local Area Agreement - State of the Region Report <p><u>Review of Baseline Information:</u></p> <ul style="list-style-type: none"> - Industrial demand in Redditch is predominantly for floorspace between 1000 and 2500 sq ft. - Industrial/warehouse availability in Redditch is higher than any other Worcestershire District
Business diversity	<p><u>Review of PPP:</u></p> <ul style="list-style-type: none"> - West Midlands Regional Spatial Strategy - West Midlands Regional Spatial Strategy Phase 2 Revision: Spatial Options Document - State of the Region Report <p><u>Review of Baseline Information:</u></p> <ul style="list-style-type: none"> - A high proportion of Redditch Borough's population are working in the manufacturing industry - A higher percentage of Redditch Borough's population are employed as 'process plant and machine operatives' than the national percentage - New business registration rates in Redditch are very low compared to other Worcestershire Districts
Environmental

STAGE A4 – Develop the Sustainability Appraisal Framework

5. Worcestershire County Council Joint SA Framework

5.1 Worcestershire County Council, in conjunction with the Local Authorities of Worcestershire has been coordinating a joint SA Framework for the County. A set of generic sustainability objectives have been developed, based upon the West Midlands Regional Sustainable Development Framework (RSDF). The objectives in the RSDF were in turn based upon the objectives set nationally in the UK's document 'Securing the Future'.

5.2 The joint SA Objectives formed at Worcestershire County Council level were developed in cooperation with all Local Authorities in Worcestershire, with the aim of having a robust set of objectives relevant to the whole of Worcestershire. It is necessary to change the objectives where the Borough Council sees fit. This enables the objectives to be responsive to Redditch needs and for us to include these as our SA Objectives in this Scoping Report.

Sustainability Appraisal (SA) Framework

5.3 The Sustainability Appraisal Framework comprises a set of sustainability objectives, decision-making criteria and indicators based upon those developed in the Worcestershire joint SA Framework. This framework can be used to assess the sustainability of the policies and objectives contained in the LDF.

5.4 To monitor the actual impacts of proposals in a LDD, a robust set of measurable indicators have been developed based on the decision-making criteria. The issues and their related Sustainability Objectives are detailed below and further information on the decision-making criteria, the indicators and the available data is contained in **Appendix C** to this Scoping Report.

Table 2: Sustainability Appraisal Framework

Issue for LDF? (including SEA Topics)	Sustainability Objectives
Economic	
Vitality and viability of centres	(9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment
Local economy	(4) Develop a knowledge-driven economy, with the appropriate infrastructure and skills base whilst ensuring all share the benefits urban and rural (6) Promote and support the development of new technologies, of high value and low impact, especially resource efficient technologies and environmental technology initiatives (14) To raise the skills levels and qualifications of the workforce
Business diversity	(4) Develop a knowledge-driven economy, with the appropriate infrastructure and skills base whilst ensuring all share the benefits urban and rural (6) Promote and support the development of new technologies, of high value and low impact, especially resource efficient technologies and environmental technology initiatives (14) To raise the skills levels and qualifications of the workforce
Environmental	
Climate change	(2) Reduce causes of and adapt to the impacts of climate change

Issue for LDF? (including SEA Topics)	Sustainability Objectives
	(18) Promoting resource efficiency and energy generated from renewable energy and low carbon sources
Reducing the need to travel	(3) to reduce the need to travel and move towards more sustainable travel patterns
Biodiversity	(7) Protect and improve the quality of water, soil and air and water resources (11) To protect and enhance biodiversity and geodiversity
Natural resources	(7) Protect and improve the quality of water, soil and air and water resources (8) Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to fluvial flood risks or contribute to surface water flooding in all other areas (11) To protect and enhance biodiversity and geodiversity (18) Promote resource efficiency and energy generated from renewable energy and low carbon sources
Making the most efficient use of land	(17) Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of green belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest
Landscape and Townscape character	(10) Safeguard and strengthen landscape and townscape character and quality
Water quality and water resources	(7) Protect and improve the quality of water, soil and air and water resources
Soil and air quality	(7) Protect and improve the quality of water, soil and air and water resources
Foul Drainage	(7) Protect and improve the quality of water, soil and air and water resources
Manage waste in accordance with the waste hierarchy	(1) To manage waste in accordance with the waste hierarchy: reduce, reuse, recycle, compost, recovery and disposal
Resource efficiency	(6) Promote and support the development of new technologies, of high value and low impact, especially resource efficient technologies and environmental technology initiatives (18) Promote resource efficiency and energy generated from renewable energy and low carbon sources
Openness of the green belt	(8) Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to surface water flooding in all other areas (10) Safeguard and strengthen landscape and townscape character and quality (17) Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of green belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest
Agricultural land	(8) Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to surface water flooding in all other areas (10) Safeguard and strengthen landscape and townscape character and quality (17) Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of green belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest
Flooding and flood risk	(8) Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to surface water flooding in all other areas
Local Distinctiveness	(10) Safeguard and strengthen landscape and townscape character and quality (16) Conserve and enhance the architectural, cultural and archaeological heritage and seek well-designed, resource efficient, high quality built environment in new development proposals
Social	
Cultural heritage	(16) Conserve and enhance the architectural, cultural and archaeological heritage and seek well-designed, resource efficient, high quality built environment in new development proposals
Historic Environment	(16) Conserve and enhance the architectural, cultural and archaeological heritage and seek well-designed, resource efficient, high quality built environment in new development proposals

Issue for LDF? (including SEA Topics)	Sustainability Objectives
Affordable housing	(13) Provide decent affordable housing for all that is cheap to run, of the right quality and tenure for local needs, in clean, safe and pleasant local environments
Local services and facilities	(9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment
Crime and fear of crime	(5) To provide opportunities for communities to participate in and contribute to decisions that affect their neighbourhood and quality of life, encouraging pride and social responsibility in the local community (15) Reduce crime, fear of crime and antisocial behaviour
Skills and education	(4) Develop a knowledge driven economy, with the appropriate infrastructure and skills base whilst ensuring all share the benefits urban and rural (14) To raise the skills levels and qualifications of the workforce
Open space	(9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment (17) Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of green belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest
Access to good quality sports facilities	(9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio – economic status or educational attainment (12) To improve the health and well-being of the population and reduce inequalities in health
Deprivation	(6) Promote and support the development of new technologies, of high value and low impact, especially resource efficient technologies and environmental technology initiatives (9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio – economic status or educational attainment (13) Provide decent affordable housing for all that is cheap to run, of all the right quality and tenure for local needs, in clean, safe and pleasant local environments (14) To raise the skills levels and qualifications of the workforce
High quality design and architecture	(13) Provide decent affordable housing for all that is cheap to run, of all the right quality and tenure for local needs, in clean, safe and pleasant local environments (16) Conserve and enhance the architectural, cultural and archaeological heritage and seek well-designed, resource efficient, high quality built environment in new development proposals
Health and well-being	(9) To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment

5.5 The objectives listed below will form the basis of the Sustainability Framework for assessing the objectives of DPDs or SPDs. The sustainability objectives are not listed in order of priority.

1. To manage waste in accordance with the waste hierarchy: reduce, reuse, recycle, compost, recovery, disposal;
2. Reduce causes of and adapt to the impacts of climate change;
3. To reduce the need to travel and move towards more sustainable travel patterns;
4. Develop a knowledge-driven economy, with the appropriate infrastructure and skills base whilst ensuring all share the benefits urban and rural;
5. To provide opportunities for communities to participate in and contribute to decisions that affect their neighbourhood and quality of life, encouraging pride and social responsibility in the local community;
6. Promote and support the development of new technologies, of high value and low impact, especially resource efficient technologies and environmental technology initiatives;
7. Protect and improve the quality of water, soil and air and water resources;
8. Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to fluvial flood risks or contribute to surface water flooding in all other areas;
9. To improve the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio – economic status or educational attainment;
10. Safeguard and strengthen landscape and townscape character and quality;
11. To protect and enhance biodiversity and geodiversity;
12. To improve the health and well-being of the population and reduce inequalities in health;
13. Provide decent affordable housing for all that is cheap to run, of all the right quality and tenure for local needs, in clean, safe and pleasant local environments;
14. To raise the skills levels and qualifications of the workforce;
15. Reduce crime, fear of crime and anti-social behaviour;
16. Conserve and enhance the architectural, cultural and archaeological heritage and seek well-designed, resource efficient, high quality built environment in new development proposals;
17. Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of Green Belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest;
18. Promote resource efficiency and energy generated from renewable energy and low carbon sources.

Testing objectives

5.6 The objectives in LDDs must be checked against the sustainability objectives listed under Stage A4. This enables conflicts between objectives to be highlighted which makes it possible to adjust them if necessary in order to make them as consistent as possible with the aims of sustainability. In general, the LDD objectives and the sustainability objectives will be consistent with one another, however occasionally they may overlap in terms of their desired outcomes. Testing the compatibility of the objectives is not conducted as part of the Scoping Report process, this is detailed further in the Sustainability Appraisal Report.

5.7 The sustainability matrix below exemplifies the analysis that will be used to compare the sustainability objectives with the objectives of the LDDs. The matrix will be used as part of the Sustainability Appraisal Report for each LDD. This analysis will be helpful to prioritise the objectives. The matrix consists of a marking system, where a colour will represent the level of conflict or compatibility.

- For objectives that are deemed to be ‘Positive compatible’ – LDD objectives support the sustainability objectives and no changes are advised;
- For objectives that are deemed to be ‘Potentially positive’ – LDD objectives may be sustainable perhaps with mitigation measures set out in the Sustainability Appraisal Report;

- For objectives that are deemed to be 'Neutral' – LDD objectives do not relate to the sustainability objectives or the LDD objective had negative and positive outcomes in balance;
- For objectives that are deemed to have 'Possible conflict' – LDD objectives conflict with sustainability objectives. The LDD objective needs to have mitigating measures as detailed in the Sustainability Report; and
- For objectives that are deemed to have 'No relationship/Unsure' – Either there is no identifiable relationship or information is not available to appraise the objective.

APPENDICES

APPENDIX A – Review of PPPs

Identification of relevant policies, plans and programmes

Each of the PPP's have been reviewed in the context of the Borough of Redditch Local Development Framework. The following questions were used to undertake this review: What is the PPP called? What are the key objectives of the PPP that are relevant to the LDF? Are there any targets/indicators in the PPP that are relevant to the LDF? What are the implications for the Sustainability Appraisal? The Core Strategy Development Plan Document, as the first and overarching DPD has been focused on in this review as well as possible implications for allocating sites for development up until 2026.

Table 3: Identification of Relevant Plans, Policies and Programmes

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
International			
Kyoto Agreement, United Nations (1992)	<ul style="list-style-type: none"> • By 2008-2012, all EU countries must reduce their emissions by 8% below their 1990 levels • Stabilise greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system • Take precautionary measures to anticipate, prevent or minimise the causes of climate change and mitigate its adverse effects 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy aiming to reduce the effects of climate change 	<ul style="list-style-type: none"> • The need to reduce climate change is an issue for this Scoping Report
European Spatial Development Perspective (1999)	<ul style="list-style-type: none"> • Ensure that the 3 fundamental goals of European policy are achieved equally in all the regions of the EU: <ul style="list-style-type: none"> – economic and social cohesion – conservation and management of natural resources and the cultural heritage – more balanced competitiveness of the European territory • 3 policy guidelines for the spatial development of the EU: <ul style="list-style-type: none"> – develop a balanced and polycentric urban system and a new urban-rural relationship – secure parity of access to infrastructure and knowledge – sustainable development, prudent management and protection of nature and cultural heritage • Develop a polycentric and balanced urban system and strengthen the partnership between urban and rural areas • Develop and conserve natural and cultural heritage through wise management • Promote multi-modal transport concepts and a reduction in the need to travel 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to protect nature • Consider the need for a policy aiming to protect cultural heritage • Consider the need for a policy aiming to reduce the need to travel • Consider the need for a policy aiming for high quality architecture • Allocations of housing and employment must aim to reduce the need to travel 	<ul style="list-style-type: none"> • The need to reduce the need to travel is an issue for this Scoping Report • The need to conserve cultural heritage is an issue for this Scoping Report • Protecting biodiversity is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
European Sustainable Development Strategy (2001)	<ul style="list-style-type: none"> • Protect and conserve urban heritage and promote high-quality architecture • Limit climate change and increase the use of clean energy • Combat poverty and social exclusion • Manage natural resources more responsibly • Improve the transport system and land use management 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to reduce the effects of climate change • Consider the need for a policy aiming to protect natural resources • Consider the need for a policy aiming to improve the transport system • Allocations must use land efficiently 	<ul style="list-style-type: none"> • The need to reduce climate change is an issue for this Scoping Report • The need to protect natural resources is an issue for this Scoping Report • Making the most efficient use of land is an issue for this Scoping Report
European Directive 92/43/EEC – Conservation of natural habitats and of wild flora and fauna (1992)	<ul style="list-style-type: none"> • Maintain or restore natural habitats and wild species at a favourable conservation status, introducing robust protection for habitats and species of European importance • Maintain and where appropriate develop features of the landscape of major importance for wild fauna and flora and encourage their management • Take account of economic, social and cultural requirements and regional and local characteristics 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to maintain or restore relevant habitats and species • Consider the need for a policy aiming to maintain and develop landscape features of major importance 	<ul style="list-style-type: none"> • The need to protect and conserve biodiversity is an issue for this Scoping Report • The need to safeguard landscape and townscape character is an issue for this Scoping Report
European Directive 2000/60/EC – Water Framework Directive (2000)	<ul style="list-style-type: none"> • Expand the scope of water protection to all waters, surface waters and groundwater • Achieve ‘good status’ for all waters by 2015. A River Basin Planning cycle will define environmental status objectives for each water body to achieve within a specified time period • Have wiser, sustainable use of water as a natural resource • Create better habitats for wildlife that lives in and around water, for example by improving the chemical quality of water • Water management based on river basins • Get citizens involved more closely • Have integrated river basin management based on the Severn River Basin area • Monitor and classify water bodies, improve risk assessments and programmes of measures 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to protect all relevant waters 	<ul style="list-style-type: none"> • Protecting water quality and water resources is an issue for this Scoping Report
European Directive (75/442/EEC, as amended) – Waste Framework Directive (1975)	<ul style="list-style-type: none"> • Give priority to waste prevention and encourage reuse and recovery of waste • Ensure cost of disposal is borne by the waste holder in accordance with the polluter pays principle 	<ul style="list-style-type: none"> • Consider the need for a policy encouraging waste prevention, reuse and recovery 	<ul style="list-style-type: none"> • The need to manage waste in accordance with the waste hierarchy is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
The Directive to promote electricity from renewable energy (2001/77/EC)	<ul style="list-style-type: none"> Encourage greater consumption of electricity produced from renewable energy sources 	<ul style="list-style-type: none"> Consider the need for a policy aiming to increase the use of renewable energy sources in developments 	<ul style="list-style-type: none"> The need to promote resource efficiency is an issue for this Scoping Report
Aarhus Convention (1998)	<ul style="list-style-type: none"> Guarantee rights of access to information, public participation in decision-making and access to justice in environmental matters 	<ul style="list-style-type: none"> None 	<ul style="list-style-type: none"> The SA process will be fully integrated with community participation
EU Sixth Environmental Action Plan (2002 – 2012)	<ul style="list-style-type: none"> There are 4 environmental areas for priority actions <ul style="list-style-type: none"> Climate change Nature and Biodiversity Environment and Health and Quality of Life Natural Resources and Waste Integrate environmental concerns. Environmental problems must be tackled where their source is, and this is frequently in other policies Promote participation and involvement In the long term reduce global emissions by approximately 20-40% on 1990 levels by 2020 Tackle long term goal of a 70% reduction in emissions by the Intergovernmental Panel on Climate Change Protect soils against erosion and pollution Reduce the quantity of waste going to final disposal by around 20% on 2000 levels by 2010 and 50% by 2050 	<ul style="list-style-type: none"> Consider the need for a policy aiming to contribute towards reducing emissions Consider the need for a policy aiming to reduce the effects of climate change Consider the need for a policy aiming to protect soils Consider the need for a policy encouraging waste prevention, reuse and recovery 	<ul style="list-style-type: none"> The need to promote resource efficiency is an issue for this Scoping Report The need to reduce climate change is an issue for this Scoping Report The need to protect soil quality is an issue for this Scoping Report The need to manage waste in accordance with the waste hierarchy is an issue for this Scoping Report
Council Directive on the convention of wild birds (1979/409/EEC)	<ul style="list-style-type: none"> Maintain the favourable conservation status of wild birds species Identify and classify Special Protection Areas for rare and vulnerable species Establish a general scheme of protection for wild birds 	<ul style="list-style-type: none"> Consider the need for a policy aiming to maintain or restore relevant habitats and species 	<ul style="list-style-type: none"> The need to protect and enhance biodiversity is an issue for this Scoping Report
European Air Quality Directive (2000)	<ul style="list-style-type: none"> New air quality standards for previously unregulated air pollutants Pollutants governed by already existing ambient air quality objectives and benzene, carbon monoxide, polycyclic aromatic hydrocarbons, cadmium, arsenic, nickel and mercury Establishes a community wide procedure for exchange of information and data on ambient air quality in the EC 	<ul style="list-style-type: none"> Consider the need for a policy aiming to reduce pollution Consider the need for a policy aiming to reduce the need to travel 	<ul style="list-style-type: none"> The need to reduce the need to travel is an issue for this Scoping Report
European Landscape Convention (2006)	<ul style="list-style-type: none"> The aims of this Convention are to promote landscape protection, management and planning, and to organise European co-operation on landscape issues To recognise landscapes in law as an essential component of people's surroundings, an expression of the diversity of their shared cultural and natural heritage, and a foundation of their identity To establish and implement landscape policies aimed at landscape protection, management and planning through the adoption of the specific measures set out in Article 6 To establish procedures for the participation of the general public, local and regional 	<ul style="list-style-type: none"> Consider the need for landscape protection Consider the need for landscape character assessments 	<ul style="list-style-type: none"> The need to safeguard landscape and townscape character is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>authorities, and other parties with an interest in the definition and implementation of the landscape policies mentioned in paragraph b above</p> <ul style="list-style-type: none"> • To integrate landscape into its regional and town planning policies and in its cultural, environmental, agricultural, social and economic policies, as well as in any other policies with possible direct or indirect impact on landscape • With the active participation of the interested parties, as stipulated in Article 5.c, and with a view to improving knowledge of its landscapes, each Party undertakes i) to identify its own landscapes throughout its territory; ii) to analyse their characteristics and the forces and pressures transforming them; ii)l to take note of changes 		
NATIONAL			
<p>Planning Policy Statement 1 – Delivering Sustainable Development (2005)</p>	<ul style="list-style-type: none"> • Facilitate and promote sustainable and inclusive patterns of urban / rural development by: <ul style="list-style-type: none"> – making suitable land available for development in line with economic, social and environmental objectives to improve quality of life – contributing to sustainable economic development – protecting and enhancing the natural/historic environment, quality and character of the countryside / existing communities – ensuring high quality development through good and inclusive design, and efficient use of resources – ensuring development supports existing communities and contributes to the creation of safe, sustainable, liveable and mixed communities with good access to jobs and key services for all members of the community • Address the causes and potential impacts of climate change through policies which reduce energy use, reduce emissions, promote development of renewable energy resources, and consider climate change impacts in the location and design of development • Policies should promote high quality inclusive design for the lifetime of the development • Ensure communities can contribute to ideas about how the vision can be achieved, can participate in developing the vision, strategy and plan policies, and be involved in development proposals • Promote resource and energy efficient buildings; community heating schemes, use of combined heat and power, small scale renewable and low carbon energy schemes in developments; the sustainable use of water resources; and the use of sustainable drainage systems in the management of run-off • Focus developments attracting a large number of people, especially retail, leisure and office development, in existing centres to promote vitality and viability, social inclusion and sustainable patterns of development • Reduce the need to travel and encourage accessible public transport provision • Prepare policies on design and access based on stated objectives for the future of the area and an understanding and evaluation of its present defining characteristics. Avoid unnecessary 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to protect and enhance natural/historic environment • Consider the need for a policy aiming to protect and enhance the quality, character and amenity value of the countryside and urban area as a whole • Consider the need for a policy encouraging good, high quality and inclusive design • Consider the need for a policy aiming to mitigate effects of and reduce the effects of climate change • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy aiming to increase the use of renewable energy sources in developments • Consider the need for a policy focusing development attracting large numbers to existing centres • Promote a suitable mix of housing 	<ul style="list-style-type: none"> • The need to protect and enhance biodiversity is an issue for this Scoping Report • The need to protect the historic environment is an issue for this Scoping Report • The need for high quality design and architecture is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report • The need to promote resource efficiency is an issue for this Scoping Report • The need to maintain and enhance the vitality and viability of centres is an issue for this Scoping Report • The need to reduce the need to travel is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>prescription / detail concentrating on guiding the overall scale, density, massing, height, landscape, layout and access of new development in relation to neighbouring buildings and the local area generally</p> <ul style="list-style-type: none"> • Seek to protect and enhance the quality, character and amenity value of the countryside and urban areas as a whole • A high level of protection should be given to most valued townscapes and landscapes, wildlife habitats and natural resources • Enhance as well as protect biodiversity, natural habitats, the historic environment and landscape and townscape character • Plan for the achievement of high quality and inclusive design, including individual buildings, public and private spaces and wider area development schemes. Design which is inappropriate in its context, or which fails to take the opportunities available for improving the character and quality of an area and the way it functions, should not be accepted • Seek to promote or reinforce local distinctiveness 	<ul style="list-style-type: none"> • Promote the most valued townscapes, landscapes, wildlife habitats and natural resources • Mitigate the effects of declining environment quality through positive policies on design, conservation and public space • Policy for inclusive design and access, both location and physical access • Allocations in sustainable urban and rural areas • Allocations should aim to be safe, sustainable, livable and mixed with good access to jobs and key services • Allocations of housing and employment must aim to reduce the need to travel • Ensure sustainable locations for industrial, commercial, retail, public, tourism and leisure use • Actively bring forward vacant and underused previously developed land and buildings • Avoid development in areas at risk of flooding • Bring forward land of a suitable quality in appropriate locations • Promote efficient use of land through higher densities, mixed uses and through the use of suitably located, previously developed land and buildings 	
<p>Planning Policy Statement: Planning and Climate Change – Supplement to PPS1</p>	<ul style="list-style-type: none"> • Reduce carbon dioxide emissions, through domestic and international action, to 26-32% below 1990 levels by 2020 and to at least 60 per cent by 2050 • Deliver the Government’s ambition of zero carbon development • Shape sustainable communities that are resilient to and appropriate for climate change 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to increase the use of renewable energy sources in developments 	<ul style="list-style-type: none"> • The need to promote resource efficiency is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
(2007)	<ul style="list-style-type: none"> • Create an attractive environment for innovation and investment, including in renewable and low-carbon technologies and supporting infrastructure • Support delivery of the timetable for reducing carbon emissions from domestic and non-domestic buildings • Building a Greener Future7 sets out a progressive tightening of Building Regulations to require major reductions in carbon emissions from new homes to get to zero carbon by 2016 • There are similar ambitions to cut carbon emissions from new non-domestic buildings • Secure the highest viable resource and energy efficiency and reduction in emissions • Deliver patterns of urban growth and sustainable rural developments that help secure the fullest possible use of sustainable transport for moving freight, public transport, cycling and walking; and, which overall, reduce the need to travel, especially by car • Secure new development and shape places that minimise vulnerability, and provide resilience, to climate change; and in ways that are consistent with social cohesion and inclusion • Conserve and enhance biodiversity, recognising that the distribution of habitats and species will be affected by climate change • Reflect the development needs and interests of communities and enable them to contribute effectively to tackling climate change • Respond to the concerns of business and encourage competitiveness and technological innovation in mitigating and adapting to climate change • The proposed provision for new development, its spatial distribution, location and design should be planned to limit carbon dioxide emissions • New development should be planned to make good use of opportunities for decentralised and renewable or low carbon energy • Mitigation and adaptation should not be considered independently of each other, and new development should be planned with both in mind • Consider the opportunities for the core strategy to add to the policies and proposals in the RSS, such as where local circumstances would allow further progress to be made to achieving key planning objectives. In doing so, the core strategy should be informed by, and in turn inform, local strategies on climate change including the sustainable community strategy • Provide a framework that promotes and encourages renewable and low-carbon energy generation • Consider identifying suitable areas for renewable and low-carbon energy sources, and supporting infrastructure, where this would help secure the development of such sources, but in doing so take care to avoid stifling innovation including by rejecting proposals solely because they are outside areas identified for energy generation • Expect a proportion of the energy supply of new development to be secured from decentralised and renewable or low-carbon energy sources • Give positive consideration to the use of local development orders (LDO) to secure renewable 	<ul style="list-style-type: none"> • Consider the need for adaptation and mitigation on climate change • Consider the need for a policy aiming to reduce the effects of climate change • Promote zero carbon development in domestic and non-domestic buildings • Promote sustainable transport methods and reduce the need to travel by car • Deliver patterns of urban growth which secure fullest possible use of sustainable transport • Aim to sustain biodiversity • Ensure all developments are of the highest viable standards of resource and energy efficiency with low-carbon technologies being promoted • Promote the use of a decentralised energy supply • Allocations of housing and employment must aim to reduce the need to travel • Developments in locations that can be accessed sustainably • Consider the need for a local policy to expand on RSS policies on climate change • Consider identifying areas for renewable and low-carbon sources • Consider the need to formulate targets for the percentage of energy from decentralised and renewable or low-carbon energy sources 	<ul style="list-style-type: none"> • The need to reduce climate change is an issue for this Scoping Report • The need to reduce the need to travel is an issue for this Scoping Report • The need to protect biodiversity is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>and low-carbon energy supply systems</p> <ul style="list-style-type: none"> • Have an evidence-based understanding of the local feasibility and potential for renewable and low-carbon technologies, including microgeneration, to supply new development • Set out a target percentage of the energy to be used in new development to come from decentralised and renewable or low-carbon energy sources where it is viable. The target should avoid prescription on technologies and be flexible in how carbon savings from local energy supplies are to be secured • Where there are particular and demonstrable opportunities for greater use of decentralised and renewable or low-carbon energy than the target percentage, bring forward development area or site-specific targets to secure this potential • In bringing forward targets, set out the type and size of development to which the target will be applied • In bringing forward targets, ensure there is a clear rationale for the target and it is properly tested • In allocating land for development, planning authorities can set out how the proposed development would be expected to contribute to securing the decentralised energy supply system from which it would benefit • Planning authorities, developers and other partners in the provision of new development should engage constructively and imaginatively to encourage the delivery of sustainable buildings • Any policy relating to local requirements for decentralised energy supply to new development or for sustainable buildings should be set out in a DPD • Facilitate good design by identifying the distinctive features that define the character of a particular local area • Careful attention to design is particularly important where the chosen local strategy involves intensification of the existing urban fabric. More intensive development is not always appropriate. However, when well designed and built in the right location, it can enhance the character and quality of an area • In Conservation Areas and other local areas of special character where, if proper attention is paid to achieving good design, new development opportunities can be taken without adverse impacts on their character and appearance 	<ul style="list-style-type: none"> • Consider the need for higher targets in development areas/specific sites 	
<p>Planning Policy Guidance 2: Green Belts (amended 2001)</p>	<ul style="list-style-type: none"> • Prevent urban sprawl by keeping land permanently open; the most important attribute of Green Belts is their openness • Existing Green Belt boundaries should not be changed unless alterations to the structure plan are approved, or other exceptional circumstances exist necessitating such revision • In preparing and reviewing development plans, address the possible need to provide safeguarded land. Consider the broad location of anticipated development beyond the plan period, its effects on urban areas contained by the Green Belt and on areas beyond it, and its implications for sustainable development 	<ul style="list-style-type: none"> • Consider the need for a policy to protect the openness of the green belt • Consider if exceptional circumstances exist for altering the green belt boundary and inclusion of an associated policy • Consider the need for 	<ul style="list-style-type: none"> • The need to protect the openness of the green belt is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> State clearly the policies applying to safeguarded land over the period covered by the plan. Make clear that the land is not allocated for development at the present time, and keep it free to fulfil its purpose of meeting possible longer-term development needs 	<p>safeguarded land and inclusion of an associated policy</p> <ul style="list-style-type: none"> Consider whether exceptional circumstances exist for altering the green belt boundary Consider the need for safeguarded land 	
<p>Planning Policy Statement 3: Housing (2006)</p>	<ul style="list-style-type: none"> Define and communicate a spatial vision for the area, determining a strategy for delivering the vision and joining up planning, housing and wider strategies including economic and community strategies Take into account market information when developing housing policies. Have regard to housing market areas in developing spatial plans Develop a shared vision with the local communities regarding the type(s) of residential environments they wish to see and develop design policies that set out the quality of development expected for the local area Reflect the approach set out in the PPS on climate change, and the Code for Sustainable Homes Facilitate efficient delivery of high quality development by promoting the use of appropriate tools and techniques, such as Design Coding alongside urban design guidelines, detailed masterplans, village design statements, site briefs and community participation techniques Based on findings of the Strategic Housing Market Assessment and other local evidence, establish in the LDD the likely overall proportions of households that require market or affordable housing, the likely profile of household types requiring market housing and the size and type of affordable housing required Plan for a mix of housing on the basis of the different types of households that are likely to require housing over the plan period Ensure that the proposed mix of housing on large strategic sites reflects the proportions of households that require market or affordable housing and achieves a mix of households, tenure and price Plan for a full range of market housing, in particular, low-cost market housing Set an overall (i.e. plan-wide) target for the amount of affordable housing to be provided, Reflect an assessment of the likely economic viability of land for housing within the area, taking account of risks to delivery Aim to ensure that provision of affordable housing meets the needs of current and future occupiers Set separate targets for social-rented and intermediate affordable housing where appropriate Specify size and type of affordable housing through consideration of findings in Strategic Housing Market Assessment 	<ul style="list-style-type: none"> Inclusion of a spatial vision Consider the need for a strategy to achieve the vision Consider the regard needed for housing market areas Consider the need for a policy aiming for good design Consider the overall need for affordable housing and a target and inclusion of an affordable housing Policy Consider the need for a lower site size threshold for affordable housing Consider the need for a policy, including criteria to be used in identifying broad locations for developments for a 15 year period from adoption Consider the need for a policy setting a local PDL target and trajectory Consider the need for a housing density policy/range of density Consider the need for a policy on residential parking Consider the inclusion of a map with the broad locations for housing Consider the regard needed for housing market areas 	<ul style="list-style-type: none"> The need for high quality design and architecture is an issue for this Scoping Report The need for affordable housing is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Set out approach to seeking developer contributions to facilitate the provision of affordable housing • Consider allocating and releasing sites solely for affordable housing, including using a Rural Exception Site Policy • Develop positive policies to identify and bring into residential use empty housing and buildings in line with local housing and empty homes strategies • The national indicative minimum site size threshold is 15 dwellings. However set lower minimum thresholds where viable and practicable including in rural areas • Working with stakeholders, set out the criteria to be used for identifying broad locations and specific sites • Nationally, 60% of new housing should be provided on previously developed land. This includes vacant or derelict land / buildings, as well as land that is currently in use but which has potential for re-development • LDD should include a local previously developed land target and trajectory • Develop strategies for bringing previously developed land into housing use including consideration of a range of incentives or interventions to ensure strategy is achieved • Develop housing density policies or a range of densities across the plan area rather than one broad density range • 30 dwellings per hectare net is the national indicative minimum, until local density policies are in place • Facilitate good design by identifying distinctive features that define the character of a particular area • Develop residential parking policies • Set out in LDDs policies / strategies for delivering the level of housing provision, identifying broad locations and specific sites enabling continuous delivery of housing for at least 15 years from adoption • Have regard to the level of housing provision proposed in the emerging RSS • Draw on information in the Strategic Housing Land Availability Assessment and / or other relevant evidence to identify sufficient specific deliverable sites to deliver housing in the first five years • Identify a further supply of specific, developable sites for years 6-10 and where possible, for years 11-15. Where it is not possible to identify specific sites for years 11-15, broad locations for future growth should be indicated • Identify those strategic sites critical to the delivery of the housing strategy over the plan period • Show broad locations on a key diagram and locations of specific sites on a proposals map • Illustrate the expected rate of housing delivery through a housing trajectory for the plan period • Set out a housing implementation strategy that describes the approach to managing delivery of the housing and previously-developed land targets and trajectories 	<ul style="list-style-type: none"> • Consider the overall need for affordable housing and a target • Consider the need to identify specific sites for developments • Allocations should be directed towards previously developed land • Allocations should reflect the level of housing proposed in the emerging RSS • Identify housing sites enabling continuous delivery of sites for 15 years from adoption with specific deliverable sites in the first five years from adoption • Consider the need to identify critical strategic sites • Consider the need for the proposals map to detail the specific sites allocated • Consider the need for a housing trajectory • Consider the need for policy on the housing implementation strategy • Continue the Preferred Partnership Arrangements with local RSLs to improve operational efficiency and sustainability 	

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
<p>Planning Policy Guidance 4: Industrial, commercial development and small firms (1992)</p>	<ul style="list-style-type: none"> • Give industrial and commercial developers as well as local communities, greater certainty about the types of development that will or will not be permitted in a given location • Ensure development plans contain clear policies for different types of industrial and commercial development • Encourage new development in locations which minimise the length and number of trips, especially by motor vehicles • Encourage new development in locations that can be served by more energy efficient modes of transport • Discourage new development where it would be likely to add unacceptably to congestion • Locate development requiring access mainly to local roads away from trunk roads, to avoid unnecessary congestion on roads designed for longer distance movement 	<ul style="list-style-type: none"> • Allocate appropriate employment land in sustainable locations • Allocations of employment must aim to reduce the need to travel 	<ul style="list-style-type: none"> • The need to reduce the need to travel is an issue for this Scoping Report
<p>Planning Policy Statement 4 'Planning for Sustainable Economic Development' 2007 (Consultation Draft)</p>	<ul style="list-style-type: none"> • Maintain macroeconomic stability, ensure job opportunities for all, and use microeconomic reforms to tackle market failures • Planning policies must be flexible enough to respond to the economic challenges and opportunities that globalisation and technological advances bring • System needs to deliver economic development in a way which is sensitive to the challenges of climate change • Have a good range of sites for economic development and mixed-use development • A good supply of land and buildings which offers a range of opportunities for creating new jobs in large and small businesses as well as start-up firms, and which is responsive to changing needs and demands • Promote high quality development and inclusive design for all forms of economic development • Avoid adverse impact on the environment • Shape travel by promoting sustainable travel choices wherever possible • Promote opportunities for regenerating deprived areas and focus on economic under performance especially in those areas that have suffered from economic restructuring • Complete an Employment Land Review to feed into the evidence base • Ensure strategy takes account of local character and need for a high quality environment • Ensure strategy takes account of rural needs • Take account of different locational business requirements • Take account of relevant market information • Maintain an up to date account of the demand for employment land • Ensure plan takes account of existing designated areas, taking into account where they are expanding • Plan for new business sectors • Recognise benefits of when certain types of business locate in close proximity • Develop policies in conjunction with higher and further education establishments 	<ul style="list-style-type: none"> • Consider the microeconomic issues in the Borough • Policies will need to be flexible to respond to changing circumstances • Complete an Employment Land Review • Consider the need for a policy on employment development design • Consider aligning employment growth policies and climate change, historic and natural environment policies • Consider a policy on the sequential approach to employment development • Consider developing policies in conjunction with higher education establishments • Establish whether there is a need for a policy on tall buildings 	<ul style="list-style-type: none"> • The need to promote business diversity is an issue for this Scoping Report • The need to promote resource efficiency is an issue for this Scoping Report • The need to reduce travel is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report • The need to diversify the economic base is an issue in this Scoping Report • The need to promote the local economy is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Identify, protect and promote key distribution networks • For telecommunication networks, provide an appropriate framework, including policies and proposals for the siting and external appearance of telecommunication • For office developments give preference to the identification of sites in or on the edge of town centres for larger office development, consistent with the sequential approach in PPS6 • Avoid designating sites for single or restricted use classes • Avoid carrying over existing designated allocations where it can not be justified • Set criteria based policies, where necessary safeguarding land from other uses • Cater for a broad range of business types • Where necessary separate certain types of industry or infrastructure from sensitive land uses where they are detrimental to amenity, a potential source of pollution or an accident hazard • Take into account changing working patterns, economic data including price signals and the need for policies which reflect local circumstances • Use a range of evidence to assess the most efficient and effective use of land in planning and decision-taking, including the use of market signals • Prioritise previously developed land which is suitable for re-use • Take a constructive approach to changes where there is no likelihood of harm • Encourage new uses for vacant or derelict buildings • Take account of the changing spatial working patterns that advances in information and communication technologies • Include a policy on tall buildings where this is justified by local circumstances • Develop car parking policies for non-residential development at the local level, setting maximum standards based on the following: <ul style="list-style-type: none"> - future levels of public transport accessibility; - need to encourage cycling, walking and sustainable modes of transport; - plan appropriately for disabled parking and access; - varying needs of businesses; - particular needs of hospitals; - differing needs of rural and urban areas; - provision for powered two-wheelers • Ensure the design of new commercial development addresses the challenges posed by climate change and pressures on the natural and historic environment • Ensure development is durable and sustainable • Encourage telecommunications mast or site-sharing and seek to safeguard locations from telecommunications development which are sensitive because of their impact on the historic, built or natural environment

		<ul style="list-style-type: none"> • Protect existing facilities which provide day to day need • For village shops and services include a policy ensuring their importance is taken into account, favoring conversions and extensions which will improve viability • Consider the need to allocate appropriate sites for identified need • Define the extent of the primary shopping area and the town centre on the proposals map • Allocate 5 years of available sites after assessing need; defining the appropriate scale; applying the sequential approach; assessing the impact and ensuring its accessible and well served by a choice of modes of transport • Policy for the phasing and release of development sites over the DPD period • Ensure all new development is accessible 	
PPS7: Sustainable Development in Rural Areas (2004)	<ul style="list-style-type: none"> • Raise quality of life and the environment in rural areas through the promotion of: <ul style="list-style-type: none"> – thriving, inclusive and sustainable rural communities, ensuring people have decent places to live by improving the quality and sustainability of local environments/ neighbourhoods – sustainable economic growth and diversification – good quality, sustainable development that respects and, where possible, enhances local distinctiveness and intrinsic qualities of the countryside – continued protection of the open countryside to benefit all, with the highest level of protection for our most valued landscapes and environmental resources • Promote more sustainable patterns of development by: <ul style="list-style-type: none"> – focusing most development in / next to existing towns and villages – preventing urban sprawl 	<ul style="list-style-type: none"> • Consider the need for a policy promoting sustainable economic growth and diversification • Consider the need for a policy aiming for good quality, respectful design in urban and rural areas • Consider the need for a policy aiming to protect relevant landscapes, townscapes and environmental resources 	<ul style="list-style-type: none"> • The need to promote the local economy is an issue for this Scoping Report • The need to provide high quality design and architecture is an issue for this Scoping Report • The need to protect landscape and townscape character is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – discouraging development of ‘greenfield’ land and where it must, it is not used wastefully – promoting a range of uses maximising potential benefits of the countryside fringing urban areas – providing appropriate leisure opportunities enabling urban / rural dwellers to enjoy the wider countryside • Promote sustainable, diverse and adaptable agriculture sectors where farming achieves high environmental standards, minimising impact on natural resources, and manage valued landscapes and biodiversity • Away from the urban areas, focus most new development in / near to local service centres. Identify these centres in the development plan as preferred • Establish policies for allowing limited development in / next to rural settlements that are not designated as local service centres, to meet local business / community needs and to maintain their vitality • Identify suitable sites for future economic development, particularly rural areas where there is a need for employment creation and economic regeneration • Outline criteria for permitting economic development in different locations, including future expansion of businesses • Support retention of local facilities and set out criteria to apply in considering applications resulting in the loss of important village services • Outline policy criteria for permitting conversion and re-use of buildings in the countryside for economic/residential/ other purposes, including mixed uses • Set out in criteria for the replacement of countryside buildings • The presence of best and most versatile agricultural land should be taken into account alongside other sustainability considerations • Include policies identifying major areas of agricultural land planned for development and consider policies protecting specific areas of best and most versatile agricultural land • Set out the criteria to be applied to applications for farm diversification projects • Ensure that development respects and, where possible, enhances historic and architectural value • Facilitate sustainable development that supports traditional land-based activities and makes the most of new leisure and recreational opportunities that require a countryside location • Ensure that the quality and character of the wider countryside is protected and, where possible, enhanced • Have particular regard to any areas that have been statutorily designated for their landscape, wildlife or historic qualities where greater priority should be given to restraint of potentially damaging development • Support development that delivers diverse and sustainable farming enterprises • Support other countryside-based enterprises and activities which contribute to rural economies, 	<ul style="list-style-type: none"> • Consider the need for a policy providing leisure opportunities in the countryside • Consider the need for a policy encouraging development near local service centres allowing limited development in/next to settlements not designated as local service centres in order to meet needs • Consider the need for a policy detailing criteria for permitting economic development in the rural area • Consider the need for a policy detailing criteria for losses of important village services • Consider the need for a policy detailing criteria for replacement countryside buildings/farm diversification projects • Consider the need for policy identifying agricultural land planned for development • Consider the need for a survey and assessment of rural economic and social conditions and needs, including local housing needs • Policies should seek to maintain and enhance the economic, environmental and social values of the countryside • Policy criteria should be set out for permitting the conversion and re-use of buildings in the countryside for economic, residential and any other 	<ul style="list-style-type: none"> • The need to protect local services and facilities is an issue for this Scoping Report • The need to maintain the best agricultural land is an issue for this Scoping Report • The need to make the best use of land is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>and/or promote recreation in and the enjoyment of the countryside</p> <ul style="list-style-type: none"> • Take account of the need to protect natural resources • Provide for the sensitive exploitation of renewable energy sources in accordance with the policies set out in PPS22 • Conserve specific features and sites of landscape, wildlife and historic or architectural value, in accordance with statutory designations • Support through planning policies, sustainable rural tourism and leisure developments that benefit rural businesses, communities and visitors and which utilise and enrich, but do not harm, the character of the countryside, its towns, villages, buildings and other features • Recognise that in areas statutorily designated for their landscape, nature conservation or historic qualities, there will be scope for tourist and leisure related developments, subject to appropriate control over their number, form and location to ensure the particular qualities or features that justified the designation are conserved • Ensure that any plan proposals for large-scale tourism and leisure developments in rural areas have been subject to close assessment to weigh-up their advantages and disadvantages to the locality in terms of sustainable development objectives. In particular, the policy in PPG13 should be followed in such cases where high volumes of traffic may be generated 	<p>purposes including mixed uses</p> <ul style="list-style-type: none"> • Criteria should be set regarding planning applications for farm diversification projects • Policies should be set out which support equine enterprises that maintain environmental quality and countryside character • Allocations should be directed towards previously developed land • Allocate sites for future economic development in rural areas • Consider the need for policy identifying agricultural land planned for development 	
PPG8: Telecommunications (2001)	<ul style="list-style-type: none"> • Facilitate the growth of new and existing telecommunications systems whilst keeping the environmental impact to a minimum • Particularly in designated areas, aim for apparatus to blend into the landscape • Encourage prospective developers of new housing/office/industrial estates to consider with all relevant telecommunications operators how telecommunications needs of occupiers will be met • Protect public health • Protect the countryside and urban areas especially SSSIs, Green Belt, and areas and building of architectural or historical interest • Sharing masts and sites is encouraged where that represents the optimum environmental solution in a particular case 	<ul style="list-style-type: none"> • Consider the need for a policy encouraging developers to consult with relevant telecommunications operators 	<ul style="list-style-type: none"> • None
PPS9: Biodiversity and Geological Conservation (2005)	<ul style="list-style-type: none"> • Ensure that biological and geological diversity are conserved and enhanced as an integral part of social, environmental and economic development • DPDs should be based upon up-to-date information about the environmental characteristics of the areas • Maintain and enhance, restore or add to biodiversity and geological conservation interests • Indicate the location of designated sites of importance for biodiversity and geodiversity, making clear distinctions between the hierarchy of international, national, regional and locally designated sites • Identify areas/sites for restoration/creation of new priority habitats contributing to regional targets 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to maintain, enhance, restore or add to biodiversity and geological conservation • Consider the need for a policy aiming to protect SSSIs • Consider the need for a policy setting out criteria for proposals affecting appropriate designated sites 	<ul style="list-style-type: none"> • The need to protect and enhance biodiversity is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Features of SSSIs not covered by an international designation, should be protected • Criteria-based policies should be established against which development proposals on or affecting regional and local designated sites will be judged • Identify ancient woodland with no statutory protection • Conserve other important natural habitat types identified in the Countryside and Rights of Way Act (2000) Section 74 list and identify opportunities to enhance and add to them 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to conserve, enhance and add to CROW Act habitat types • Plan policies should promote opportunities for the incorporation of beneficial biodiversity and geological features within the design of development • Conditions and/or planning obligations should be used to mitigate the harmful aspects of the development and where possible, to ensure the conservation and enhancement of the site's biodiversity or geological interest • Consider the need for the proposals map to set out the location of relevant designated sites and areas/sites for restoration/creation of new propriety habitats if appropriate • Plan policies on the form and location of development should take a strategic approach to the conservation, enhancement and restoration of biodiversity and geology, and recognise the contributions that sites, areas and features, both individually and in combination, make to conserving these resources 	
PPS10: Planning for Sustainable Waste Management (2005)	<ul style="list-style-type: none"> • Protect human health and the environment by producing less waste and by using it as a resource wherever possible • Drive waste management up the waste hierarchy, address waste as a resource and look to disposal as the last option 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to encourage sustainable waste management in accordance with the waste 	<ul style="list-style-type: none"> • The need to manage waste in accordance with the waste hierarchy is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Protect green belts but recognise the particular locational needs of some types of waste management facilities when defining detailed green belt boundaries • Ensure design and layout of new development supports sustainable waste management • Encourage sustainable waste in accordance with the waste hierarchy: <ul style="list-style-type: none"> – Reduce: the most effective environmental solution is often to reduce the generation of waste – Re-use: products and materials can sometimes be used again, for the same or a different purpose – Recycle and compost: resources can often be recovered from waste – Recover: value can also be recovered by generating energy from waste – Dispose: only if none of the above offer an appropriate solution should waste be disposed of 	<p>hierarchy</p> <ul style="list-style-type: none"> • Encourage communities to take more responsibility for their own waste • Policy to ensure sufficient opportunities for provision of waste management facilities in appropriate locations • Look forward to a ten year period from date of adoption • Good design should be promoted in the layout of new developments • Sites should be identified for new or enhanced waste management facilities where appropriate 	
PPS11: Regional Spatial Strategies (2008)	<ul style="list-style-type: none"> • By virtue of section 24(1)(a) of the Planning and Compulsory Purchase Act LDDs must be in general conformity with the RSS • Under section 24(2) of the Planning and Compulsory Purchase Act, request the opinion in writing of the RPB as to the general conformity of a DPD with the RSS • The RSDf is the high level statement of the regional vision for achieving sustainable development. It puts sustainable development at the heart of a spatial strategy • Identified targets for completion of future stages of an RSS include: <ul style="list-style-type: none"> – Examination on public = 3 to 6 weeks – Panel report = 2 to 3 months – Secretary of State publishes draft changes with a statement of reasons = 2 to 3 months – A minimum 8 week period for comments on draft changes – Exceptionally a further 6-8 week consultation period may be necessary • Revised RSS issued = up to 2 months after the end of the consultation period 	<ul style="list-style-type: none"> • Consider the need for the DPD to be in general conformity with the RSS 	<ul style="list-style-type: none"> • None
PPS12: Local Spatial Planning (2004)	<ul style="list-style-type: none"> • Local authorities have a key role in leading their communities, creating prosperity in our villages, towns and cities • Spatial planning objectives for local areas, as set out in the LDF, should be aligned not only with national and regional plans, but also with the shared local priorities set out in Sustainable Community Strategies • Produce a vision for the future of places that responds to the local challenges and opportunities, and is based on evidence, a sense of local distinctiveness and community derived objectives, within the overall framework of national policy and regional strategies • Translate this vision into a set of priorities, programmes, policies, and land allocations together 	<ul style="list-style-type: none"> • Consider the need for prosperity in Redditch Borough's settlements • Consider the links with the Sustainable Community Strategy • Consider the need for a distinctive vision for the Core Strategy • Consider how to translate a 	<ul style="list-style-type: none"> • The need to reduce climate change is an issue for this Scoping Report • The SA process will be fully integrated with community participation

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>with the public sector resources to deliver them</p> <ul style="list-style-type: none"> • Create a framework for private investment and regeneration that promotes economic, environmental and social well being for the area • Coordinate and deliver the public sector components of this vision with other agencies and processes • Create a positive framework for action on climate change • Contribute to the achievement of Sustainable Development • Ensure strategies can be based on the community's views and obtain community buy-in • Ensure that the necessary land is available at the right time and in the right place to deliver the new housing required • Orchestrate the necessary social, physical and green infrastructure to ensure sustainable communities are delivered • Provide the basis for the private sector facilitating of affordable housing • Provide a flexible supply of land for business and identify suitable locations • Ensure business is drawn to the area by providing an attractive environment and a sufficient workforce well housed and able to access employment opportunities easily and sustainably • Bringing in private funds through incentivising, promoting and coordinating investment by the private sector • Provide a robust basis for making bids for public funds and for assembling land for projects • The RSS provides the spatial vision for the region, identifying broad locations for growth, together with the housing numbers to be provided for in LDDs • The delivery strategy is central. It needs to show how the objectives will be delivered • Particular attention should be given to the coordination of these different actions so that they pull together towards achieving the objectives and delivering the vision. The strategy needs to set out as far as practicable when, where and by whom these actions will take place • It is essential that the core strategy makes clear spatial choices about where developments should go in broad terms • Core strategies may allocate strategic sites for development. These should be those sites considered central to achievement of the strategy • Where core strategies allocate strategic sites, they must include a submission proposals map. It may be preferable for the site area to be delineated in outline rather than detailed terms, with site specific criteria set out to allow more precise definition through masterplanning using an area action plan (if required) or through a supplementary planning document (SPD) • The core strategy should be supported by evidence of what physical, social and green infrastructure is needed to enable the amount of development proposed for the area, taking account of its type and distribution. This evidence should cover who will provide the infrastructure and when it will be provided • Infrastructure planning for the core strategy should also include the specific infrastructure 	<p>vision into a set of measurable objectives</p> <ul style="list-style-type: none"> • Consider the need for an appropriate delivery strategy for the Core Strategy showing how the objectives will be achieved. • Consider the need for positive action on climate change translated into relevant spatial policy • Consider the need for ongoing consultation appropriate to the scale of the Core Strategy • Consider the possible need for land assembly • Consider the green infrastructure requirements and how to translate into relevant spatial policy and its delivery • Consider how to best facilitate delivery of affordable housing • Consider the need for an Employment Land Review to inform a flexible supply of land • Consider the need for general conformity with the Regional Spatial Strategy, and implications of the RSS Phase Two Revision process • Consider the need to allocate strategic sites • Consider the need for an evidence base • Consider the CIL and its translation into the Core Strategy • Consider the need for the Core Strategy to plan ahead until at least 2026 	

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>requirements of any strategic sites which are allocated in it</p> <ul style="list-style-type: none"> • Local authorities will be empowered to charge CIL on new developments to help finance the infrastructure needed to support growth • The time horizon of the core strategy should be at least 15 years from the date of adoption • The need for frequent updating may be reduced by taking a long-term view and providing some flexibility. So for example, if a strategy has some room for manoeuvre, it should not need to be updated simply because there has been a change in the housing numbers in the regional spatial strategy. This can be achieved by local authorities considering the implications of different levels of development taking place either within the core strategy period or alternatively beyond it • The production of core strategies should follow the Government's principles for community engagement in planning. Involvement should be: <ul style="list-style-type: none"> - appropriate to the level of planning; - from the outset – leading to a sense of ownership of local policy decisions; - continuous – part of ongoing programme, not a one-off event, with clearly articulated opportunities for continuing involvement; - transparent and accessible – using methods appropriate to the communities concerned; and - planned – as an integral part of the process for making plans • Local authorities should undertake timely, effective and conclusive discussion with key stakeholders on what option(s) for a core strategy are deliverable • Key stakeholders should engage in timely and effective discussions with local planning authorities on the deliverability of options for core strategies • The core strategy should not repeat or reformulate national or regional policy • There may be local reasons for having greater detail than national or regional policy provides for, local circumstances which suggest that a local interpretation of higher-level policy is appropriate, Authorities may include such approaches in their plans if they have sound evidence that it is justified by local circumstances • Align and coordinate the Core Strategy of the LDF with their Sustainable Community Strategies • Core strategies must be justifiable: they must be: <ul style="list-style-type: none"> - founded on a robust and credible evidence base; and - the most appropriate strategy when considered against the reasonable alternatives • The evidence base should contain two elements: <ul style="list-style-type: none"> - participation: evidence of the views of the local community and others who have a stake in the future of the area - research/ fact finding: evidence that the choices made by the plan are backed up by the background facts • Core strategies must be effective: this means they must be: <ul style="list-style-type: none"> - Deliverable 	<ul style="list-style-type: none"> • Consider ways in which flexibility can be added to the Core Strategy 	

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
PPG13: Transport (2001)	<ul style="list-style-type: none"> - flexible; and - able to be monitored • Promote sustainable transport choices for people and moving freight • Promote accessibility to jobs, shopping, leisure facilities and services by public transport, walking and cycling • Reduce the need to travel, especially by car • Actively manage the pattern of urban growth to make the fullest use of public transport, and focus major generators of travel demand in city/town/district centres and near to major public transport interchanges • Locate daily facilities near to clients in local centres, accessible by walking/cycling • Accommodate housing principally within existing urban areas, with increased development density at locations which are highly accessible by public transport, walking and cycling • In rural areas, locate most development in local service centres • Use parking policies to promote sustainable transport choices and reduce reliance on the car for work and other journeys • Give priority to people over ease of traffic movement • Take into account the needs of the disabled, public transport users and motorists • Reduce crime and the fear of crime, and seek, through design and layout, to secure community safety and road safety • Developments with significant transport implications should prepare Transport Assessments submitted alongside their planning applications • Set maximum levels of parking for broad classes of development • Identify key routes for bus improvement/priority measures, and measures to be taken • Review existing provision for cyclists 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to reduce the need to travel • Consider the need for a policy aiming to focus relevant development in the town centre, district centres or near to public transport interchanges • Consider the need for parking policies aiming to reduce reliance on the car, setting maximum levels of parking • Consider the need to reference transport assessments • Inclusion of policy with maximum parking standards • Ensure jobs, shopping, leisure facilities and services are accessible by public transport, walking and cycling • Policy aimed at meeting the accessibility needs of disabled people in terms of access arrangements and design, layout, physical conditions and inter-relationship of uses • Policy on freight movement, which will identify and protect routes critical to the movement of freight, locate development generating freight movement away from central areas and promote freight movement to use rail or waterways • Policy to give greater priority to walking 	<ul style="list-style-type: none"> • The need to reduce the need to travel is an issue for this Scoping Report • The need to maintain and enhance existing centres is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
		<ul style="list-style-type: none"> • Inclusion of key routes for bus improvements /priority measures • Emphasise accessibility in identifying preferred areas to ensure they offer access by a range of modes of transport • Provide a balance between housing and employment in urban and rural areas in order to reduce commuting • Encourage mixed use developments • Consider the future for the segregated bus-only routes in Redditch Borough 	
PPG14: Development on Unstable Land (1990)	<ul style="list-style-type: none"> • Encourage full and effective use of land in an environmentally acceptable manner • Take into account the possibility of ground instability • Identify as far as possible the physical constraints on land within the plan area • Where major areas of unstable ground are known, their general location should be made clear, together with policies to apply to these areas 	<ul style="list-style-type: none"> • None 	<ul style="list-style-type: none"> • None
PPG15: Planning and the Historic Environment (1994)	<ul style="list-style-type: none"> • Protection of the historic environment, whether individual listed buildings, conservation areas, parks and gardens, battlefields or the wider historic landscape, is a key aspect of the wider environmental responsibilities, and must be fully considered in the formulation of planning policies • Include policies for works of demolition or alteration • Set out policies for preservation and enhancement of the historic environment and the factors to be taken into account in assessing planning applications • Include a strategy for economic regeneration of rundown areas, and identify opportunities which the historic fabric can offer as a focus for regeneration • Formulate and publish proposals for the preservation and enhancement of conservation areas • It is fundamental to the Government's policies for environmental stewardship that there should be effective protection for all aspects of the historic environment • Physical survivals of our past add to the quality of our lives, by enhancing the familiar and cherished local scene and sustaining the sense of local distinctiveness which is so important an aspect of the character and appearance of our towns, villages and countryside • The historic environment is also of immense importance for leisure and recreation • Ensure that the means are available to identify what is special in the historic environment; to define its capacity for change; and, when proposals for new development come forward, to 	<ul style="list-style-type: none"> • Consider the need for a policy concerning demolition or alteration • Consider the need for a policy aiming to preserve and enhance the historic environment in urban and rural areas (the historic environment has been defined as what materially remains of our history) • Consider the need for a strategy for economic regeneration which focuses on the historic environment • Consider the need for proposals for the preservation/ enhancement of conservation areas 	<ul style="list-style-type: none"> • The need to protect the Historic Environment is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>assess their impact on the historic environment and give it full weight, alongside other considerations</p> <ul style="list-style-type: none"> • Most historic buildings can still be put to good economic use in, for example, commercial or residential occupation • The Government urges local authorities to maintain and strengthen their commitment to stewardship of the historic environment, and to reflect it in their policies and their allocation of resources 	<ul style="list-style-type: none"> • Imaginative policies which reduce the threats to the historic environment and increase its contribution to local amenity • Policy to encourage reuse of neglected, historic buildings • Policy to set out the importance of preserving and enhancing any listed building and conservation area • Policy outlining the criteria for designation of new conservation areas • Importance of repair or conversion of historic buildings • Encourage reuse of existing historical buildings 	
PPG16: Archaeology and Planning (1990)	<ul style="list-style-type: none"> • Archaeological remains are a finite and non-renewable resource • Protect, enhance and preserve sites of archaeological interest and their settings • Define the areas and sites to which policies and proposals apply • Planning authorities may wish to base policies/proposals on an evaluation of archaeological remains • Archaeological remains identified and scheduled as being of national importance should be earmarked in development plans for preservation 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to protect, enhance and preserve sites of archaeological interest and their settings • The areas that need to be defined are required to be identified on the proposals map • Define areas to which policies/proposals apply • Consider the potential for as yet unrecorded archaeological remains 	<ul style="list-style-type: none"> • The need to protect archaeology in Redditch is an issue for this Scoping Report
PPG17: Planning for open space, sport and recreation (2002)	<ul style="list-style-type: none"> • Support urban renaissance and rural renewal • Promote social inclusion and community cohesion • Promote health and well being • Promote more sustainable development • Undertake robust assessments of existing and future needs for open space, sports and recreational facilities • Audit existing open space, sports and recreational facilities, the use made of existing facilities, access and opportunities for new open space and facilities • Set locally derived standards for the provision of open space, sports and recreational facilities 	<ul style="list-style-type: none"> • Consider the need for a policy setting locally derived standards for providing open space, sports and recreational facilities • Consider the need for a policy protecting relevant open space, sports and recreational facilities • Consider the need for a policy aiming to locate intensive 	<ul style="list-style-type: none"> • The need to protect local services and facilities is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Recognise and protect open space, sports and recreational facilities of high quality or of particular value • Promote accessibility by walking, cycling and public transport, and ensure facilities are accessible for people with disabilities • Locate more intensive recreational uses where they can contribute to town centre vitality and viability • Avoid significant loss of amenity to residents, neighbouring uses or biodiversity • Improve the quality of the public realm through good design • Provide areas of open space in commercial and industrial areas • Add to and enhance the range and quality of existing facilities • Carefully consider security and personal safety, especially for children • Use brownfield in preference to greenfield sites • Consider the scope for using surplus land for open space, sport or recreational use, weighing this against alternative uses • Assess the impact of new facilities on social inclusion • Consider the recreational needs of visitors and tourists 	<p>recreational uses within the town centre</p> <ul style="list-style-type: none"> • Consider the need for a policy aiming to avoid loss to residential amenity • Consider the need for planning obligations or conditions ensuring necessary works are undertaken and that new facilities are capable of being maintained adequately through management/maintenance agreements 	
PPS22: Renewable Energy (2004)	<ul style="list-style-type: none"> • UK to cut its carbon dioxide emissions by 60% by 2050, with real progress by 2020, maintaining reliable and competitive energy supplies • Generate 10% of UK electricity from renewable energy sources by 2010 • Aspiration of 20% of UK electricity from renewable sources by 2020 • Promote and encourage rather than restrict the development of renewable energy resources • Establish criteria that will be applied when assessing planning applications for renewable energy projects • Planning applications for renewable energy projects should be assessed against criteria in RSS and LDDs. Ensure these are consistent with, or reinforced by policies in plans on other issues against which renewable energy applications could be assessed • Consider a policy that requires a percentage of the energy to be used in new developments to come from on-site renewable energy developments • RSS and LDDs should include criteria based policies outlining when particular types/sizes of renewable energy developments will be acceptable in nationally designated areas • Ensure criteria in RSS and LDDs are appropriate for urban and rural areas • Planning permission for renewable energy developments likely to have an adverse effect on a site of international importance for nature and heritage conservation (Special Protection Areas, Special Areas of Conservation, RAMSAR Sites and World Heritage Sites) should only be granted once an assessment has shown that the integrity of the site would not be adversely affected • In sites with nationally recognised designations (Sites of Special Scientific Interest, National 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy aiming to increase the use of renewable energy sources in developments 	<ul style="list-style-type: none"> • The need to promote resource efficiency is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>Nature Reserves, National Parks, Areas of Outstanding Natural Beauty, Heritage Coasts, Scheduled Monuments, Conservation Areas, Listed Buildings, Registered Historic Battlefields and Registered Parks and Gardens) planning permission for renewable energy projects should only be granted where it can be demonstrated that the objectives of designation of the area will not be compromised by the development, and any significant adverse effects on the qualities for which the area has been designated are clearly outweighed by the environmental, social and economic benefits</p>		
<p>PPS23: Planning and Pollution Control (2004)</p>	<ul style="list-style-type: none"> • Set out the criteria against which applications for potentially polluting developments will be considered • Government objectives for contaminated land in DETR Circular 02/2000 Contaminated Land are: <ul style="list-style-type: none"> – to identify and remove unacceptable risks to human health and the environment – to seek to bring damaged land back into beneficial use – to seek to ensure that the cost burdens faced by individuals, companies and society as a whole are proportionate, manageable and economically sustainable • Include policies/proposals for dealing with contamination potential and remediation of land • The following should be considered in Development Plan preparation: <ul style="list-style-type: none"> – Possible impact of potentially polluting development – Potential sensitivity to adverse effects from pollution and the need to protect natural resources – Environmental benefits a development might create e.g. reductions in the need to travel; improvements to transport infrastructure; restoration of former habitats; enhancement or creation of habitats; and the remediation of past contamination – The existing and likely future air quality particularly within Air Quality Management Areas or areas where air quality is likely to be poor – Compliance with statutory environmental quality standards or objectives – The need to limit and where possible reduce greenhouse gas emissions and consider the potential effects of climate change – Possible adverse impacts on water quality and the impact of possible discharge of effluent or leachates which may pose a threat to surface/underground water resources – The need to make suitable provision for the drainage of surface water – Provision of sewerage and sewage treatment and availability of existing sewage infrastructure – Existing action and management plans with a bearing on environmental quality – The possibility that emissions of smoke, fumes, gases, dust, steam, smell, vibration or noise from development might be seriously detrimental to amenity – The possibility that development might present a Major Accident Hazard – Perception of unacceptable risk to health/safety of the public arising from development 	<ul style="list-style-type: none"> • Consider the need for a policy with criteria assessing potentially polluting developments • Consider the need for a policies on contaminated land • Consider the need for a policy aiming to reduce the effects of climate change • Consider the need for a policy protecting relevant water resources • Consider the need for a policy aiming to prevent all forms of pollution • Consider the need for a policy on the availability and capacity within the sewerage infrastructure and the need to require sustainable foul water disposal 	<ul style="list-style-type: none"> • The need to protect water, soil and air quality is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report • The need to ensure that appropriate foul drainage infrastructure (disposal) is available is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – The need to limit and, where possible, reduce adverse impact of light pollution, e.g. on local amenity, rural tranquillity and nature conservation • Availability of sewerage and the drainage infrastructure needs to be considered in allocating development 		
PPG24: Planning and Noise (1994)	<ul style="list-style-type: none"> • Noise sensitive developments should be located away from existing sources of significant noise • Policies to avoid potentially noisy developments in areas which have remained relatively undisturbed by noise nuisance and are prized for their recreational and amenity value for this reason • The character of the noise (and frequency) should be taken into account, as well as its level • Consideration should be given as to whether proposals for new noise sensitive development would be incompatible with existing facilities • Planning authorities should consider both the likely level of noise exposure at the time of the application and any increase that may reasonably be expected in the foreseeable future • Measures to control the source of, or limit exposure to noise include engineering, layout and restricting operation times/activities permitted on a site 	<ul style="list-style-type: none"> • Consider the need for a policy on noise 	<ul style="list-style-type: none"> • None
PPS25: Development and Flood Risk (2006)	<ul style="list-style-type: none"> • Ensure flood risk is given due consideration at all stages in the planning process in order to avoid inappropriate development in areas at risk of flooding, and to direct development away from areas at highest risk • Prepare Strategic Flood Risk Assessments (SFRAs) contributing to Sustainability Appraisal of their plans • Safeguard land from development that is required for current and future flood management • Reduce flood risk to and from new development through location, layout and design, incorporating sustainable drainage systems (SUDS) • Reduce the causes and impacts of flooding • Establish policies regarding allocation of sites and the control of development, which avoid flood risk where possible and manage it elsewhere • Consider whether to relocate development to more sustainable locations at less risk from flooding • Recognise the positive contribution that avoidance/management of flood risk can make to the development of sustainable communities • Sustainability appraisal should incorporate or reflect the RFRA/SFRA, supporting Government objectives for development and flood risk • Reduce the adverse consequences of flooding on 'receptors' i.e. people, property, infrastructure, habitats and statutory sites • Apply the sequential approach as part of the identification of land for development in areas at risk of flooding. Demonstrate that there are no reasonably available sites in areas with a lower probability of flooding • Key indicators from the HLT5 report are: 	<ul style="list-style-type: none"> • Consider the need to safeguard land for current and future flood management • Consider the need for a policy to reduce and manage flood risk • Development needs to be designed with an appropriate level of protection, to ensure risk of damage from flooding is minimised • Apply the sequential approach in PPS25 when allocating land in areas at risk of flooding in line with the SFRA". • Locate development in areas that are not exposed to frequent or extensive flooding as determined through the SRFA • When allocating land take a risk based approach of the area in question. Allocate in lower- risk category areas as a priority in line with the SFRA 	<ul style="list-style-type: none"> • The need to protect or enhance water quality and water resources is an issue for this Scoping Report • The need to reduce and manage flood risk is an issue for this Scoping Report • The need to reduce and adapt to climate change is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – Number of planning applications permitted where the outcome is known, against a sustained objection from the Environment Agency on flood risk grounds, as a percentage of the total number of applications to which the Environment Agency sustained an objection on flood risk grounds – Number of planning applications for major development permitted, where the outcome is known, against a sustained objection from the Environment Agency on flood risk grounds, as a percentage of the total number of planning applications permitted against sustained Environment Agency advice on flood risk – The lack of a FRA or an inadequate FRA cited as the reason for an Environment Agency objection to planning applications, as a percentage of the total number of its objections on flood risk grounds – Number of decision notices received by the Environment Agency as a percentage of the number of objections the Environment Agency made to planning applications on flood risk grounds 	<ul style="list-style-type: none"> • When allocating land take a risk-based approach of the area in question. Allocate in lower– risk category areas as a priority in line with the SFRA • When placing development on brownfield land to redevelop these sites attention needs to be paid to the risk of flooding as with development on all other greenfield sites • Be aware of likely impacts of climate change on the future and nature of flooding • Policy to require the consideration of sustainable drainage systems to control surface water run-off as near to its source as possible to reduce flood risk and enhance biodiversity, water quality as well as design and amenity • Consider the need for a policy for a betterment in flood risk (from all sources of flooding) and developer contributions (where appropriate) to secure such measures 	
<p>Securing the Future: Delivering UK Sustainable Development Strategy (2005)</p>	<ul style="list-style-type: none"> • The 4 central aims of the 1999 strategy were: <ul style="list-style-type: none"> – social progress which recognises the needs of everyone – effective protection of the environment – prudent use of natural resources – maintenance of high and stable levels of economic growth and employment • UK principles bring together and build on various previous UK principles to establish an overarching approach: <ul style="list-style-type: none"> – Living Within Environmental Limits – Ensuring a Strong, Healthy and Just Society – Achieving a Sustainable Economy 	<ul style="list-style-type: none"> • None 	<ul style="list-style-type: none"> • Consider the UK Sustainable Development Strategy and its indicators in the formation of this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – Promoting Good Governance – Using Sound Science Responsibly • Indicators for the UK Government Strategy include all 20 of the UK Framework Indicators and 48 indicators related to the priority areas 		
<p>Securing the Regions' Futures – Strengthening delivery of sustainable development in the English regions (2006) DEFRA</p>	<ul style="list-style-type: none"> • National and regional sustainable development indicators be used more widely, and that regions produce their own reports on regional progress on sustainable development indicators/objectives • Regional Strategies will be strengthened by clarifying the role of Regional Assemblies. Invite regions to update their high level strategy in line with new UK Sustainable Development Strategy to put sustainable development at the heart of the strategy / strategies. Help scale up good practice in undertaking sustainability appraisals on other thematic regional strategies and plans • Sustainable development should be the primary purpose of Government Offices whose role will be strengthened. They will also be required to produce Sustainable Development Action Plans • GOWM worked as a regional champion and established a forum to bring sustainable development to the forefront of the regional agenda • Government will publish new guidance to Regional Assemblies which supports and clarifies their role in helping to deliver sustainable development through their different functions and promote good practice • The Government is working with Regional Development Agencies (RDA) to strengthen their role in delivering sustainable development by ensuring Regional Economic Strategies (RES) are underpinned by strong sustainable development principles • The Government will strengthen the delivery of sustainable development in regions by enabling a more effective role for regional sustainable development roundtables. An independent model is currently in place in the West Midlands – Sustainability West Midlands 	<ul style="list-style-type: none"> • Consider the need for a policy to set indicators/ objectives in respect to sustainable development • Consider the need for a policy promoting PDL • Consider the need for a policy on housing density/range of densities • Consider the need for a policy aiming to reduce the effects of climate change 	<ul style="list-style-type: none"> • The need to reduce travel is an issue for this Scoping Report • The need to make the most of land is an issue for this Scoping Report • The need for climate change is an issue for this scoping report • The need for resource efficiency is an issue for this scoping report
<p>Safer Places: The planning system and crime prevention (2004)</p>	<ul style="list-style-type: none"> • Encourage greater attention to the principles of crime prevention and the attributes of safer places • Prevent crime and the enhancement of community safety • Contribute to well-designed, sustainable places that do not fail people and stand the test of time • Promote safe, sustainable and attractive environments that meet the full set of planning objectives. Good planning can contribute to crime prevention and create sustainable environments and hence well–designed, sustainable communities • Promote the seven key attributes: <u>Access and movement</u> <ul style="list-style-type: none"> – appropriate movement framework depends on local context <u>Structure</u> <ul style="list-style-type: none"> – types of buildings/layout have major impacts on safety and sustainability – places should be structured to minimise opportunities for conflict 	<ul style="list-style-type: none"> • Have regard to the seven principles of crime prevention in policy development • Consider the need for a policy aiming for places that are well-designed, sustainable, attractive and which prevent crime and enhance community safety 	<ul style="list-style-type: none"> • The need to prevent crime and fear of crime is an issue for this Scoping Report • The need for high quality design and architecture is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – places are more liveable when remodelling or removing vulnerable buildings – restoration of historic buildings can be an important element of crime prevention <p><u>Surveillance</u></p> <ul style="list-style-type: none"> – well-designed layouts of buildings and spaces create places that are overlooked – parked cars should be in a private garage or overlooked – Public lighting increases the opportunity for surveillance at night and sends out a positive message about the management of an area – CCTV can have a positive impact on crime <p><u>Ownership</u></p> <ul style="list-style-type: none"> – places should have a clear distinction between public, semi-private/communal and private spaces – creative approaches to defining boundaries should be used – neighbourhoods should express identity <p><u>Physical protection</u></p> <ul style="list-style-type: none"> – property should be as secure as possible – security measures should not compromise the quality of the local environment <p><u>Activity</u></p> <ul style="list-style-type: none"> – a large number of law abiding users shows character of good place – the right mix of users generates greater activity and surveillance – an evening economy is a good way of diversifying uses <p><u>Management and maintenance</u></p> <ul style="list-style-type: none"> – good quality public realm can stimulate human activity and influence behaviour 		
By Design: Urban design in the planning system – towards better practice (2000)	<ul style="list-style-type: none"> • Promote character in townscape and landscape by responding to and reinforcing locally distinctive patterns of development, landscape and culture • Promote the continuity of street frontages and the enclosure of space by encouraging development which clearly defines private and public areas • Promote public spaces and routes that are attractive, safe, uncluttered and work effectively for all in society, including disabled and elderly people • Promote accessibility and local permeability by making places that connect with each other and are easy to move through, putting people before traffic and integrating land uses and transport • Promote legibility through development that provides recognisable routes, intersections and landmarks to help people find their way around • Promote adaptability through development that can respond to changing social, technological and economic conditions • Promote diversity and choice through a mix of compatible developments and uses that work together to create viable places that respond to local needs 	<ul style="list-style-type: none"> • Consider the need for a policy promoting aspects of 'By Design' in new developments 	<ul style="list-style-type: none"> • The need for high quality design and architecture is an issue for this Scoping Report

Heritage Protection For The 21 st Century – White Paper (2007)	Three core principles: <ul style="list-style-type: none"> • 1 – Developing a unified approach to the historic environment • 2 – Maximising opportunities for inclusion and involvement • 3 – Supporting sustainable communities by putting the historic environment at the heart of an effective planning system • Encourage local authorities and local communities to identify and protect their local heritage 	<ul style="list-style-type: none"> • Consider the need for a policy on locally listed buildings 	<ul style="list-style-type: none"> • Historic Environment is an issue in this Scoping Report
Ancient Monuments and Archaeological Areas Act (1979)	<ul style="list-style-type: none"> • Secretary of State to list and amend the Schedule of Ancient Monuments • Protects SAMs from harm, establishes the need for Schedule Monument consent and conditions • Secretary of State designates archaeological areas but local authorities also have powers • Operations on such land without consent is an offence 	<ul style="list-style-type: none"> • Consider the protection needed for Scheduled Ancient Monuments 	<ul style="list-style-type: none"> • Historic Environment is an issue in this Scoping Report
Planning (Listed Buildings and Conservation Areas) Act 1990	<ul style="list-style-type: none"> • Secretary of State to compose lists of buildings • Protects listed building from harm affecting its character unless authorised • Local Planning Authorities to determine the areas of special architectural or historical interest or character or appearance which is desirable to conserve or enhance and designate them 	<ul style="list-style-type: none"> • Consider the protection needed for listed buildings and conservation area 	<ul style="list-style-type: none"> • Historic Environment is an issue in this Scoping Report
Water Services Infrastructure Guide: A Planning Framework – Environment Agency (et al) 2007	<ul style="list-style-type: none"> • It is very important that development planners consider the strain on environmental water quality associated Water Services Infrastructure (WSI) alongside other impacts in managing future growth • Water and wastewater infrastructure requirements need to be included in development plans • Development planners need to liaise with the Environment Agency and appropriate water and wastewater providers at the earliest opportunity so that all parties understand and take account of each other's processes, practices and issues in order to promote the efficient and sustainable delivery of infrastructure • This guide aims to establish a set of overarching planning and delivery principles for the provision of Water Services Infrastructure (WSI). The three key principles endorsed are: • A joined up planning approach – through: <ul style="list-style-type: none"> - involvement of all stakeholders early in the planning process - identification and solution of existing constraints to provide sustainable outcomes - the use of local development documents and supplementary planning documents to require and promote sustainable development e.g. through water efficiency, Sustainable Drainage Systems (SuDS) – refer to Section 4.5: Case Study – Millennium Green, Nottinghamshire - awareness and promotion of the relevant aspects of Water Supply Regulations and Building Regulations - incorporation of Green Infrastructure opportunities e.g. recreation, biodiversity • Strategic and integrated provision prior to development – through: <ul style="list-style-type: none"> - agreement of housing and population forecasts - stakeholder agreement to a plan and a programme of implementation 	<ul style="list-style-type: none"> • Continue the production of a Water Cycle Strategy for Redditch Borough to support LDF decision making in line with best practice • Consider the need for Supplementary Planning Documents to support relevant Local Development Documents • Consider the need for a policy on the retention and creation of 'green infrastructure' • Draft a delivery framework to accompany Local Development Documents • Continue liaison with the Environment Agency and Severn Trent Water throughout LDF production and pre-production 	<ul style="list-style-type: none"> • The need to protect water quality and water resources is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> - the financing of infrastructure in a timely manner • Building sustainable Water Services Infrastructure (WSI) – through: <ul style="list-style-type: none"> - the promotion of best practice principles - minimisation of water consumption and maximisation of water efficiency - the management of wastewater quality and quantity to satisfy environmental needs - minimisation of potential flood risk and the adoption of sustainable urban drainage methods e.g. SuDS • Within the Water Cycle there are opportunities to consider reduced consumption, recycling and re-use of water. These can be identified through a Water Cycle Strategy, which is recognised as best practice and allow the principles of sustainable development to be fully exploited • Consider the use of a Water Cycle Strategy in order to identify options for growth (with involvement from the Environment Agency, water companies, local planning authorities and others as appropriate) • Review the need to reinforce specific water policies through supplementary planning documents e.g. water efficiency measures to conserve water and minimise the impact of wastewater on the environment, and the need for Sustainable Drainage Systems to minimise the impact on flooding (relevant policies should be included as part of the Development Plan Document) • Promote local environmental and recreational initiatives, which reflect local character and enhance Green Infrastructure 		
Infrastructure Delivery: Spatial Plans in Practice – Supporting the reform of local planning (2008)	<ul style="list-style-type: none"> • Consider issues relating to implementation of the LDFs and the means by which necessary infrastructure requirements will be delivered, by whom and in what timescale • Infrastructure requirements related to the LDF process should normally be conceived as embracing all matters necessary for the achievement of LDF policies, proposals and aspirations e.g. attributes such as ‘green infrastructure’ and provision of a wide range of community services • Appropriate mechanisms should be put in place to monitor whether the necessary infrastructural requirements are delivered, and to re-consider prioritisation and subsequent delivery programme. The AMR is one potential vehicle for addressing some of these issues • Consider possible integrated mechanisms available for the funding of infrastructure delivery 	<ul style="list-style-type: none"> • Consider the need for an appropriate delivery strategy for the Core Strategy 	<ul style="list-style-type: none"> • None

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
The Community Infrastructure Levy (2008)	<ul style="list-style-type: none"> • The overall purpose of the CIL is to ensure that development contributes fairly to the mitigation of the impact it creates • CIL will be a standard charge decided by designated charging authorities and levied by them on new development • The Government wants CIL funds to unlock development. But if the levy is set too high, it might cause some development to become unviable • In setting charges, charging authorities will therefore need to take account of land value uplifts in their area • The recent Housing Green Paper set out plans to deliver three million new homes by 2020 • Section 106 of the Town and Country Planning Act 1990 will be retained as the legal underpinning for negotiated agreements. Those choosing not to introduce a CIL to fund local infrastructure, planning obligations will continue to provide a means of securing developer contributions • Ensure a good evidence base on infrastructure needs and priorities, and on changes in land value when planning permissions are granted in an area 	<ul style="list-style-type: none"> • Consider the need for progression with a CIL • Consider the future use of Section 106 Agreements • Consider the required evidence base to support any CIL approach 	<ul style="list-style-type: none"> • None
REGIONAL			
West Midlands Regional Spatial Strategy (2008)	<ul style="list-style-type: none"> • Four major challenges are identified for the West Midlands: <ul style="list-style-type: none"> – Urban Renaissance – Rural Renaissance – Diversifying and modernising the Region's economy – Modernising the transport infrastructure of the West Midlands • Relevant Spatial Strategy Objectives: <ul style="list-style-type: none"> – Secure regeneration of rural areas – Create a joined-up multi-centred Regional structure where all areas/centres have distinct roles to play – Retain Green Belt, allowing adjustments of boundaries supporting urban regeneration – Support cities and towns to meet local and sub-regional development needs – Support diversification and modernisation of the Regions economy ensuring growth opportunities are linked to meeting needs/reducing social exclusion – Ensure quality of the environment is conserved and enhanced – Improve significantly the Regions transport systems – Promote the development of a network of Strategic Centres across the Region • Redditch as a Local Regeneration Area should bring forward local regeneration policies/strategies to promote urban renaissance where appropriate • Enhance the role of Redditch's Town and District Centres by: <ul style="list-style-type: none"> – Maintaining and enhancing the pattern of urban centres according to their function and role in the Region 	<ul style="list-style-type: none"> • Consider the need to adjust the green belt boundary • Consider the need for local regeneration policy • Consider the need for a policy enhancing the role of town and district centres • Consider the need for a policy encouraging development on PDL • Consider the need for affordable housing • Consider the need for a target for affordable housing and balance in rural areas • Consider the need to lower the threshold for affordable housing • Consider the need for a policy on gypsies/travellers • Consider the need for a policy encouraging farm diversification and agriculture 	<ul style="list-style-type: none"> • The need to protect the openness of the green belt is an issue for this Scoping Report • The need to maintain and enhance existing centres is an issue for this Scoping Report • The need to make the most efficient use of land is an issue for this Scoping Report • The need for affordable housing is an issue for this Scoping Report • The need for high quality design and architecture is an issue for this Scoping Report • The need to reduce crime and fear of crime is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – Developing strategies to maintain and enhance the underpinning role of urban centres to serve local communities in terms of retail, access to services and cultural/leisure activities – Developing strategies to promote a sense of identity and local distinctiveness – Identifying and creating opportunities for development, particularly for business, retail, leisure, tourism, cultural , educational and other services accessible to all – Adopting strategies to encourage more people to live in, or close to, centres through reuse of sites, mixed-use schemes, conversion and living over shops – Ensuring the highest standards of design are adopted, building on the existing character and identity of centres – Enhancing urban centres as the primary nodes of the public transport network • Make a general distinction between rural areas subject to strong influences from MUAs and rural areas which may be remote from MUAs • Policies for housing/other development should consider likely implications for the provision of services and facilities for the community • Detail how services will be provided for in rural areas • Levels of housing provision will be tested by detailed housing capacity studies • At least 76% of new housing should be on previously developed land (2001-2011) • Estimated 6,000-6,500 affordable dwellings needed per year (2001-2011) • In terms of affordable housing: <ul style="list-style-type: none"> – Indicate how many affordable homes need to be provided in the plan area – In rural areas specify the balance of affordable housing required between villages where there is a need to retain/strengthen services – Consider the need for affordable housing to be sought on sites below the thresholds in national guidance where it can be demonstrated • Ensure adequate provision is made for suitable sites to accommodate gypsies and other travellers reflecting the demand indicated by trends • Incorporate policies allowing for the managed release of new housing land to secure development of previously developed land and conversions • Incorporate policies taking account of potential housing land provision/policy framework in adjoining local authority areas • Consider the need for physical enhancement and expansion of existing educational and research facilities • Consider designations of employment areas in need of improvement • Provide and maintain a range of readily available employment sites. Develop this following a hierarchy of sites • Identify any deficiencies in the supply of land and action required to remedy this • Identify the extent to which office developments should be restricted on some sites 	<ul style="list-style-type: none"> • Consider the need for a policy promoting good quality design • Consider the need for a policy aiming to reduce crime and increase safety • Consider the need for a policy protecting relevant landscapes and townscapes • Consider the need for a policy protecting green spaces • Consider the need for a policy protecting biodiversity and habitats • Consider the need for a policy protecting and improving water quality and water resources • Consider the need for a policy preventing pollution • Consider the need for a policy aiming to increase the use of renewable energy sources in developments • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy aiming to reduce the effects of climate change • Allocate employment sites following a hierarchy of sites • Allocate sites in sustainable accessible locations • Allocate development generating high levels of travel to more sustainable locations accessible by a range of modes of transport 	<ul style="list-style-type: none"> • The need to protect landscape and townscape character is an issue for this Scoping Report • The need to protect local services and facilities is an issue for this Scoping Report • The need to protect biodiversity is an issue for this Scoping Report • The need to protect water quality and water resources is an issue for this Scoping Report • The need to protect soil and air quality is an issue for this Scoping Report • The need to promote resource efficiency is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report • The need to reduce the need to travel is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Review existing employment sites (except in town centres) to establish their continued suitability for employment taking account of their physical suitability for employment purposes • Assess employment sites market attractiveness for employment purposes, irrespective of its attractiveness for alternative, higher-value uses. • Where an employment site has no realistic prospect of development carefully consider what remedial action/infrastructure works are required to justify its retention in the portfolio. Consider identifying/re-allocating for alternative uses • Identify where sustainable tourism can be encouraged and include proposals to mitigate problems caused by existing tourism • Redditch as part of the network of strategic town and city centres will be the focus for: <ul style="list-style-type: none"> – Major retail developments – Uses attracting large numbers of people – Large scale office and leisure • Include policies to promote agriculture and farm diversification • Protect and where possible, enhance irreplaceable assets or those of limited or declining quantity • Identify locally significant environmental assets, assessing their contribution to the broader quality of life indicators • Promote restoration/remediation of derelict/contaminated sites • Reduce the impact of environmental problems associated with transport growth • Aim to create distinctive built environments providing a sense of identity and place • Secure high quality townscape, urban form, building design and urban spaces • Promote public art • Incorporate sustainability considerations such as energy/water efficiency, use of renewable energy, sustainable construction/drainage, building orientation, use of recycled materials, minimisation of waste, construction materials and prolonging the lifespan of buildings • Assess and minimise impacts of noise/light pollution resulting from development • Create safer environments which discourage crime and promote community safety • Assessments local need and ensure there is adequate provision of accessible, high quality urban greenspace • Protect, conserve and enhance the diverse historic environment and manage change respecting local character/distinctiveness • Conserve, enhance and where necessary restore the quality and distinctiveness of landscape character • Encourage the maintenance and enhancement of wider biodiversity resources giving priority to: <ul style="list-style-type: none"> – Protection and enhancement of specific species and habitats of international/ national/sub-regional importance identified in the West Midlands Regional Biodiversity Audit and 		

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>relevant Biodiversity Action Plans</p> <ul style="list-style-type: none"> – Those under statutory protection • Encourage increases in tree cover and prevent loss of woodland • Take into account the aims and objectives of the soil strategy for England • Protect and improve water quality and where necessary significantly reduce the risk of pollution • Protect and enhance wetlands species and habitats • Reduce adverse effects of development on the water environment by encouraging sustainable drainage systems • Ensure timing/location of development respects potential economic/environmental constraints on water resources • Review and assess air quality against objectives in the National Air Quality Strategy • Aim to contribute towards 10% of electricity produced from renewable energy by 2010, with an aspiration to double renewables share of electricity between 2010 and 2020 • Biomass, solar, waste and wind sources could provide in excess of 15% of Regional energy needs • Encourage the use of renewable energy resources subject assessments of impact based on criteria • Include policies on energy generation for technologies appropriate to the area • Encourage sustainable construction techniques, best practice in energy efficient design and orientation of building types to maximise passive solar gain • Encourage using good quality combined heat and power systems/district heating schemes for developments • Government has set 5 overarching objectives for transport: <ul style="list-style-type: none"> – To protect and enhance the built and natural environment – To improve safety for all travellers – To contribute to an efficient economy and support sustainable growth in appropriate locations – To promote accessibility to everyday facilities for all, especially those without a car – To promote the integration of all forms of transport and land use planning, leading to a better, more efficient transport system • Encourage high density development in locations well served by public transport • Encourage developments generating significant travel demands where accessibility by public transport, walking and cycling is maximised • Promote patterns of development reducing the need to travel • Encourage developments generating significant freight/commercial movements close to suitable inter-modal freight terminals, rail freight facilities, or roads designed and managed as traffic distributors 		

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Develop safe, secure, direct, convenient and attractive walking and cycling networks • Require all planning applications involving significant travel demands to include transport assessments • Indicators are included in the relevant Chapters. These monitor the context of general conditions in the Region, the implementation of the processes, and the tangible outputs of policies • There are targets for the protection, restoration and re-creation of habitats in the West Midlands Region 		
West Midlands Regional Spatial Strategy Phase Two Revision – Draft Preferred Option (2007)	<p>The Regional vision looks for a region:</p> <ul style="list-style-type: none"> • Where there are opportunities for all to progress and improve their quality of life • With an advanced, thriving and diverse economy occupying a competitive position within European and World markets • Where urban and rural renaissance is successfully being achieved • With diverse and distinctive cities, towns, sub-regions and communities with Birmingham as a “Global City” at its heart • Which is recognised for its distinctive, high quality natural and built environment • With an efficient network of integrated transport facilities and services which meet the needs of both individuals and the business community in the most sustainable way • Where all Regional interests are working together towards a commonly agreed sustainable future <p>Key issues in the West Midlands:</p> <ul style="list-style-type: none"> • The movement of people and jobs away from the major urban areas • Increasing social exclusion and deprivation in the central urban neighbourhoods • Increasing housing costs in rural communities, with pockets of deprivation particularly in more remote rural areas • A shortage of affordable housing and significant problems with regard to the condition of housing, particularly in the private rented sector • Demanding national targets for new housing development • Growing demand for transport and increasing strain on the existing transport infrastructure • Lower economic growth than other regions in the UK and Europe, and a heavy reliance on manufacturing industry • A high proportion of the workforce with low-level or no formal qualifications and • Growing impacts of climate change <p>Climate Change:</p> <ul style="list-style-type: none"> • Mitigate by minimising emissions from new developments; developing and using renewable energy, reducing the need to travel, conserving resources and managing waste by alternative means to landfill 	<ul style="list-style-type: none"> • Consider the need to adjust the green belt boundary • Consider the need for local regeneration policy • Consider the need for a policy enhancing the role of town and district centres • Consider the need for a policy encouraging development on PDL • Consider the need for affordable housing • Consider the need for a target for affordable housing and balance in rural areas • Consider the need to lower the threshold for affordable housing • Consider the need for a policy on gypsies/travellers • Consider the need for a policy encouraging farm diversification and agriculture • Consider the need for a policy promoting good quality design • Consider the need for a policy aiming to reduce crime and increase safety • Consider the need for a policy protecting relevant landscapes and townscapes 	<ul style="list-style-type: none"> • The need to protect the openness of the green belt is an issue for this Scoping Report • The need to maintain and enhance existing centres is an issue for this Scoping Report • The need to make the most efficient use of land is an issue for this Scoping Report • The need for affordable housing is an issue for this Scoping Report • The need for high quality design and architecture is an issue for this Scoping Report • The need to reduce crime and fear of crime is an issue for this Scoping Report • The need to protect landscape and townscape character is an issue for this Scoping Report • The need to protect local services and facilities is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Climate change proofing of developments, designing and managing for risks associated with climate change, and enhancing and extending natural habitats will also be essential • Proposed growth at Settlements of Significant Development (SSDs) provide an opportunity to make a significant contribution to the reduction in growth of carbon dioxide emissions • Exploit opportunities arising from the growth and environmental transformation of development at SSDs to mitigate and adapt to the worst impacts of climate change • Enhance link and extend natural habitats so biodiversity can adapt to climate change and mitigate its effects by reducing 'heat islands', acting as carbon 'sinks', absorbing flood water and providing renewable energy • Minimise resource demand and encourage efficient use of resources • Encourage climate-proofed developments and sustainable buildings to ensure their long term viability in adapting to climate change • Avoid development in flood zones, protect essential infrastructure against flooding, and promote the use of sustainable drainage techniques and natural flooding of land in appropriate locations • Facilitate walking, cycling and public transport • Facilitate effective waste management • Protect, conserve, manage and enhance environmental and natural and built heritage assets <p>Sustainable Communities</p> <ul style="list-style-type: none"> • Design and plan at the appropriate size, scale, density and mix • Locations should be accessible to a range of employment , support essential services, a green infrastructure network and a good public transport network • SSDs should plan for new neighbourhoods providing for a mix of housing which demonstrates exemplar design standards and sustainable construction • Create attractive, well-designed, adaptable, safe and secure developments, which have a sense of place, that respond to distinctive features, integrate with context, respect and enhance local character and maximise the reuse of buildings and brownfield land • Provide public transport infrastructure so as to improve accessibility to employment, services and facilities both within and between settlements, particularly for the least affluent • Provide the environmental infrastructure to support new development such as larger scale renewable and decentralised energy generation, including combined heat and power, and community heating systems, sewerage infrastructure, sewerage treatment works, sustainable drainage systems, water treatment, reuse and recycling of waste, resource recovery facilities and soft and hard infrastructure needed for flood risk management <p>Sustainable design and construction</p> <ul style="list-style-type: none"> • Ensure applications for 10 or more residential units or other development exceeding 1,000 square metres are accompanied by a sustainability statement. • Appropriate targets should be set for individual developments in Area Action Plans 	<ul style="list-style-type: none"> • Consider the need for a policy protecting green spaces • Consider the need for a policy protecting biodiversity and habitats • Consider the need for a policy protecting and improving water quality and water resources • Consider the need for a policy preventing pollution • Consider the need for a policy aiming to increase the use of renewable energy sources in developments • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy aiming to reduce the effects of climate change • Allocate employment sites following a hierarchy of sites • Allocate sites in sustainable accessible locations • Allocate development generating high levels of travel to more sustainable locations accessible by a range of modes of transport • Consider the new housing figures for Redditch • Consider the new employment figures for Redditch • Consider the new retail figures for Redditch • Consider the affordable housing requirements for Redditch • Consider the new office figures for Redditch 	<ul style="list-style-type: none"> • The need to protect biodiversity is an issue for this Scoping Report • The need to protect water quality and water resources is an issue for this Scoping Report • The need to protect soil and air quality is an issue for this Scoping Report • The need to promote resource efficiency is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report • The need to reduce the need to travel is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Ensure all new housing meet CABE Building for Life 'good' standard, and that all medium and large scale developments (greater than 10 residential units) meet the 'very good' standard • Ensure all new homes meet at least level 3 of the Code for Sustainable Homes and consider higher standards at level 4 before 2016 • Offices and other non-domestic buildings should aim for 10% below the target emission rate of current building regulations by 2016 • Ensure all new medium and large scale development (greater than 10 residential units or 1,000 square metres) incorporate renewable or low carbon energy equipment to meet at least 10% of the developments residual energy demand. Use lower thresholds for the size of developments and higher percentages for on-site generation where appropriate • Promote sustainable sources of materials, and the preparation of Site Waste Management Plans to ensure at least 25% of total minerals used derives from recycled and reused content <p>Air Quality:</p> <ul style="list-style-type: none"> • Consider potential impacts on all European sites <p>Four major Regional challenges:</p> <ul style="list-style-type: none"> • Urban renaissance • Rural renaissance • Diversifying and modernising the Regions economy • Modernising the transport infrastructure of the West Midlands <p>Spatial Strategy objectives:</p> <ul style="list-style-type: none"> • To make the MUAs of the West Midlands increasingly attractive places where people want to live, work and invest • To secure the regeneration of the rural areas of the Region • To create a joined up multi-centred Regional structure where all areas/centres have distinct roles to play • To retain the Greenbelt but to allow an adjustment of boundaries, where exceptional circumstances can be demonstrated, either to support urban regeneration or to allow for the most sustainable form of development to deliver the specific housing proposals referred to within the sub-regional implications of the strategy • To support the cities and towns of the region to meet their local and sub-regional development needs • To support the diversification and modernising of the Regions economy while ensuring that opportunities for growth are linked to meeting needs and reducing social exclusion • To ensure the quality of the environment is conserved and enhanced across all parts of the Region • To improve significantly the Regions transport systems • To promote the development of a network of strategic centres across the Region • To promote Birmingham as a global city 		

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>Other:</p> <ul style="list-style-type: none"> • Redditch is identified as a Settlement of Significant Development • Housing should generally be concentrated in SSDs, although some peripheral development of other settlements may need to be considered in LDDs, as part of an overall approach to the development of sustainable communities • Create a balanced network of vital and vibrant town and city centres as the strategic focus for major retail, leisure and office developments • Improve transport networks to resolve existing transport infrastructure problems • Redditch is identified as a local regeneration area where the aim is to improve longer term economic prospects • Redditch will require extensions to the urban area, including provision in adjoining Districts with implications for Greenbelt • Redditch must accommodate 6,600 proposed dwellings between 2006-2026 (net) however only 3,300 of these dwellings are to be provided within Redditch Borough • The South MHA sub regional housing market area has an annual target of 1,000 affordable dwellings per annum • Redditch must accommodate 17 hectares of employment land (of which 8 hectares will be provided within Bromsgrove and/or Stratford) as part of its five year rolling reservoir and 51 hectares as its indicative long term requirement (of which 24 hectares will be provided within Bromsgrove and/or Stratford) • Redditch has to plan for the construction of 30,000m2 additional gross comparison retail floorspace between 2006-2021 and have regard to the 2021-2026 requirement for 20,000m2 • The office floorspace requirements for Redditch are 45,000 (square metres gross) within or on the edge of the town centre between 2006-2026 • Redditch falls within the natural area of midland plateau predominantly but has some land within the natural area of the Severn and Avon vales • Redditch fall within the Arden character area predominantly but has some land within the Severn and Avon Vales character area • Areas of Redditch fall within an Area for Concentrated Bio-diversity Enhancement • The national cycle millennium route runs through Redditch 		
Regional Sustainable Development Framework – Version 2 (2006)	<ul style="list-style-type: none"> • Where a strategy/plan is subject to formal Sustainability Appraisal, the Framework supports the appraisal process and provides a reference for scoping sustainability issues • Put people and communities at the centre of strategy development/ policy decisions. Engage people in decisions affecting them and their communities, promoting personal wellbeing, social cohesion/inclusion, creating equal opportunity, and meeting the varied needs of our diverse communities in terms of gender, age, ethnicity, disability, faith, sexuality, and background, in rural and urban communities • Value the environment and living within environmental limits, respecting the limits of the earth's 	<ul style="list-style-type: none"> • None 	<ul style="list-style-type: none"> • Consider the RSDf in the preparation of the Scoping Report, particularly when adapting the SA Framework to local services

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>ability to provide resources and reabsorb pollutants to avoid serious or irreversible damage, recognising the importance of the environment and biodiversity to well-being, health and economic vitality</p> <ul style="list-style-type: none"> • Gather and use sound evidence as the basis for policy-making, taking account of whole-life costs and benefits of decisions and activities, including impacts that can't easily be valued in money terms, and taking account of long-term impacts in the wider social, environmental and economic context, and adopting the "precautionary principle", that is, where there is a possibility that an action might result in damage to human health or the environment, the action should be avoided or measures identified to prevent or limit damage and degradation • Take account of national and global implications of our activities, and wherever possible adopt the "polluter pays" principle, that those responsible for environmental or social degradation should meet the costs of the consequences <p><u>Sustainable consumption and production</u></p> <ul style="list-style-type: none"> • Use natural resources such as water and minerals efficiently, by incorporating efficiency measures into new land use and developments, redevelopment and refurbishment • Promote and support the development of new high value and low impact technologies, especially resource-efficient technologies and environmental technology initiatives • Promote and ensure high standards of sustainable resource efficient design, construction and maintenance of buildings, both new build and existing stock, where possible exceeding the requirements of the Building Regulations • Increase use of public transport, cycling and walking as a proportion of total travel in order to reduce road traffic congestion, pollution and accidents, and improve health through increased physical activity • Ensure development is primarily focused in the major urban areas, and makes efficient use of existing physical infrastructure and reduces need to travel, especially by private car • Encourage and enable waste minimisation, reuse, recycling and recovery to divert resources away from the waste stream, including the use of recycled materials where possible • Encourage local sourcing of food, goods and materials • Reward efficient resource use and encourage development of alternative and renewable resources in order to reduce dependence on fossil fuels • Encourage corporate social and environmental responsibility, with regional organisations and agencies leading by example • Encourage and support a culture of enterprise and innovation, including social enterprise • Achieve a strong, stable and sustainable economy and prosperity for the benefit of all the Region's inhabitants <p><u>Climate change and energy</u></p> <ul style="list-style-type: none"> • Reduce overall energy use through increased energy efficiency • Increase the proportion of energy generated from renewable and low carbon sources, including 		

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>by micro-generation, CHP, district heating, and in transportation</p> <ul style="list-style-type: none"> • Minimise the Region's contribution to the causes of climate change by reducing emissions of greenhouse gases from transport, domestic, commercial and industrial sources • Implement a managed response to the unavoidable impacts of climate change, ensuring that the design and planning process takes into account predicted changes in the Region's climate • Land use and development that takes into account predicted changes in the Region's climate including flood risk <p><u>Natural resource protection and environmental enhancement</u></p> <ul style="list-style-type: none"> • Value, protect, enhance and restore the Region's environmental assets, including the natural, built and historic environment and landscape • Value, maintain, restore and re-create regional biodiversity, where possible using approaches that improve the resilience of natural systems such as linking fragmented habitats • Minimise air, water, soil, light and noise pollution levels and create good quality air, water and soils • Encourage land use and development that optimises the use of previously developed land and buildings • Encourage land use and development that creates and sustains well-designed, high quality built environments that incorporate green space, encourage biodiversity, and promote local distinctiveness and sense of place • Encourage local stewardship of local environments, for example by promoting best practice in agricultural management or enabling communities to improve their neighbourhoods • Promote environmental justice, recognising that deprived areas and disadvantaged communities are more likely to be affected by environmental damage and degradation <p><u>Sustainable communities</u></p> <ul style="list-style-type: none"> • Enable communities to influence the decisions that affect their neighbourhoods and quality of life • Ensure easy and equitable access to services, facilities and opportunities, including jobs and learning, and ensure that people are not disadvantaged with regard to ethnicity, gender, age, disability, faith, sexuality, background or location • Address poverty and disadvantage, taking into account the particular difficulties of those facing multiple disadvantage • Improve health and reduce health inequalities by encouraging and enabling healthy active lifestyles and protecting health, as well as providing equitable access to health services • Provide decent and affordable housing for all, of the right quantity, type, tenure and affordability to meet local needs, in clean, safe and pleasant local environments • Reduce crime, fear of crime and antisocial behaviour • Improve opportunities to participate in the diverse cultural, sport and recreational opportunities the West Midlands can offer locally and in the wider region 		

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> Encourage physical development with a better balance of jobs, housing, social and cultural services and amenities within each part of the Region in order to meet local needs and encourage stable and sustainable communities Ensure that the Region's workforce is equipped with the skills to access high quality employment opportunities suited to the changing needs of the Regional economy, whilst recognising the value and contribution of unpaid work Promote investment in future prosperity, including ongoing investment and engagement in learning and skills development 		
West Midlands Regional Energy Strategy (2004)	<ul style="list-style-type: none"> Ensure a sustainable, secure and affordable supply of energy for everyone and strengthen the Region's economic capability Make the West Midlands region the most energy efficient in the UK Make an important contribution to meeting the goals of the national energy policy Contribute to the goals of the national energy white paper, which are to: cut UK carbon dioxide emissions by 60% by 2050, with real progress by 2020; maintain reliability of energy supplies; promote competitive energy markets; and ensure every home is adequately and affordably heated <p>Four main objectives:</p> <p><u>Improving energy efficiency</u></p> <ul style="list-style-type: none"> Use less energy by reducing the need for energy and improving the energy efficiency of what is used Make the West Midlands an example of best practice Encourage energy efficiency across all sectors Take up the potential available to reduce energy use in buildings <p><u>Increase the use of renewable energy resources</u></p> <ul style="list-style-type: none"> Technological priorities and targets for installing renewable energy plants and systems chosen The national target is 10% of electricity supplied to come from renewable sources by 2010 and 15% by 2015 Encourage the use of renewable energy through Development Plans <p><u>Maximising uptake of business opportunities</u></p> <ul style="list-style-type: none"> Harness research and development and innovation skills Skills development <p><u>Ensuring focused and integrated delivery and implementation</u></p> <ul style="list-style-type: none"> Have a positive influence over energy use Prioritise public transport schemes in urban areas 	<ul style="list-style-type: none"> Consider the need for a policy aiming to increase the use of renewable energy sources in developments Consider the need for a policy aiming to contribute towards reducing emissions Encourage efficient energy use in buildings Promote public transport schemes 	<ul style="list-style-type: none"> The need to promote resource efficiency is an issue for this Scoping Report The need to reduce the need to travel is an issue for this Scoping Report The need to reduce climate change is an issue for this Scoping Report
The Regional Cultural Strategy – Cultural life in the West Midlands (2001-2006)	<ul style="list-style-type: none"> National/International recognition A region that people want to visit because of its cultural attractions Recognise and promote local and sub-regional cultural diversity 	<ul style="list-style-type: none"> Consider the need for a policy about culture 	<ul style="list-style-type: none"> The need to protect and enhance cultural heritage is an issue for the Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Preserve and renew cultural activities • Provide the greatest range of cultural activities • Promote access to cultural activities • Support cultural businesses • Ensure sustainable development • Promote cross-cutting and influencing other plans 		
West Midlands Visitor Economy Strategy (2004-2010)	<ul style="list-style-type: none"> • Need to create successful sustainable destinations • Need to focus on key destinations and gateways • Encourages the development of, and investment in, the destinations of the future • Develop sustainable tourism and transport initiatives • Focus public and private sector investment on the sustainable (re)development of key visitor destinations • Focus on 'sense of place', 'liveability' and authentic local products • Link destinations using information, signage and integrated public transport • Develop sustainable projects: to meet market needs; to fit with established themes; with professional business planning; through partnership working. 	<ul style="list-style-type: none"> • Consider the need for policies on tourism • Consider the need for policies on transport • Consider the need for locally distinctive design policies 	<ul style="list-style-type: none"> • None
Culture West Midlands – Valuing People and Places: Priorities for Action (2005)	<p>A framework that sets out Priorities for Action, these are split into three themes – Active People, Vibrant Places and Lasting Prosperity. The key objectives:</p> <ul style="list-style-type: none"> • Contribute to prosperity for all • Culture to play its full role in the Region's economy • Increase access to cultural opportunities and cultural diversity • Identification of a select number of key opportunities for large-scale cultural developments • Improved management and promotion of significant cultural destinations e.g. SSSI's • Improvements in the quality of the public realm, townscapes, green spaces and parks, creating places that build on local distinctiveness, value the historic environment and improve Quality of Place for communities • New ways to promote cultural uses, events, good design and regeneration investment to enliven and animate neglected public spaces, parks, town centres and brownfield sites – for the benefit of residents and visitors • Increase availability of workspaces, starter units and business incubation services for creative and cultural enterprises 	<ul style="list-style-type: none"> • Consider the need for cultural related policies • Consider the need for locally distinctive design policies 	<ul style="list-style-type: none"> • An objective to conserve and enhance cultural heritage is included in the Scoping Report
West Midlands Regional Housing Strategy (2006 –2021)	<ul style="list-style-type: none"> • Create mixed, balanced and inclusive communities • Assist in the delivery of urban and rural renaissance • Influence the future development of housing to facilitate and enhance economic development • Address a variety of different housing needs • See that decent homes standards are met • Minimise resource consumption 	<ul style="list-style-type: none"> • Consider the aims of the West Midlands RSS in the LDF • Consider the need for policies on housing needs and types • Consider the standards required for housing 	<ul style="list-style-type: none"> • An objective to reduce the causes of and adapt to the impacts of climate change is included in this Scoping Report • An objective to provide

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
		<ul style="list-style-type: none"> Consider the need for policies aiming to minimise resource consumption 	<p>decent affordable housing for all is included as an objective in this Scoping Report</p>
<p>West Midlands Regional Centres Study (2006)</p>	<ul style="list-style-type: none"> Expenditure on comparison goods has grown at a rate of 3.8% per capita, per annum over the last 40 years. Growth in expenditure on convenience goods over the same period has been at a rate of only 0.1%, per capita, per annum In 1999 town centre retail schemes accounted for 78% of the shopping centre pipeline, compared to 64% in 1993 UK population spent more than £3 billion online during November and December 2004 (6.8% of all UK retail sales), compared to online sales of £2.5 billion during November and December 2003 (4% of total sales) Expenditure on leisure services will grow 1.5%, per capita, per annum (2003 – 2013) The total leisure spend for the West Midlands is projected to grow from £9,105 million in 2003, to £12,237 million in 2021 The Regional Centres Study contains a suggested monitoring framework <p><u>Specific to Redditch</u></p> <ul style="list-style-type: none"> In the fourth tier of the retail hierarchy Redditch has a comparison goods turnover approximately in the range of £150m to £250m The Town Centre contains 45,400 square metres (488,500 square feet) of comparison floorspace, making it the 14th largest of the Region's strategic centres The current prime retail yield of 5.25% (July 2004) has been stable at this level for ten years Current (June 2004) prime zone A retail rents = £110 per square feet, have been at that level since 2000 following a steady increase in previous years 52 retailer requirements were listed by FOCUS at October 2004, giving the centre a ranking of 138 nationally. This is an improvement on its 2002 ranking of 189th position which is the low point of a slide that started in the mid 1990s when the centre was ranked around 100th position Retailer demand is for units of up to 8,000 square feet Town Centre vacancy rate (19.3%) is approaching twice the national average (10.6 per cent) Redditch has a total built office stock of 51,000 square metres (549,000 square feet) The Office Developments Database lists permission for 6,000 square metres (64,600 square feet) out-of-centre office development Prime office rents in the Town Centre are in the region of £14 per square foot and prime yields currently stand at 7.00% 11 leisure requirements listed by FOCUS at April 2005 	<ul style="list-style-type: none"> Consider the fact that Redditch town centre is designated as a fourth tier centre 	<ul style="list-style-type: none"> None
<p>State of the Region Report – West Midlands Regional Observatory</p>	<ul style="list-style-type: none"> Raising participation in cultural and sporting activities Addressing the needs of an ageing population and a growing gap in age profiles between urban and rural areas 	<ul style="list-style-type: none"> Consider the need for a policy to encourage good quality sports and cultural facilities 	<ul style="list-style-type: none"> An objective to raise the skills levels of the workforce is included in this Scoping

(2008)	<ul style="list-style-type: none"> Enhancing the economic contribution of minority ethnic groups, who will form a growing share of the population Raising qualification levels and reducing the number of people without qualifications Protecting the natural environment whilst taking advantage of opportunities brought about by climate change Improving lifestyles to prevent future health problems developing Building more houses to improve affordability while protecting the environment Addressing anti-social behaviour and improving access to services to raise quality of life Improving the image of the Region to encourage people and businesses to locate here Reducing worklessness so that more of the population are able to contribute to economic prosperity Improving the reliability of the transport network, allowing the Region to take advantage of its central location 	<ul style="list-style-type: none"> Consider the need for a policy to facilitate the improvements to local education facilities Consider developing a policy on reducing the need to travel Consider landscape and biodiversity in the development of issues and policies for the Core Strategy DPD Allocations should aim to be safe, sustainable, liveable and mixed with good access to jobs and key services Ensure sustainable locations for industrial, commercial, retail, public, tourism and leisure uses 	<p>Report</p> <ul style="list-style-type: none"> An objective to develop the knowledge driven economy is included in this Scoping Report The need to reduce the need to travel is an issue for this Scoping Report The need to reduce crime and the fear of crime is an issue for this scoping report The need for affordable housing is an issue in this scoping report
West Midlands Regional Economic Assessment – West Midlands Regional Observatory (2008)	<p>The following issues have been identified in Worcestershire area:-</p> <p>Economic Structure and Output</p> <ul style="list-style-type: none"> 44% of all employees work in knowledge intensive industries, just 0.2% below the national average Foreign owned companies employ 39% of employees as compared to a regional average of 41% Median weekly earnings for those employed was £396 in 2007 as compared with £430 for the region, 91% of the regional average <p>Communities and Connections</p> <ul style="list-style-type: none"> Worcestershire demonstrates one of the highest dependencies on road transport in the region The lower quartile house price in the county is nearly 8.5 times the lower quartile income and this ratio is 25% higher than the Regional average In 2006/07, around 88% of new dwellings in the County were built on previously developed land, compared to the Regional average of 84% Data from ONS from 2005 shows that the workplace based workforce was nearly 10% smaller than the residence based workforce. This indicates a net out-commute of workers On average, 7,300kg of CO₂ are emitted per person in the County, compared to 7,400kg across the Region as a whole. This is the lowest of the shire Counties Worcestershire has seven lower level super output areas (LSOAs) in the 10% most deprived across the country. These are concentrated in 3 pockets of deprivation in Worcester, Redditch and Wyre Forest <p>People of Worcestershire</p>	<ul style="list-style-type: none"> Consider the need for a policy to facilitate the improvements to local education facilities Consider the need for a policy to improve public transport facilities and reduce the need to travel Consider the need for a policy aiming for places that are well-designed, sustainable, attractive and which prevent crime and enhance community safety 	<ul style="list-style-type: none"> An objective to raise the skills levels of the workforce is included in this Scoping Report An objective to develop the knowledge driven economy is included in this Scoping Report The need to improve local economy and business diversity are issues in this Scoping Report The need to reduce the need to travel is an issue for this Scoping Report The need to improve education is an issue in this Scoping Report The need to reduce deprivation is an issue in this Scoping Report The need to reduce crime

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> The population grew by 4.97% from 1995 to 2006, significantly more than the 2.1% Regional growth rate, partly due to migration patterns 2007 figures indicate that 18% of Worcestershire's residents of working age are classified as economically inactive. Only 9.2% of working age people in the County are, however, in receipt of work related benefits At 13.3% the proportion of working age people with no qualifications is significantly below the regional average of 17.5% The standardised mortality rate for the County (which takes account of differences in the age profile of the population) is better than the national average. Within the region Redditch has the highest mortality rates, reflecting its higher levels of deprivation Crime levels in the County are amongst the lowest in the Region. The most common category of crime in the county was criminal damage including arson (based on data and evidence which is slightly out of date, and does not reflect the current economic climate) 		and perception of crime is an issue in this Scoping Report
The region's knowledge economy and the demand for higher level skills (2008) West Midlands Regional Observatory	<ul style="list-style-type: none"> Business & professional services, the one private sector knowledge industry that accounts for a significant share of regional employment, accounts for 22% of employment in Redditch, 21% of employment on Warwick and 19% in Tamworth Knowledge intensive private sector industries, like IT consultancy, IT manufacturing, R&D, medical technologies, aerospace and electronics, are particularly poorly represented in the region. Business & professional services is a notable exception, however, with significant concentrations of employment in Redditch. 	<ul style="list-style-type: none"> None 	<ul style="list-style-type: none"> None
West Midlands Regional Transport Priorities Action Plan (2008)	<ul style="list-style-type: none"> Introduce a regionally endorsed, collaborative approach to driving forward the delivery of the priorities in a timely and transparent way that supports both the regional and national goals and objectives. Two of the nine priorities relevant to Redditch are: <ul style="list-style-type: none"> New Growth Points and Settlements of Significant Development (NGPs/SSD) Supports sustainable housing growth and regeneration. Regional Network Priority provides a wide variety of public transport and highway schemes (currently around 28 potential projects), which when integrated with other regional transport priorities will support sustainable growth in the new areas of regeneration and development Regional Rail Capacity, both for passengers and freight" which currently Longer trains/platforms and improved services to Bromsgrove and Redditch which will be delivered in Control Period 4 	<ul style="list-style-type: none"> Consider the incorporation of transport priorities within the LDF Consider the incorporation of an accessibility policy within the LDF 	<ul style="list-style-type: none"> Need to promote sustainable travel is an issue for this Scoping Report.
West Midlands Economic Strategy (WRES) Connecting to Success (2007)	<ul style="list-style-type: none"> Vision for the West Midlands region is to be a global centre where people and business choose to connect The three main components of the economy are Business, Place and People and a successful vibrant economy requires a balanced and strong contribution from all three components Three underlying principles embedded across the economic strategy are Pursuing equality, 	<ul style="list-style-type: none"> Consider the need to promote economic growth in a sustainable manner 	<ul style="list-style-type: none"> The need to promote business diversity is an issue for this Scoping Report The need to reduce climate

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>reaping the benefits of diversity; valuing the natural environment; and Supporting urban and rural renaissance.</p> <ul style="list-style-type: none"> • Become a more prosperous region while minimizing economic growth must support the overall importance in the quality of life and well being of the regions residents • Become a more cosmopolitan and inclusive region • Become a more sustainable region • Pursue equality, and reap the benefits of diversity • Value the natural environment, for example taking into account environmentally friendly practices • Supporting urban and rural renaissance – the WRES is aligned with the West Midlands Regional Spatial Strategy and seeks to ensure jobs and people are attracted to vibrant urban places and support the development of sustainable rural communities • Seizing market opportunities while changing attitudes towards sustainability and consumption. • Improve competitiveness, infrastructure and raise ambitions • Make the best use of knowledge to achieve full potential and opportunities for all 		<p>change is an issue for this Scoping Report.</p>
<p>West Midlands Regional Flood Risk Appraisal, Final Report (2007)</p>	<ul style="list-style-type: none"> • Retain or create appropriate pathways for flood water so that its adverse impacts are avoided and potential environment impacts gained • Appropriate land use planning, adoption of effective flood risk management policies and selection of adequate mitigation measures can help minimize adverse impacts of flooding • The key elements of strategic flood risk in the West Midlands region are considered to be Rivers Severn and Trent (and major tributaries) and the extensive impermeable areas of urban development which can rapidly generate large and potentially excessive volumes of surface water runoff • Key issues relating to flood risk policies and sustainability:- <ul style="list-style-type: none"> – ‘Making Space for Water’ where regeneration or new development is being considered in densely populated urban areas – vulnerability to flooding of some developments located or planned close to rivers – climate change exacerbating natural hazard events, particularly in urban areas – incursion of development areas in to ‘greenfield’ land necessitating the use of sustainable urban drainage systems (SUDS) to attenuate newly created urban runoff to the previous ‘greenfield’ rates and volumes – drainage from new development areas increasing flows into rivers or other watercourses requiring the provision of runoff attenuation infrastructure when resources may not subsequently be available for the adequate maintenance of that infrastructure • In Redditch flood risk is <u>not</u> seen as a significant factor in strategic planning in the district. The significance rating for Redditch is 3 (on a scale of 1-10) • The actual or mitigated flood risk profile for Redditch is 5.5 (on a scale of 5-10) which is relatively low flood risk. 	<ul style="list-style-type: none"> • Consider the need for a policy on SUDS • Continue progress with SFRA for Redditch Borough • Consider the need for flexible policies relating to the potential impacts of climate change 	<ul style="list-style-type: none"> • Reduce causes of and adapt to the impacts of climate change • Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to fluvial flood risks or contribute to surface water flooding in all other areas

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Redditch, within the high growth category, has a relatively low inherent flood risk • In terms of the effects of climate change and considerations that need to be made, development plans should incorporate sufficient flexibility to deal with likely future modifications to the flood defence standards currently deemed necessary • Recommend that SUDS solutions should be adopted for all significant new developments • LPAs should be encouraged to develop Surface Water Management Plans as SPDs (as recommended in PPS 25) 		
A Regional Plan for Sport in the West Midlands (2004 -2008)	<p>The vision for sport in England is:</p> <ul style="list-style-type: none"> • 'To make England the most active and successful sporting nation in the world.' <p>The aim or mission for the plan is:</p> <ul style="list-style-type: none"> • To significantly increase participation in sport within all age and social groups, leading to improvements in health and other social and economic benefits and providing the basis for progression into higher levels of performance, for those with the talent and desire to progress.' • Local Authorities should complete the assessment of needs and opportunities of open spaces, sport and recreation facilities in accordance with the requirements of PPG17 <p>The seven main outcomes for the regional plan for sport</p> <ul style="list-style-type: none"> • Increasing levels of participation in club and community sport – Achieve an increase each year of 50,000 people who become involved in sport, physical activity or active recreation (5 x 30 minutes a week) • Improving levels of sports performance – Achieve an increase between 2004 and 2008 in the number of performers in the West Midlands competing for England and GB teams and achieving international success • Widening access to sport – Achieve an above average increase in participation each year for women and girls; the over 45's; black and ethnic minority communities; disabled people and those on lower incomes • Improving the health and well-being of people through sport – Achieve an increase each year of 50,000 people who become involved in sport, physical activity or active recreation (5 x 30 minutes a week), and through this, contribute to reducing obesity and diabetes in the West Midlands • Creating safer and stronger communities through sport – Demonstrate that sport contributes to reducing crime and antisocial behaviour, by using crime reduction figures within the Positive Activities for Young People Programme • Improving education through PE and sport – Achieve the target of 75% of 5-16 year olds in the West Midlands, taking part in two hours a week of high quality PE & school sport within and beyond the curriculum, by 2006 (extended to 85% by 2008) • Benefiting the economy through sport – Achieve a growth in the contribution sport makes to the economy of the West Midlands between 2004 and 2008 	<ul style="list-style-type: none"> • Consider the need for policies on sports • Consider the need for an updated PPG17 compliant assessment of needs and opportunities of open spaces, sport and recreation facilities 	<ul style="list-style-type: none"> • The need to improve quality and access to local services and facilities is an objective in this Scoping Report • The need to improve health and well-being and reduce inequalities in health is an objective in this Scoping Report
South Housing Market	<ul style="list-style-type: none"> • Assess local housing markets and affordability within the sub region 	<ul style="list-style-type: none"> • Ensure there are policies in 	<ul style="list-style-type: none"> • An objective to provide

Worcestershire Local Transport Plan No.2 (2006 – 2011)	<ul style="list-style-type: none"> • Deliver a transport system within Worcestershire that is safe to use, and which allows people to easily access the facilities that they need for their day-to-day life in a sustainable and healthy way • Support the unique diversity and character of Worcestershire by delivering an efficient, safe and fair transport system that meets the needs of all travellers and allows the easy movement of goods • Consider all appropriate solutions to transport problems, catering for all modes of transport • Redditch is regonised as local centre where economic regeneration policies and programmes should be promoted, and as a focus for major retail, leisure and office developments • The key movement corridors are, in order of magnitude:- <ul style="list-style-type: none"> – Bromsgrove ↔ Birmingham 	<ul style="list-style-type: none"> • Consider the need for a policy encouraging development close to key services by public transport • Consider the need for a policy on bus or other public transport services • Consider the need to minimise traffic in the south east • Consider the need for a policy on increasing walking and cycling 	<ul style="list-style-type: none"> • The need to reduce the need to travel is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – Malvern Hills ↔ Worcester – Wychavon ↔ Worcester – Redditch ↔ Birmingham – Redditch ↔ Warwickshire – Bromsgrove ↔ Redditch – From Wyre Forest to Black Country, Birmingham and Wychavon – Bromsgrove → M42 corridor <p><u>Objectives for Redditch</u></p> <ul style="list-style-type: none"> • Greater proportion of population with access to key services by public transport • Increase in bus patronage and satisfaction with bus services in Redditch • Minimise traffic impact on southeast Redditch and neighbouring communities • Minimise traffic impact of the major redevelopment of Abbey Stadium on Bordesley and local area • Increased walking and cycling levels and improved public perception of personal safety • Support the implementation of bus infrastructure improvements identified through the Redditch Bus Quality Partnership • Support the implementation of the agreed transport strategy for North Redditch should the Abbey Stadium re-development proposals gain planning approval during the LTP2 period • Identify opportunities to improve the footpath/subway networks aimed at making people feel safer when using the network • Identify the appropriate transport strategy that will minimise the impact of traffic on the environment of South-east Redditch and the neighbouring communities within Warwickshire • The accessibility strategy refers to the need to ensure that land use decisions that are taken by the Local Planning Authorities will reduce the need to travel by locating services closer to the people they serve, and vice versa • Use accessibility mapping as a key element of future land use planning when assessing transportation needs of future development plans and of major development proposals • District Transportation Studies – these will generally be undertaken with District Councils as part of the process for the review of Local Plans/Local Development Frameworks 	<ul style="list-style-type: none"> • Consider the need to minimise traffic in the south east • Allocations should reduce the need to travel by locating near to key services 	
<p>Worcestershire County Structure Plan – with saved policies as of 27th September 2008 (1996-2011)</p>	<p><u>The vision is of a County:</u></p> <ul style="list-style-type: none"> • Which is environmentally conscious. Where the residents will want to be part of a society which represents and protects its environment and which strives to meet its own needs, both urban and rural, without jeopardising the environment. They will wish to minimise waste and conserve resources through a sustainable approach to manufacturing and the consumption of natural resources, in particular energy. This requires a County where individuals, organisations and businesses acknowledge and act upon their environmental responsibilities, and where they recognise and acknowledge the importance of the area's diverse characteristics and wider environmental, nature conservation, landscape, townscape and historically distinctive features 	<ul style="list-style-type: none"> • Consider the need for policies on quality of water, air and soil and water resources. • Consider the need for a policy on renewables • Consider the need for a policy on biodiversity • Consider the need for a policy on 	<ul style="list-style-type: none"> • An objective to improve the quality of water, air and soil in included in this Scoping Report • An objective on renewables is included in this Scoping Report • An objective on biodiversity

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Which is prosperous. Where the link between residents and businesses in the creation of prosperity is acknowledged as inextricable and self-supporting. From a business viewpoint the County should be looking towards urban and rural areas which are economically attractive, vibrant and invigorated. From a resident viewpoint the County should be looking to satisfy the overriding need for job security, the payment of adequate wages and the generation of wealth within our communities. Opportunity to participate in the economic life and prosperity of Worcestershire will be essential. In this respect it will be particularly important to consider and address the needs of the least well-off in our society and to address the causes of poverty. • Where the residents are healthy and safe. Where people will have access to the basic needs of food, water, and energy at a fair cost. Where they can feel part of a safe society, living free from crime, the fear of crime and anti-social behaviour. The aim should be for a good, pollution-free and stimulating environment, with clean air, clean water and pollution-free rivers, lakes and land. • Where the people are treated fairly and afforded opportunity. Where access to education and training will be of prime importance and people will have the opportunity to achieve their aspirations. There should be opportunity for all residents in the County to have access to housing of their choice. Local communities should be capable of an allowed to identify and address their own needs. People should be given the opportunity of access to essential facilities irrespective of wealth, mobility and disability. <p><u>Objectives of the Structure Plan:</u></p> <ul style="list-style-type: none"> • Encourage and promote land use activities which will lead to an improvement in the quality of air, water and land • Seek a reduction in the consumption of energy and finite resources through the more efficient use of resources, recycling, the use of renewable sources and the reduction in the amount of waste produced • Protect from damaging development and land use activity, and enhance, biodiversity and diverse and important environmental, landscape, townscape and historic features and characteristics • Ensure the integration of development within the landscape in order to protect and enhance essential landscape characteristics and features • Protect and expand amenity areas and open spaces, and access to them, in both town and country • Meet the housing requirements of the population of the new County through the provision of an adequate range of housing including general market, affordable and social housing in a way which protects the environment and makes the most effective use of the existing settlement pattern. • Work towards a better balance between housing, employment, social and community facilities within settlements 	<p>landscape and townscape</p> <ul style="list-style-type: none"> • Consider the need for a policy on open space • Consider the need for a policy on affordable housing • Consider the need for a policy on settlement hierarchy • Consider the need for a policy on maintaining character of areas • Consider the need for a policy on energy efficient design and building • Consider the need for a policy on minimising the need to travel • Consider the need for a policy on diversifying the economic base • Consider the need for a policy on reducing crime, fear of crime and anti-social behaviour 	<p>and geodiversity is included in this Scoping Report</p> <ul style="list-style-type: none"> • An objective on protecting landscape and townscape is included in this Scoping Report • Protection of open space is an objective in this Scoping Report • Affordable housing is an objective in this Scoping Report • Minimising the need to travel is an objective in this Scoping Report • The need to diversify the economic base is an issue in this Scoping Report

<p>Worcestershire Climate Change Strategy (2005-2011) Draft.</p>	<ul style="list-style-type: none"> • Manage and mitigate the direct causes of the effects of climate change • Reduce use of fossil fuels • Raise awareness of the issue of climate change and its impacts • Help and advise the practical actions people can make • Ensure the most up to date information on climate change is used • Reduce climate change causing gas emissions across the county by a minimum of 9% per capita from 2005 levels by 2011 and 26% by 2020 • Reduce energy use through improving energy efficiency in homes, business and public services • Promote walking / cycling and passenger transport infrastructure and services • Minimise waste • Use more renewable low or zero carbon dioxide • Adapt to and plan for the impacts of climate change • Promote the use of climate change risk assessment • Encourage renewable energy requirements for new properties and include renewable energy in planning documents • Minimise waste and increase the use of renewable energy sources, utilising waste products to create energy supply • Raise awareness of waste reduction, reduce, and recycling • Ensure sustainable construction techniques • Reduce reliance on private car travel, reducing the need for transport and reducing fuel consumption in vehicles • Influence decision about land use and raise the profile and role of land use 	<ul style="list-style-type: none"> • Consider the need for a policy aiming to reduce the effects of climate change • Consider the need for a policy aiming to contribute towards reducing emissions • Consider the need for a policy promoting energy efficiency in buildings • Consider the need for a policy encouraging sustainable transport and reduction of car use and need to travel, as well as high quality and accessible bus / rail network • Consider the need for a policy aiming to minimise waste and encourage reducing, reusing and recycling • Consider the need for a policy promoting, mitigating and adapting to climate change 	<ul style="list-style-type: none"> • The need to prevent climate change is an issue for this Scoping Report • The need to promote resource efficiency is an issue for this Scoping Report • The need to reduce the need to travel is an issue for this Scoping Report • The need to reduce waste in accordance with the waste hierarchy is an issue for this Scoping Report
<p>Worcestershire Economic Strategy (2004 – 2014)</p>	<ul style="list-style-type: none"> • Enable the delivery of the Regional Economic Strategy in Worcestershire • Vision – In ten years time, Worcestershire will be an economic driver for the region with a prosperous and sustainable economy, driven by technology-led enterprises, offering well paid and highly skilled jobs and a high quality of life for its residents • Develop a knowledge-driven economy by: <ul style="list-style-type: none"> – Modernising and diversifying – Developing clusters with growth potential – Supporting new business formation • Improve the skills base by: <ul style="list-style-type: none"> – Developing and retaining the skills of the County’s young people – Improving the skill levels of the workforce – Improving the quality of the training infrastructure • Develop the infrastructure by: <ul style="list-style-type: none"> – Ensuring the right supply of land and property 	<ul style="list-style-type: none"> • Consider the objectives of the Worcestershire Economic Strategy when progressing the Core Strategy • Allocate sufficient employment land in Redditch Borough 	<ul style="list-style-type: none"> • The need to improve the skills base in Redditch is an issue for this Scoping Report • The need to promote the local economy is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> – Developing the ICT infrastructure – Developing the transport infrastructure – Marketing the County and attracting inward investment • Ensure access to the economic benefits by: <ul style="list-style-type: none"> – Removing barriers to employment – Revitalising the County's towns – Regenerating the rural parts of the County • Exploiting the potential of key regeneration sites 		
Worcestershire County Council Tourism Strategy (2002-2005)	<ul style="list-style-type: none"> • Help provide a high quality experience for all visitors, and bring economic, social and environmental benefit through a growing and sustainable visitor economy • Take opportunities to link with regional and county initiatives on the economy, transport, environment, leisure and cultural development where they impact on tourism and tourism can make a contribution • Encourage walking, cycling, the development of 'quiet lanes', public transport interchange points and coach parties and other initiatives that strengthen appeal to visitors 	<ul style="list-style-type: none"> • Consider the need for policies on tourism • Consider the need for policies on walking • Consider the need for policies on cycling • Consider designation of 'quiet lanes' 	<ul style="list-style-type: none"> • An objective on improving the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment is included in this Scoping Report
Worcestershire County Council Planning for Water in Worcestershire Technical Research Paper (2008)	<ul style="list-style-type: none"> • In respect to location of new development, need to identify new sources of water supply, possibility of SUDS (Sustainable Drainage Systems) to incorporate good sustainable water management, and locate in areas that have little risk of flood or result in flooding elsewhere • Sewerage Capacity, when planning new development it is important that sufficient capacity exists within existing and potential new sewerage systems to accommodate new growth • Surface, ground and fluvial flooding. Water storage should be incorporated into spatial plans and drainage 'pinch points' or barriers should be avoided. The most effective way to manage flood risk is to reduce exposure to it through climate proofing developments. Reversion to flood plains to a more natural condition enables huge improvements to floodwater mitigation, biodiversity enhancement / restoration and green tourism opportunities in the area • Water supply / infrastructure. Improvements to water distribution infrastructure will be required to provide water supplies to new housing. Demands on water supply and waste water need to be reduced • Biodiversity enhancement and provision of green infrastructure. Biodiversity gain should be encouraged into development and water management infrastructure to retain features of biodiversity importance and create new habitats • Water quality. Issues need to be tackled to ensure targets in the Water Framework Directive are met to ensure improvements in water quality 	<ul style="list-style-type: none"> • Consider the need for a policy to conserve water resources • Consider the need for a policy to enhance biodiversity 	<ul style="list-style-type: none"> • The need to enhance biodiversity is an issue in this Scoping Report • The need to conserve water resources is an issue in this Scoping Report • The need to reduce flooding and flood risk is an issue in this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> Water efficiency in developments. Need to promote the use of the Code for Sustainable Homes to help reduce water consumption Adapting to climate change. There needs to be long term integrated planning for urban flood management. The use of SUDS and in particular green roofs and porous paving to adapt to the effects of climate change through alleviating storm run off 		
<p>Worcestershire County Council Planning for Renewable Energy in Worcestershire (2009)</p>	<ul style="list-style-type: none"> Scope to promote / increase the presence of renewable energy and should be integrated into community strategies. Further research is necessary to increase the presence of renewable energy in community strategies Worcestershire's vulnerability to the effects of climate change is high (2007's flooding highlights this matter) and is forecast to increase. Renewable energy can contribute to both the mitigation of and adaptation to climate change by reducing the emissions that cause climate change and by providing a more secure means of supply Renewable energy installations can be appropriate and justified developments at both the commercial and domestic scale as renewables are likely to become more commonplace features as the need for cleaner energy accelerates. However, it is vital to ensure that landscape character, heritage, biodiversity and amenity concerns are considered from the outset in any renewables proposal Development of renewable energy in Worcestershire offers the opportunity of securing real economic benefits. There are already renewable energy businesses within the County, and encouragement should be given to promote training, employment and business opportunities arising from a growth in renewables Infrastructure Requirements, renewable energy installations, especially those of a larger scale, will require infrastructure to be in place, or be provided, in order to operate successfully Effective monitoring of renewable developments to ensure that any renewable policy is achieving its aims. A comprehensive resource assessment of the County's capacity for renewable energy would provide a better informed picture of the technologies 	<ul style="list-style-type: none"> Consider the need for a policy to ensure energy efficiency is maximised to minimize energy usage. Targets to be set via the RSS Partial Revision Consider the need for a policy minimise and resolve conflict between the need for renewables and the need to protect the landscape and heritage assets 	<ul style="list-style-type: none"> An objective to ensure that all opportunities for appropriate energy efficiency measures and renewable energy generation are considered to adapt to climate change and mitigate its effects, as well as recognising the important role of energy efficiency and renewables
<p>Worcestershire Countryside Access & Recreation Strategy (2003 – 2013)</p>	<ul style="list-style-type: none"> Provides the Strategic Management Framework for issues relating to countryside access and recreation within Worcestershire The vision is "To develop a countryside recreation culture in Worcestershire in which residents and visitors alike benefit from the opportunity to access a range of high quality countryside recreation opportunities. This will be planned and implemented having respect for the wishes of both landowners and the local community and ensuring upmost protection of environmental interests Ensure opportunity is available to all sections of the community to enjoy the countryside Secure and promote opportunities for countryside access Encourage and enable local communities to become involved in and take action to share and increase the local benefits of countryside recreation opportunities Manage and promote responsible land use activities so as to reduce the potential for conflict 	<ul style="list-style-type: none"> Consider the need for policies on leisure and/or recreation in the countryside Consider the need for a policy on accessibility Consider the need for policy on tourism Consider the need for a policy aiming to reduce the need to travel 	<ul style="list-style-type: none"> An objective on conserving and enhancing biodiversity is included in this Scoping Report An objective on improving the vitality and viability of Town and District Centres and the quality of, and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-

	<p>between all types of land users, communities and rural enterprises</p> <ul style="list-style-type: none"> • Making use of recreational opportunities whilst protecting and enhancing the environmental qualities of the countryside • Provide a range of facilities of high standard to ensure that the differing demands and aspirations of users are catered for, to help people enjoy and appreciate their recreational experiences • Contributing to and promoting the associated health and well being qualities associated with countryside recreation activities • Raise awareness of the opportunities and benefit of countryside recreation to the diversification of the rural economy, in particular in its support for local tourism • Encourage and promote the use of a greener variety of transport modes to access the countryside and in particular alternatives to the car 		<p>economic status or educational attainment is included in this Scoping Report</p> <ul style="list-style-type: none"> • An objective on improving health and well-being of the population and reducing inequalities in health is included in this Scoping Report • An objective to reduce the need to travel and move towards more sustainable travel patterns is included in this Scoping Report
<p>The Warwickshire Avon Catchment Abstraction Management Strategy (CAMS) 2006</p>	<ul style="list-style-type: none"> • The Avon catchment covers 2,900 square kilometres of central England and some 900,000 people live in the area (includes Redditch Borough) • The main river in this catchment is the River Avon, a major tributary of the River Severn • The major tributaries of the River Avon are the rivers Leam, the Stour, and the Arrow, and significant smaller tributaries are the rivers Sowe, Isbourne and Dene and the Badsey and Bow brooks • There are substantial demands for water in the catchment to meet the needs of people in their homes, in industry and agriculture, and to support navigation on the canals and the rivers • It summarises the current Resource Availability Status (RAS) for each unit of this CAMS as well as the target RAS that we are aiming to reach by 2011 • There are a total of approximately 1500 abstraction licences in the Warwickshire Avon CAMS area • Most of the abstracted water in the area is used for public water supply, 81% of the total licensed quantity • Redditch forms part of the Avon Confined Groundwater Management Unit • The Avon Catchment GWMU is classed as 'over licensed' and its target for 2018 is 'no water available' • There are five Water Resource Management Unit which cover areas within Redditch Borough • Groundwater Management Unit Avon Confined Strategy: The strategy for this GWMU is to remain at • Over-licensed for 2011 but to move to no water available by 2018. To meet this target, no new licences will be issued, unused portions of existing licences will be encouraged to be reduced and we will investigate revoking licences that have not been used in the last seven years (or 	<ul style="list-style-type: none"> • Consider the need for a policy on water resources 	<ul style="list-style-type: none"> • The need to promote resource efficiency is an issue for this Scoping Report • The need to protect or enhance water quality and water resources is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
Worcestershire Biodiversity Action Plan	<p>for four years if not used since April 2004)</p> <ul style="list-style-type: none"> • Ensure that relevant species policies are included in District Local Plans and the County Structure Plan (now Local Development Framework and Regional Spatial Strategies) • Ensure that policies promote the protection and management of hedges and minimise adverse effects of planning proposals on hedges • In Worcestershire 10 out of 17 bird species of high conservation concern are associated with arable habitats • Local Authorities/other statutory organisations should have policies and practices in place ensuring all departments consider the needs of bats at an early stage when work is planned which could affect them (roads, bridges, tree work, tunnels, watercourses and all types of buildings) • When developments are granted near known/potential bat roost sites, attempt to secure the creation of new bat feeding, roost and hibernation areas • In Worcestershire, there are currently 83 recorded sites containing black poplars, of those trees found only 3 are female • On the eastern edge of the Worcestershire plain is a series of fens, the best being at Ipsley Alders and Feckenham Wyld Moor SSSIs. All receive calcium rich water from springs • Development pressure - There is housing development pressure on sites near Redditch, where important wetlands have been built on. There has been recent increased pressure for creating pools in wet areas for boating and fishing lakes • A total of 190 ponds have been surveyed for amphibians within the county 97 of those ponds surveyed were found to contain great crested newts • Ensure that developments have minimal adverse impact upon great crested newt populations and create new habitats within developments • NVC Calcareous Grassland in Redditch Borough total = 1.0 Ha. The Worcestershire figure = 142.61 Ha • Ipsley Alders Marsh SSSI has aquatic interest • The River Arrow and the Bow Brook flow over clay substrate and are generally nutrient rich. Each contains populations of brown trout as well as good invertebrate fauna. Bankside cover especially old pollarded willows, although incomplete in many places, can be of a much higher quality than on the Avon itself. Where banks are treeless, eutrophication and lack of shade has lead to a rich growth of broad-leaved plants particularly on the lower reaches of the Bow Brook • Low Flows caused by licensed abstraction of water from aquifers and rivers for agricultural irrigation, potable water supply and industrial purposes, illegal abstractions and natural drought. This affects smaller brooks including the Bow Brook and can have an impact on bankside vegetation • Changes in agricultural land use - the conversion of grazed wet grassland to cultivated land can have an impact on riverine ecology. Agricultural run-off changes the water chemistry of the river 	<ul style="list-style-type: none"> • Consider the need for a policy on hedgerows • Consider the need for securing bat feeding, roosting and hibernation areas as part of a planning obligations policy • Consider the need for a policy on wildlife habitat features • Consider the need for a policy on greenspaces and greenspace networks • Consider the need for the restoration or creation of wet woodland in suitable areas as part of a planning obligations policy • Consider the need for a policy on SUDS • Consider the need for a the retrofitting of SUDS as part of a planning obligations policy • Consider the need for the restoration of rivers and streams as part of a planning obligations policy • Consider the need for the protection and enhancement of river corridors and floodplains as part of a planning obligations policy 	<ul style="list-style-type: none"> • The need to protect and enhance biodiversity is an issue for this Scoping Report • An objective on protecting and enhancing biodiversity is included in this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>and leads to eutrophication as in the Bow Brook</p> <ul style="list-style-type: none"> • The Bow Brook is specifically mentioned in targeting statements for Worcestershire to encourage the conservation and enhancement of the rivers and streams • Species-poor scrub in a mosaic of habitats – an example is provided of Ipsley Conservation Meadows in Arrow Valley Country Park (breeding birds, invertebrates) • Any future development applications on allotment sites should assume the presence of slow worms and an appropriate planning condition be made requiring a specialist herpetofauna survey to be undertaken • When developments occur in urban areas, encourage developers to consider the needs of the slow worm and to landscape sites accordingly • Seek to ensure that development proposals incorporate wildlife habitat features where appropriate • Ensure that a connecting network exists between green spaces and residential areas • Encourage accessibility to greenspaces and appropriate wildlife habitats • The Dagnell End Brook is home to a scattered population of the White-Clawed Crayfish <p>The review of the Worcestershire BAP (consultation draft) includes the following objectives which may be relevant to Redditch Borough:</p> <ul style="list-style-type: none"> • Use the development control system to secure, where possible and appropriate, section 106 agreements for the restoration or creation of wet woodland in suitable areas • The Worcestershire Wildlife Trust, in partnership with the Environment Agency, is currently writing a scoping report about how to restore the habitat, water quality and river morphology of the Bow Brook. This report will be used to target partnership work aiming to improve the river corridor on a catchment scale • The Environment Agency is seeking to reduce abstraction to a more sustainable level e.g. in the Battlefield Brook, Blakedown Brook and Bow Brook catchments • Ensure the use of Sustainable Drainage Schemes in all new developments wherever practical and economic to do so • Investigate the retrofitting of Sustainable Drainage Schemes into existing development where the contribution of that development to urban runoff has been identified as significant. Implement this work where it is practical and economic to do so • Develop and implement a package of measures to rehabilitate/restore the Bow and Piddle Brooks and promote as a flagship for river restoration • Use every appropriate opportunity for the restoration of rivers or streams and associated habitat through the use of planning conditions and Section 106 agreements • Where a culverted watercourse falls within the footprint of a development, the watercourse should be restored to a natural channel as part of the planning conditions • Include policies for the protection and enhancement of river corridors and floodplains in Local Planning Documents and Strategies and ensure these are implemented through the planning

Bromsgrove District and Redditch Borough Water Cycle Strategy (February 2009) Final Report Version 2	<ul style="list-style-type: none"> Development sites within Bromsgrove District and Redditch Borough are at risk of flooding. The risk from direct flooding, the increase in flood risk to the rest of Bromsgrove District and Redditch Borough, resulting from runoff attributed to the development of sites, must be considered. Where there is a significant additional flood risk posed by a development and the existing drainage network is known to be already operating at capacity, a major upgrade to the system will be required. Where sites are located upon clays and silts, which suffer from reduced permeability, SUDS techniques that utilise infiltration will not be feasible. Alternative SUDS schemes can be implemented on soils with low or bad permeability through retention/retention techniques, although these will be restricted where groundwater or source protection zones exist. Avoid the risk by zoning as much new development as possible away from Flood Zones or other areas known to be at high probabilities of flooding. Where avoidance is not possible, preference should be given to flood risk management measures which work with the natural processes and have more opportunities for enhancement of the environment and social wellbeing, such as SUDs and flood storage. Reducing the amount of surface water running off development sites can reduce and hence manage the risk of flooding. Sewer and surface water flooding is a more common source of direct flood risk to the potential developments. Development sites located in proximity to ordinary watercourses are 'potentially' at risk from 	<ul style="list-style-type: none"> Location and phasing of development should ensure that infrastructure is provided in the right place and at the right time; The location of development sites should be allocated according to the capacity of the wastewater network, water supply network and the guidance set out in PPS25, as identified in this WCS and the associated Level 1 SFRA; It should be assured that the development of any new site does not detrimentally impact any existing development in terms of wastewater disposal, water supply or flood risk; As far as possible Brownfield and should be chosen for development above 	<ul style="list-style-type: none"> Protecting water quality and water resources is an issue for this Scoping Report The need to reduce and manage flood risk is an issue for this Scoping Report Protecting biodiversity is an issue for this Scoping Report The need to protect natural resources is an issue for this Scoping Report The need to reduce climate change is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>direct flooding from these watercourses. This should be taken as a guide only as these risks need to be clarified with further modelling or site specific FRAs.</p> <ul style="list-style-type: none"> • The greatest risk of flooding within Bromsgrove District and Redditch Borough is from rapid rainfall runoff resulting in high flows on poorly maintained ordinary watercourses which are constrained by development and subsequently overtop. It is therefore imperative that any new development takes this into account and minimises the volume of runoff produced through the implementation of SUDS, especially where located on Greenfield sites. • Ideally the aim for the volume of runoff should be in line with the Greenfield runoff rates present from that site before development takes place. • Coupled with the restrictions on most of the watercourses and the location of the proposed developments upstream of existing developments, every new development will require the inclusion of SUDS and most will require the collected surface runoff to be disposed of on site (e.g. through water reuse or evaporation), but not using methods which require infiltration techniques. It will therefore be desirable to utilise techniques to recycle the collected water into the existing developments. • The capacity of the infrastructure used to pipe water to existing and new development, both residential and commercial, could potentially have a significant impact on the timing of development. • With improvements to water supply, water supply should not be a problem in Bromsgrove and Redditch as there is sufficient headroom in the system. • The CAMS study identifies the Wylde Moor Feckenham SSSI, Rookery Cottage Meadows SSSI and Tricksexes Hole SSSI as being located within the Besford Bridge WRMU in Redditch Borough. These are therefore highly dependent upon water resource management within the Borough. • There are many sites of national importance located both within and outside Bromsgrove District and Redditch Borough which are highly dependent upon water resources which are already highly stressed. Development within the region must therefore take account of the requirements of these sites and not further exacerbate the problems with increased water abstraction. • Even if there were an unlimited supply of water “bottle-necks” in the water supply infrastructure could limit growth. Large scale developments on the margins of the existing supply network would require significant investment in infrastructure upgrade. Given the lead in time associated with the design and construction of infrastructure improvements it is essential that the timing of infrastructure upgrade be factored into the planning of new development allocations. It may not be feasible to plan for immediate development in the more marginal Greenfield sites where significant upgrade would be necessary. • Due to the elevation of the most of the developed areas of the Borough above the sewage treatment works, in places as much as 90metres, most development sites would be able to 	<ul style="list-style-type: none"> • Greenfield land, where it is appropriate and practical in terms of water supply, wastewater treatment and flood risk; • All new development should adopt appropriate SUDS, grey water recycling and/or rainwater harvesting methods as appropriate to deal with the surface water runoff produced on that site; • The suggested recommendations and policies in the SFRA, with regards to flood risk, should be noted; • Appropriate consideration must be given to the guidance provided in PPS25, and the Sequential and Exception Tests followed, for any development identified as being either wholly or partially located in Flood Zones 2 or 3. • FRAs should be undertaken where identified as necessary within this WCS or the Level 1 SFRA; • Due to the nature of the Borough and the District every new development will require the inclusion of SUDS and most will require the collected surface water to be disposed of on site; • No new development should be connected to the surface water sewer network as it is already operating above capacity and is 	

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>connect to the gravity fed foul water sewers. The Drainage Engineer recommends a blanket refusal of all sites which require either foul and/or surface water pumping. However, there are restrictions within the wastewater infrastructure, most notably the northern section of the main Western Areas and also Sernal Trunk Foul sewers. Any new development will therefore struggle to connect to this system unless a by-pass scheme, such as that suggested for Hunt End is adopted.</p> <ul style="list-style-type: none"> • Almost all of the assessed watercourses within Redditch Borough are compliant with their RQO targets. There is only one, the Brandon Brook, which marginally fails. • In terms of Chemical and Biological Quality, all the watercourses score 'Fairly Good' or higher. With the exception of Brandon Brook and the downstream sections of Bow Brook, the nitrate levels are also fairly acceptable with all the other watercourses scoring 'Fairly Good'. In the Brandon Brook and section B2 of the bow Brook, the nitrate levels are classified as 'Fair'. However, further downstream, beyond the confluence of these two brooks, the levels increase further with the classification dropping to 'Poor'. 	<p>resulting in foul water flooding;</p> <ul style="list-style-type: none"> • The development of any new site should not have a negative impact on water quality, either directly through pollution of surface or ground water or indirectly through overloading of sewage treatment works; • Until upgrade or improvement works are carried out no development should take place in areas served by sewage treatment works or sewer networks that have been identified as currently operating at, or above, current capacity; • All necessary measures should be adopted to reduce water supply demand and through efficiency measures, both in new developments and through retrofitting of old development; and • Formal submission to the appropriate water company will be required for any new development, outlining the water usage requirements for the site. 	
<p>Bromsgrove District and Redditch Borough Strategic Flood Risk Assessment Level 1 Report (January 2009) Final Report</p>	<ul style="list-style-type: none"> • Redditch Borough is underlain by five key soil types: <ul style="list-style-type: none"> - Slowly permeable, seasonally wet, slightly acid but base-rich loamy and clayey soils; - Slightly acid loamy and clayey soils with impeded drainage; - Loamy and clayey floodplain soils with naturally high groundwater; - Loamy soils with naturally high groundwater; and - Freely draining slightly acid loamy soils (only falls slightly within the District) • The geology is dominated by loamy and clayey soils which suffer from impeded drainage, although the north of Redditch town has slightly more permeable soils than the rest of the Borough. The areas surrounding the Dagnell Brook and the Batchley Brook and the upstream section of the River Arrow are characterised by loamy soils with naturally high groundwater, as 	<ul style="list-style-type: none"> • The Sequential Test must be applied for all development sites and other sites when preparing the emerging LDF; • The site allocations in the Core Strategy should reflect the Council's strategic planning policies. Approach to flood risk and site allocations should reflect the application of the 	<ul style="list-style-type: none"> • The need to reduce and manage flood risk is an issue for this Scoping Report • The need to reduce climate change is an issue for this Scoping Report

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>are the floodplain soils underlying the rest of the River Arrow and the areas surrounding the Bow Brook and the Brandon Brook, south and east of Feckenham. Drainage in these areas is therefore also naturally poor.</p> <ul style="list-style-type: none"> • Due to rapid runoff experienced in the area, a number of events are attributable to surface or highway runoff or the flooding of the sewer network. • The characteristic 'flash flooding' of the Borough and District has the potential to result in large numbers of individual local floods, such as occurred during the 2007 summer storms. The management of surface water run-off in the entire Borough is therefore an important issue for all developments, which in turn highlights the need for Sustainable Drainage Systems (SUDS) to maximise the use of source control measures. • Any redevelopment on Brownfield sites should look at opportunities to reduce the surface water run-off from the development, which the Environment Agency recommends should be a minimum of a 20% reduction in surface water discharge. In instances where existing surface water flooding problems occur, a greater reduction in run-off may be required. • It will be necessary to pay close attention to the disposal of surface water in order to ensure that the development does not contribute additional runoff to receiving watercourses and thereby increase the risk of flooding to other areas. • The Redditch Council Drainage Engineer has identified the ADR sites, A16 and A14 (both Greenfield sites) as being potentially problematic in terms of increased runoff downstream. They are large in extent and on sloping land which is underlain by impermeable soils. They will therefore have to accommodate and dispose of all surface runoff collected within their area using SUDS. • All proposals in Flood Zones 2 and 3 should be subjected to the Sequential Test, the Exception Test (if required), and accompanied by a FRA. See Annex E, PPS25 for minimum requirements. • In Flood Zone 2 water-compatible, less vulnerable and more vulnerable uses of land and essential infrastructure are appropriate. • In Flood Zone 3 only water-compatible and less vulnerable uses of land are appropriate, highly vulnerable uses should not be permitted in this zone. • More vulnerable and essential infrastructure uses should only be permitted in Zone 3a if the Exception Test is passed. • No development, other than Water Compatible and Essential Infrastructure (following application of the Exception Test), is permitted in Flood Zone 3b. Any development permitted in line with PPS25 should be designed and constructed to remain operational and safe for users in times of flood. • The policies in PPS25 require that all stages of the development planning process should take account of both the nature and spatial distribution of flood risk and the degree of vulnerability of different types of development. Reinforcing the philosophy of managing flood risk through 	<p>Sequential Test and guidance on how flood risk issues should be addressed at sites allocated within flood risk areas.</p> <ul style="list-style-type: none"> • The SFRA provides baseline information for the SA of LDDs for the scoping and evaluation stages, and provides evidence for the application of the Sequential Test and Exception Test. Demonstrate, as part of the SA, consideration of a range of options in conjunction with Flood Zone information and Sequential Test and, if necessary, Exception Test. • Identify specific flood risk related issues which need to be addressed for certain site allocations. • Allocate Development sites according to the Sequential, and if necessary Exception tests. Evidence must be provided for the reasoning; • Additional FRAs should be carried out for sites for which Flood Zones are undefined or other sources of flood risk are considered an issue; • Where development is proposed in undefended areas of the floodplain outside the functional floodplain it must be safe without increasing flood risk, ideally reducing risk • Where development is proposed behind raised flood defences 	

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<p>avoidance/prevention, PPS25 requires that planners and developers do not simply match land use types to areas or zones with an 'acceptable' degree of flood risk.</p> <ul style="list-style-type: none"> • Management of surface runoff from the proposed sites should use a combination of site specific and strategic SUDS measures encouraging 'source control' where possible. These measures should be developed with a strategic approach to flood management in mind. 	<p>additional analysis is required in a Level 2 SFRA/ site specific FRA regarding increase in residual risk through loss of flood site storage or disruption of conveyance routes</p> <ul style="list-style-type: none"> • Where appropriate allocate green corridors along the lines of watercourses • Control paving of gardens/other areas • Consider appropriate SUDS techniques to ensure flood risk isn't increased elsewhere. For Greenfield sites, this will require a calculation of Greenfield runoff rates • Consider improving existing culverts by opening them up, or if not practicable, improve the capacity of existing culvert • New developments with watercourses on site should have a comprehensive plan for management and maintainance • Where practicable flood risk should be reduced by increasing flood storage, improving flood flow routes and/or removing existing obstructions to flow 	
<p>Bromsgrove and Redditch SFRA and WCS Addendum (January 2009) Final Report</p>	<ul style="list-style-type: none"> • Beoley - If development falls in proximity to the watercourses it is recommended that a site specific FRA is carried out. • Beoley - Located upstream from Redditch where fluvial flooding has occurred and is predominantly Greenfield, it will pose additional runoff issues to existing development. However, it is not thought that a major upgrade will be required to the watercourse. • Beoley - Located close to existing development, but is predominantly Greenfield so, dependent upon the type and size of development, improvements may be required to provide a sufficient water supply to the site. 	<ul style="list-style-type: none"> • Implications as per the PPP review for the Water Cycle Strategy and Strategic Flood Risk Assessment 	<ul style="list-style-type: none"> • As per PPP review for the Water Cycle Strategy and Strategic Flood Risk Assessment

PPP	Key Objectives/targets/indicators relevant to the LDF and SA	Implication for the Local Development Framework	Implication for SA
	<ul style="list-style-type: none"> • Beoley - Wastewater will feed into the Redditch sewer system which is already identified as being under pressure. The system may therefore require some upgrade to accommodate the additional flow. As it is predominantly Greenfield then additional sewer pipes may be required to connect this site to the existing wastewater network. • Bordesley Park - If development falls in proximity to the watercourses it is recommended that a site specific FRA is carried out. • Bordesley Park - Located upstream from Redditch where fluvial flooding has occurred and is predominantly Greenfield, it will pose additional runoff issues to existing development. However, it is not thought that a major upgrade will be required to the watercourse. • Bordesley Park - Not located in close proximity to existing development, and is predominantly Greenfield. It will therefore be necessary to make fairly substantial improvements to the water supply system to provide water to the site. • Bordesley Park - Wastewater from this site will feed into the Redditch sewer system which is already identified as being under pressure. The system may therefore require some upgrade to accommodate the additional flow. As it is predominantly Greenfield then additional sewer pipes may be required to connect this site to the existing wastewater network. • Foxlydiate woods - The area around Foxlydiate is drained by a number of Ordinary Watercourses, which are tributaries to the Spring Brook. As these watercourses have not been modeled, the site will require a site specific FRA. The Spring Brook has been modeled with JFLOW and the downstream area of the site may be located within Flood Zones 2 or 3. • Foxlydiate woods - Located in proximity to, and partially underlain by, Inner and Outer sections of a Source Protection Zone (SPZ). This may limit the type of SUDS techniques which can be used in the development. • Foxlydiate woods - The site is Greenfield and is located upstream from areas of Redditch Borough which have experienced occurrences of fluvial flooding in the past. It will also drain into the Swans Brook, which has been highlighted in the SFRA as being the cause of previous flooding in parts of Redditch Borough, such as Feckenham village. The additional runoff will therefore pose a risk to existing development and has the potential exacerbate existing drainage problems, potentially resulting in a need to upgrade the existing drainage system. • Foxlydiate woods - Located fairly close to existing development, and is predominantly Greenfield. It will therefore be necessary to make some improvements to the water supply system to provide water to the site. • Foxlydiate woods - Wastewater from this site will either require pumping over the 'ridge' into the Redditch sewer system which is already identified as being under pressure, or will drain to the Priest Bridge sewage treatment works, which has been identified in the WCS as having no spare capacity. The system may therefore require substantial upgrade to accommodate the additional flow. As it is predominantly Greenfield then additional sewer pipes may be required to connect this site to the existing wastewater network.

<p>Redditch Borough Council Strategy for the housing and support of older people (2008-2026) Draft</p>	<ul style="list-style-type: none"> • This Strategy is directed towards achieving for older people the principal objectives of: <ul style="list-style-type: none"> - Ensuring they are socially included, and have a good quality of life - Enabling them to live independently for as long as possible - Preventing adverse health conditions that limit their independence - Providing good quality homes that are appropriate to their needs - Providing good quality housing support that is appropriate to their needs - Focusing housing and support on those most in need, and on unmet needs 	<ul style="list-style-type: none"> • Consider the requirements for sheltered housing 	<ul style="list-style-type: none"> • None

Appendix A Concluding Comments

Appendix A details the Councils review of all plans, policies and proposals applicable to its administrative area and lands immediately adjacent to Redditch urban area that may be required to accommodate development to meet local needs. During the consultation period on the Scoping Report consultees are invited to identify any additional documents that should be considered as part of the preparation of the LDF and related Sustainability Appraisal.

APPENDIX B – Baseline Data

The following Appendix displays the current state of the area to which the LDF relates in terms of social, environmental and economic considerations, and is presented by broad issue areas.

The LDF and its DPDs will cover the area of Redditch Borough, however the Phase 2 revision of the Regional Spatial Strategy (Preferred Options Document) indicates that some future development will have to be accommodated in neighbouring districts adjacent to Redditch in Bromsgrove and/or Stratford (e.g. 3,300 of Redditch's 6,600 provisional housing target to be provided outside the Borough). For this reason, the baseline data has been collected for Redditch Borough Council area and also where available, data has been collected for the neighbouring Bromsgrove District and Stratford-on-Avon District. The baseline information below also gives an indication of some of the matters to be addressed in the Core Strategy DPD Issues and Options Document.

The baseline data in this table is separated into social, environmental and economic considerations. Baseline data will be reviewed alongside the review of PPPs at relevant stages throughout the preparation of the LDF. Redditch Borough Council is also committed to regularly reviewing data post-adoption.

Table 4: Baseline Information

Baseline				Data source
Economic - Vitality and viability of centres in Redditch Borough				
<p>Headline Issues:</p> <ul style="list-style-type: none"> - There have been no residential dwellings completed in Redditch Town Centre since at least 1996 - New Town District Centres are not attractive - Office rents are low and offices are poorly located in the Town Centre - The food offer in Redditch Town Centre is very poor - Town Centre vacancies have fallen significantly but are still slightly higher than the national average - Redditch's night time economy is poorly perceived <p>A qualitative assessment of Redditch Town Centre was undertaken on behalf of the West Midlands Regional Assembly as a technical exercise as part of the Phase 2 RSS review entitled the Regional Centres Study (subjected to a review late 2007). This assessment made comments about the Town Centre of Redditch. The assessment concluded the extent of Redditch Town Centres primary and secondary catchment areas as being predominantly covering Redditch Borough and the surrounding area with an emphasis towards the north west of the Borough.</p>				<p>Redditch, Bromsgrove and Stratford Town Centre data – West Midlands Regional Spatial Strategy Regional Centres Study: Qualitative Review of Centres Aspirations and Physical Capacity - Technical Paper 4 (Feb 2006) - (www.wmra.gov.uk/page.asp?id=121)</p> <p>Redditch Town Centre total floorspace - Redditch Borough Council Retail and Leisure Needs Assessment (September 2008)</p> <p>Vacant units in Redditch Town Centre and Kingfisher Shopping Centre - Redditch Borough Council Annual Monitoring Report (2007/2008)</p>
	Redditch Town Centre		Bromsgrove Town Centre	Stratford on Avon Town Centre
Town Centre floorspace	45,400 sq.m comparison (2006)	67,000sq.m (2008)	-	38,200 sq.m comparison (2006)
Prime retail yield (July 2004)	5.25%		8%	5.5%

Baseline **Data source**

Prime zone A retail rents (July 2004)	£110 per sq. ft	£60 per sq. ft	£125 per sq. ft
No. retailer requirements listed by FOCUS (October 2004)	52 (ranking 138 th)	32 (ranking 336 th)	71 (ranking 170 th)
Town Centre vacancy rate 2003 (National average = 10.6%)	19.3%	5.6%	6.6%
Town Centre Vacancy (units)	7	-	-
Kingfisher Shopping Centre Vacancy (units)	17	N/A	N/A
Total built office stock	51,000 sq. m (549,000 sq. ft)	-	73,000 sq. m
Prime office rents	£14 per sq. ft	£15 per sq. ft	£17 per sq. ft
Prime office yields	7.00%	7.00%	6.00%

The table above indicates some positive aspects of Redditch Town Centre. The lower retail yield than Bromsgrove and Stratford is a good indicator of the value of the land in Redditch Town Centre for retail purposes. Yield is a measure which enables values to be compared. It is the ratio of rental income to capital value and is expressed in terms of the open market rents of a property as a percentage of the capital value. Thus the higher the yield the lower the rental income is valued and vice versa. A high yield is an indication of concern by investors that rental income might grow less rapidly and be less secure than with a lower yield. Redditch's low retail yield of 5.25% ranks Redditch as the joint 4th lowest in the West Midlands alongside Coventry (Property market report, Valuation Office, 2004). Redditch's ranking of 138th as determined by FOCUS is also encouraging. It is interesting that in Redditch the retail rents are quite high whilst the office rents are very low in comparison to other Town Centres.

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, that shopping facilities have got better or stayed the same (2003/4)	87.01%	80.48%

The table and chart above is a good indication that the residents of Redditch Borough are fairly satisfied with the progress in terms of the Borough shopping facilities, because the Redditch value is higher than the National mean and median values.

Percentage of Redditch residents that think shopping facilities have got better or stayed the same (2003/4) – ODPM Best Value General Survey

Chart of the percentage of Redditch residents that think shopping facilities have got better or stayed the same (2003/4) [http://www.areaprofiles.audit-commission.gov.uk/\(mtm44kuydzs2iu55s11ixkaf\)/ChartPage.aspx?id=10005013&chartIndex=6&screenWidth=753&screenHeight=432](http://www.areaprofiles.audit-commission.gov.uk/(mtm44kuydzs2iu55s11ixkaf)/ChartPage.aspx?id=10005013&chartIndex=6&screenWidth=753&screenHeight=432)

Redditch Town Centre GOAD Breakdown - Redditch Borough

Baseline	Data source
----------	-------------

Since the housing monitoring year of 1996/1997 there have been 0 (zero) completed residential developments within the Town Centre boundary of Redditch.

The Redditch Shopping Study from August 1968 informed the future development of Redditch's Town and District Centres. The development was planned based on population projections which have not since materialised. The Study assumed that in 2001 the Redditch population would be 106,800. It may be the case that Centres in Redditch Borough have issues with their vitality and viability because of the fact that the population has not increased as predicted in order to sustain the type and size of centre originally planned for. From another perspective, current retail needs assessment points to the need for Redditch Town Centre to accommodate additional floorspace, assuming that this can be sustained by the current population.

Within the New Town area of Redditch Borough, purpose built corner shops were developed in Church Hill North, Matchborough, Winyates Green, Winyates East and Woodrow.																																							
In Feckenham, within Redditch Borough, there are no shops for the local residents. However some essential community facilities exist in Feckenham including a doctor's surgery, a first school, village hall, churches, public houses and numerous local businesses. A community shop is scheduled to open in Feckenham in March 2009.																																							

Baseline

Data source

REDDITCH - JUNE 2008

Baseline	Data source
----------	-------------

A survey by Management Horizons Europe of shopping centres in the UK has ranked them according to their relative retail strength and the assessed level of vitality and viability. The factors influencing a centre's position in the hierarchy include the number of national multiple retailers present in the centre, the number of key attractors, the total retail floorspace available, and the level of vacant floorspace. Redditch is ranked 183rd.

Centre	MHE Rank	Distance from Redditch (km)
Birmingham	3	20
Solihull	49	16
Coventry	60	31
Worcester	62	20
Kidderminster	161	23
Stratford-upon-Avon	171	20
Redditch	183	n/a
Evesham	322	23
Stourbridge	361	21
Bromsgrove	446	8
Droitwich Spa	669	15
Kenilworth	896	25
Warwick	943	25
Stourport-on-Severn	1066	23
Pershore	2467	23
Alcester	2608	11

The table below indicates that the number of convenience units rose from 12 to 17 but there was a 2,500 sq metre fall in convenience goods floorspace. This could be a result of the loss of Tescos in the Kingfisher Centre in 2000. This unit was subdivided into 10 comparison units. The percentage of floorspace devoted to convenience retailing was 2% compared to the national average of 17% indicating that the food offer in Redditch Town Centre is comparatively poor. The number of comparison shops in the centre increased from 99 to 112 between 1997 and 2008. Comparison goods floorspace has dramatically increased by approximately 17,000 sq metres, an increase of over 54% in 11 years. This represents a substantial 70% of the total available floorspace. This is considerably higher than national floorspace average of 51%. The service sector has grown considerably over the period 1997 to 2008, a feature common in town centres across the UK. 25 additional units have been occupied by the service sector taking the total number to 75 (32% of all units). Vacancies have fallen significantly from 62 to 28 units. Falling vacancy rates is a trend across town centres in the UK over this period. In spite of this, the current vacancy rate of 12% is just above the national average of 11%.

The table below show the results of an on-street survey asking the respondents primary purpose for visiting Redditch town centre. It indicates that Redditch's clothes and shoe shopping offer is a large attraction.

Clothes / shoe shopping	28%
Food and grocery shopping	7%
Bank / building society	17%
Work / School / College	14%
Social / leisure activities	12%

The yields expressed below are 'all risk yields' calculated by dividing the annual rent, as though it had been received as a single sum at the year end, by the capital value or sale price of the property. The 'all risk yield' is a simple benchmark which the property market uses to assess the comparative attractiveness of different shopping centres. It is the ratio of rental income to capital value and is expressed in terms of the open market rent of a property as a percentage of the capital value. Redditch's yield has remained constant over the past 7 years at 5.25%. This is one of the lowest in the area and only out performed by Worcester. Moreover, it is on a par with Coventry. Other centres in the surrounding area have much higher yields (Evesham, Bromsgrove, Kidderminster and Droitwich all have yields of 5.5%).

<p>An on-street survey revealed the methods of transport were used to access Redditch Town Centre. The table below indicates that public transport was used as much as private transport and that a high proportion of people walked to the Town Centre indicating good accessibility. The low percentage of rail users may be indicative of the poor connectivity of the railway station to the Town Centre and natural because of Redditch Town Centres retail catchment area.</p> <table border="1"> <tr> <td>Car / van (or passenger in a car)</td> <td>40%</td> </tr> <tr> <td>Bus, minibus or coach</td> <td>39%</td> </tr> <tr> <td>Walk</td> <td>16%</td> </tr> <tr> <td>Train</td> <td>4%</td> </tr> <tr> <td>Bicycle</td> <td>1%</td> </tr> <tr> <td>Motorcycle</td> <td>1%</td> </tr> <tr> <td>Taxi</td> <td>1%</td> </tr> </table> <p>The table below shows the capacity for additional convenience goods facilities. At 2008 there was 22m of expenditure capacity to support additional convenience goods floorspace. This capacity is based on the assessed level of overtrading at existing stores in Redditch. Capacity is set to grow over the study period and, in 2013, this could amount to between £25m and £45m depending on whether a low or a high growth scenario is adopted.</p> <table border="1"> <thead> <tr> <th>Year</th> <th>Low Growth Scenario</th> <th>High Growth Scenario</th> </tr> </thead> <tbody> <tr> <td>2008</td> <td>£22m</td> <td>£22m</td> </tr> <tr> <td>2013</td> <td>£25m</td> <td>£45m</td> </tr> <tr> <td>2018</td> <td>£32m</td> <td>£52m</td> </tr> <tr> <td>2026</td> <td>£45m</td> <td>£69m</td> </tr> </tbody> </table> <p>Based upon the capacity assessment above the amount of floorspace that this level of expenditure capacity could theoretically support has been calculated using an appropriate sales density (£10,000 per sq m for large format supermarkets and £5,000 per sq m for smaller stores serving more local catchments). On this basis the following table indicates a requirement for additional convenience goods floorspace (sq m). Irrespective of whether a low or a high growth scenario is adopted, the capacity assessment suggests that the levels of surplus convenience goods expenditure could support a new foodstore in Redditch in the short term.</p> <table border="1"> <thead> <tr> <th rowspan="2">Year</th> <th colspan="2">Low Growth Scenario</th> <th colspan="2">High Growth Scenario</th> </tr> <tr> <th>Large format store</th> <th>Small format store</th> <th>Large format store</th> <th>Small format store</th> </tr> </thead> <tbody> <tr> <td>2008</td> <td>2200</td> <td>4400</td> <td>2200</td> <td>4400</td> </tr> <tr> <td>2013</td> <td>2500</td> <td>5100</td> <td>4500</td> <td>9000</td> </tr> <tr> <td>2018</td> <td>3200</td> <td>6400</td> <td>5300</td> <td>10600</td> </tr> <tr> <td>2026</td> <td>4500</td> <td>9100</td> <td>6900</td> <td>13800</td> </tr> </tbody> </table> <p>Note: Net sales floorspace figures rounded to the nearest 100 sq m</p>										Car / van (or passenger in a car)	40%	Bus, minibus or coach	39%	Walk	16%	Train	4%	Bicycle	1%	Motorcycle	1%	Taxi	1%	Year	Low Growth Scenario	High Growth Scenario	2008	£22m	£22m	2013	£25m	£45m	2018	£32m	£52m	2026	£45m	£69m	Year	Low Growth Scenario		High Growth Scenario		Large format store	Small format store	Large format store	Small format store	2008	2200	4400	2200	4400	2013	2500	5100	4500	9000	2018	3200	6400	5300	10600	2026	4500	9100	6900	13800

Baseline	Data source
----------	-------------

The table below assess the potential capacity for additional comparison goods floorspace in Redditch to 2026.

Year	Low Growth Scenario	High Growth Scenario
2013	£27m non-bulky £11m bulky £38m total	£93m non-bulky £37m bulky £130m total
2018	£82m non-bulky £33m bulky £114m total	£188m non-bulky £75m bulky £264m total
2026	£220m non-bulky £88m bulky £309m total	£409m non-bulky £163m bulky £572m total

A sales density of £4,500 per sq m has been assumed for non-bulky goods floorspace and £2,000 per sq m has been adopted for bulky goods floorspace. The capacity assessment indicates a significant requirement for additional comparison goods floorspace. Even adopting the low growth scenario, the figures suggest 28,000sq.m. of additional net floorspace is needed by 2018.

Year	Low growth scenario	High growth scenario
2013	10,000 sq m net	39,000 sq m net
2018	28,000 sq m net	80,000 sq m net
2026	62,000 sq m net	172,000 sq m net

Note: Figures rounded to the nearest 1,000 sq m

The following table is an extract from an on street research survey conducted in Redditch Town Centre. Researchers asked the question "If you visit the town centre during the evening / night, how long do you typically spend here?" The results indicate that there are potential issues with Redditch's night time economy.

Frequency	%
Up to 1 hour	5
1 to 2 hours	9
2 to 4 hours	13.5
Over 4 hours	5.5
Don't visit in the evening	66.5
Don't know / varies	0.5

The table below shows some responses to an on street survey completed in Redditch Town Centre. The question asked was "Comparing Redditch town centre with other centres, how does it compare on the following aspects?" Survey responses indicate that 30% think that Redditch is 'worse' when comparing the choice of shops with other centres, indicating a potential issue. The quality of shops was considered to be 'about the same' in Redditch compared to other centres (47.5%) suggesting

Baseline	Data source
----------	-------------

no particular issues. The range of services such as banks and other financial services is considered to be well established with most respondents answering 'about the same/better' than other centres suggesting that there is adequate provision. When asked to compare the range and choice of pubs / restaurants respondents indicated that this was an issue in Redditch, similarly leisure provision is considered to be lacking in provision. The shopping environment and cleanliness are considered to be generally 'better or about the same' as other centres, indicating no particular issues. Car parking provision was also generally considered to be 'better or about the same' as other centres indicating that there is adequate provision although the prices for car parking were not considered to be favourable. Accessibility by public transport indicated a mixed response but the most popular response was 'about the same'. In terms of comparing Redditch's entertainment, events or performances with other centres, most respondents indicated an issue. Day time safety was considered to be 'about the same' as other centres indicating no particular issues. Evening and night time safety was considered to be a significant concern, highlighting a potential issue. Layout was generally deemed to be about the same as other centres indicating no particular issues. Public art was considered to be either 'about the same' or 'much worse' than other centres potentially highlighting an issue for Redditch. The environment and public information, signposts and public facilities are generally deemed to be 'about the same' as other centres indicating no particular issues.

The table above shows that there are considerably more VAT registrations than de-registrations in Redditch Borough, which is consistent with the West Midlands and Great Britain.

Current Industrial availability in Worcestershire Districts - Worcestershire property service annual report 2005 – 2006

	Redditch %	Great Britain %
Number of Job Seeker's Allowance claimants as a percentage of the working age population (December 2008)	3.5%	3.0%

Bar Chart: Redditch Borough Industrial supply and demand – Redditch Commercial Property Report 2007

Industrial rent levels per square foot in Worcestershire Districts (July 2005 – March 2006) - Worcestershire property service annual report 2005 – 2006

Bar Chart: Office demand in Worcestershire Districts (2006/07) - Worcestershire property service annual report 2006 – 2007

Statistics from NOMIS data count regarding the number of claimants in Redditch Borough suggest that the level is decreasing in the Borough, which is reassuring when considering that the percentage of claimants is higher than the mean value. The chart displays the difference between the Redditch value and the mean national value.

Bar Chart: Redditch office demand (2006 – 2007) – Redditch Commercial Property Report 2007

	Redditch %	Great Britain %
Percentage of Job Seeker's allowance claimants who have been out of work for more than a year	5.4%	8.9%

Bar Chart: Average days on the market in Worcestershire Districts (Office) - Worcestershire property service annual report 2005 – 2006

Statistics from NOMIS data count suggest that in Redditch there are an increasing number of claimants who have been out of work for more than one year; however the Redditch percentage is reassuringly lower than the mean value and this is displayed in the chart above.

Bar Chart: Office availability in Worcestershire Districts (March 2003 – March 2007) - Worcestershire property service annual report 2006 – 2007

	Redditch	Mean Value
Total number of VAT registered businesses in the area at the end of the year (2004)	2215	6085.1

Current office availability in Worcestershire Districts - Worcestershire property service annual report 2004 – 2006

Statistics from NOMIS data count show that the number of VAT registered businesses in Redditch is increasing.

Redditch has the lowest number of registered businesses in Worcestershire with 2,295 (2006)

	Redditch %	Mean Value

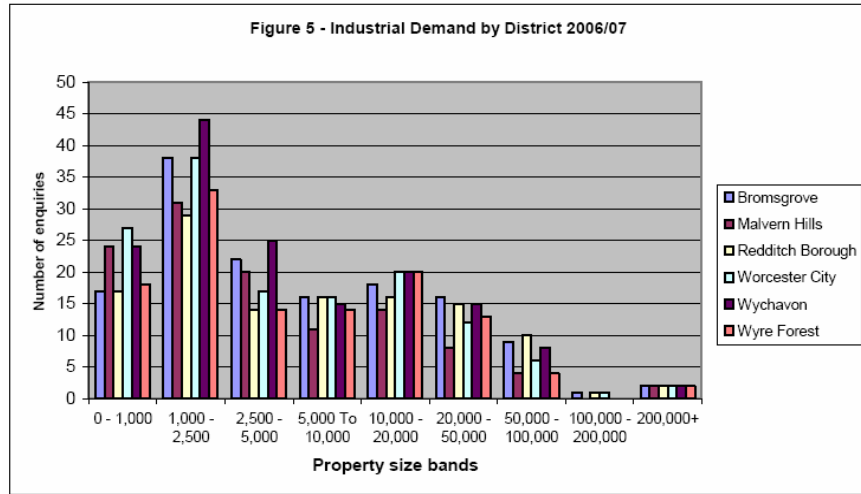

Redditch office supply and demand

----------	-------------	--

Percentage of residents who think that for their local area, over the past three years, that job prospects have got better or stayed the same (2003/4)	68.77%	65.25%
--	--------	--------

The table and chart above indicate that in Redditch Borough in recent years, residents have been optimistic about job prospects in comparison to the mean value.

The average rental level for industrial property in Redditch is £5.57 per square foot per annum and £10.16 for office accommodation. During 2006, the demand for industrial units increased in all size ranges except 2,501 – 5,000 and 100,000+ square feet. There has been a 35% increase in demand for office accommodation and 23% for retail premises. (Redditch Borough Council Commercial Property Report 2006).

The bar chart above indicates that in Redditch Borough there is the highest demand for floorspace of 1,000 – 2,500 sq ft, representing 24% of total demand. Demand is predominantly for units less than 10,000 sq ft (64%). Note: The enquiries that these statistics are based upon come largely from the local market. 50% of enquiries are from Worcestershire based companies and much of the demand is generated by churn. The enquiries received represent a quarter of total demand. (Based on number of properties let to companies who have used the property service as a percentage of all properties let).

Figure 1: Demand for Industrial Properties

The bar chart above indicates that in Redditch the industrial demand tends to be between 1,000 and 2,500 sq ft historically, with less demand for the larger units.

The bar chart above indicates that the average an industrial unit spends on the market is comparable with the figures for the other Worcestershire Districts.

Baseline

Data source

The bar chart above indicates that in all years displayed there is a very high availability of industrial/warehouse premises in Redditch however these statistics represent the Worcestershire District of Wychavon as North and South. Combining these figures means that Wychavon as a whole would have a higher availability than Redditch.

Current Industrial Availability	Bromsgrove	Malvern	Redditch	Worcester City	Wychavon (North)	Wychavon (South)	Wyre Forest
0 - 1,000	4	1	13	8	1	4	1
1,000 - 2,500	7	6	17	6	14	6	11
2,500 - 5,000	5	4	12	10	11	3	7
5,000 - 10,000	2	5	9	2	8	4	10
10,000 - 20,000	1	4	8	0	5	2	3
20,000 - 50,000	1	2	8	3	4	1	5
50,000 - 100,000	0	0	3	0	6	0	1
100,000 +	0	0	1	1	2	0	0

The table above indicates that in Redditch the number of available industrial buildings is high, especially in terms of the smaller units; however these statistics represent the Worcestershire District of Wychavon as North and South. Combining these figures means that Wychavon as a whole would have a higher availability than Redditch. There are available industrial units of all sizes available in the Borough.

Figure 12: Industrial Properties

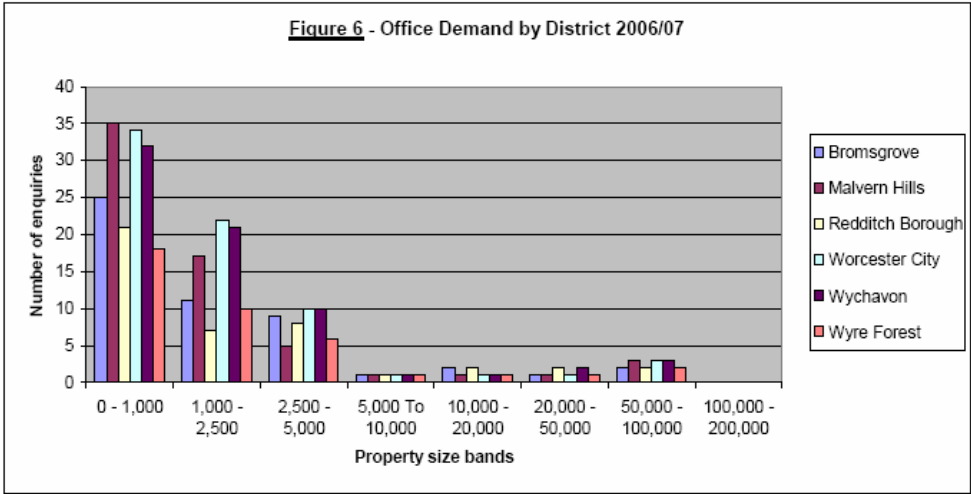

The chart above shows that demand is outnumbering supply for all industrial units.

Industrial Rent levels per square ft.	Average (July 05)	Average (Mar 06)	Highest (July 05)	Highest (Mar 06)	Lowest (July 05)	Lowest (Mar 06)
Bromsgrove	£5.75	£5.98	£7.74	£7.78	£3.25	£5.02
Malvern	£4.20	£4.67	£10.09	£6.81	£1.00	£1.00
Redditch	£5.95	£5.31	£15.56	£8.04	£2.63	£2.49
Worcester City	£5.14	£4.90	£9.09	£9.09	£0.76	£0.76
Wyre Forest	£4.06	£3.80	£7.74	£6.30	£1.50	£2.00
Wychavon	£4.96	£5.41 *	£12.50	£10.43 *	£1.82	£1.96 *

* March 2006 figures relate to Wychavon (North) and Wychavon (South). For the purposes of this table, the north and south figures for Wychavon have been averaged.

The table above shows that in Redditch the average rent levels per sq.ft has decreased. It also shows that Redditch has experienced the highest rent levels of any Worcestershire District.

The table above indicates that in Redditch Borough there is a high number of enquiries for offices between 0 and 1,000 sq.ft, and this is a similar feature throughout Worcestershire.

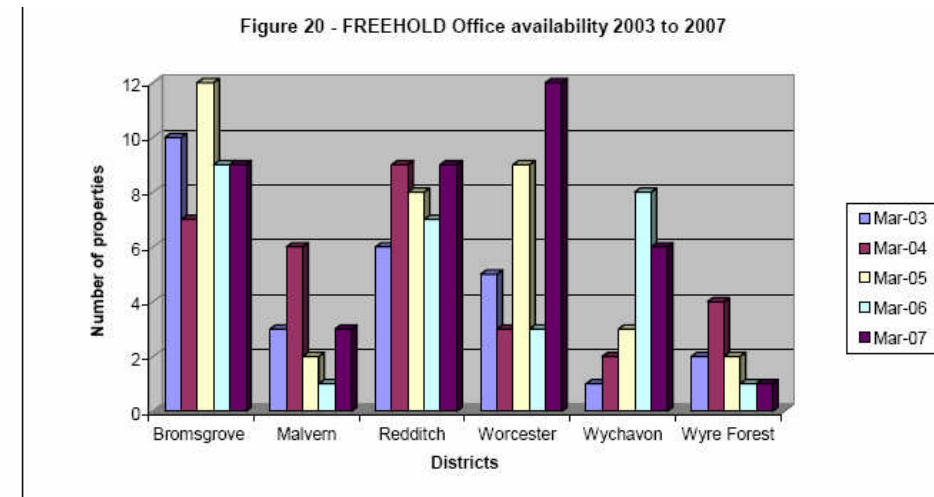

Figure 2: Demand for Office Accommodation

The table above shows that in Redditch Borough the office demand is predominantly for sizes of 0 - 1,000 sq.ft in 2006/7.

The table above shows that in Redditch Borough, there has been an increase between 2005 and 2006 of the average number of days an office property is on the market. It also shows that Redditch closely follows Bromsgrove as one of Borough's with the longest periods of office properties on the market.

The table above shows that Redditch Borough has a high number of office properties available in comparison to other Districts in the County, but is comparable with Worcester City.

Baseline **Data source**

Current Office Availability (sq.ft)	Bromsgrove	Malvern	Redditch	Worcester City	Wychavon (North)	Wychavon (South)	Wyre Forest
0 - 1,000	6	6	14	16	10	13	14
1,000 - 2,500	8	11	15	21	9	8	8
2,500 - 5,000	3	4	14	6	3	1	1
5,000 - 10,000	4	0	5	3	0	0	0
10,000 - 20,000	1	0	0	1	0	1	1
20,000 - 50,000	0	0	0	2	0	0	0
50,000 - 100,000	1	0	0	0	0	0	0
100,000 +	0	0	0	0	0	0	0
TOTAL	22	21	48	49	22	23	24

The table above indicates that in Redditch Borough the total number of offices available is very high (the second highest of all Worcestershire Districts) and the availability is mainly of premises between 0 and 5,000 square feet in size.

Figure 13: Office Accommodation

The chart above shows that in Redditch Borough the supply of office properties outnumbers the demand for the smaller units (0-10,000 sq.ft) but demand outweighs supply for the larger units (10,000 to 100,000 sq.ft).

Baseline	Data source
----------	-------------

Office Rent levels per square ft.	Average (July 05)	Average (Mar 06)	Highest (July 05)	Highest (Mar 06)	Lowest (July 05)	Lowest (Mar 06)
Bromsgrove	£10.62	£11.67	£17.14	£17.50	£4.05	£7.23
Malvern	£9.89	£9.71	£18.00	£12.27	£2.88	£3.69
Redditch	£12.83	£10.36	£28.89	£14.50	£4.46	£6.02
Worcester City	£10.78	£10.10	£28.57	£22.56	£4.02	£4.47
Wyre Forest	£7.54	£8.84	£18.47	£17.14	£3.53	£4.67
Wychavon	£11.06	£10.28 *	£33.60	£16.42 *	£3.53	£4.04 *

* March 2006 figures relate to Wychavon (North) and Wychavon (South). For the purposes of this table, the north and south figures for Wychavon have been averaged.

The Gross Value Added (GVA) per head of population was estimated to be £14,528 in 2004. GVA per head grew in Worcestershire County by 13.9% between 2002-2004 and per head by 12.6%, a rate of growth outstripping the regional and UK average. However, GVA per head still remains lower than the regional average and significantly lower than the UK average.

Total investment in Worcestershire is projected to increase by 2.4% per annum between 2004 and 2010 (compared to 2.3% in the West Midlands and 3.1% in the UK), and by 2.3% per annum between 2010 and 2015 (compared to 2.2% in the West Midlands and 2.6% in the UK).

The estimated sum of incomes earned from the production of good and services in Worcestershire amounts to £8.3 billion. This is nearly 10% of the West Midlands total or 0.8% of the United Kingdom. (2005)

Worcestershire has an economically active working age population of 275,200, this equates to an economic activity rate of 83.5%. This is higher than the Regional (77.3%) and national (78.5%) rates - for both males and females.

	Male	Female	Total	Rate	Change on last month	Change on 12 months ago
Bromsgrove	1095	386	1481	3.30%	227	778
Malvern Hills	701	297	998	2.90%	175	550
Redditch	2021	692	2713	6.40%	549	1,609
Worcester	1840	566	2406	4.90%	297	1,092
Wychavon	1615	611	2226	3.80%	384	1,230
Wyre Forest	1844	721	2565	5.20%	287	1,425
WORCESTERSHIRE	9116	3273	12,389	4.40%	1,919	6,682

This chart shows that Redditch consistently has the highest claimant count unemployment than any other Worcestershire District.

Number of Employees	Bromsgrove	Malvern Hills	Redditch	Worcester City	Wychavon	Wyre Forest
1 - 10	88	87.8	81.3	81.3	87.2	83.9

Baseline								Data source		
----------	--	--	--	--	--	--	--	-------------	--	--

11 - 49	9.6	10.1	13.9	13.7	10.3	12.9
50-199	2.1	1.8	4	3.9	2.2	2.7
200+	0.3	0.3	0.8	1.1	0.3	0.5
Total	100	100	100	100	100	100

It is evidenced here that Redditch has a small amount of workplaces that employ less than 10 people, the most significant amount of workplaces employ between – 11 and 49 employees. This suggests that people are employed in medium sized business for example manufacturing industries and small factories.

As the UK economy has entered recession, so the number of people who are unemployed has started to increase. From 2007 to 2008 claimant counts in Redditch have risen considerably, higher than any other authority in the County, and higher than the County, Region and English average. With the continuing pressures on businesses this trend could continue.

Area	2003		2004		2005		2006		Change 2005-6

Jobs density is the numbers of jobs per resident of working age (f:16-59; m:16-64). For example, a job density of 1.0 would mean that there is one job for every resident of working age. Job Density provides an estimate of the balance between the number of jobs in an area, and the number of working age people resident in the area. It

Baseline	Data source																														
<p>is calculated by dividing the number of jobs by the number of people of working age. A density value of 1 would indicate that there was 1 job for every working age resident. A value of less than one indicates that there are more residents of working age than there are jobs. In 2006 Redditch had a favourable job density ratio of 0.95, which compares favourably with the rest of the County, Region and England. However it is anticipated given the recession and increase in claimants that this ration currently is in a less favourable position.</p>																															
<p>Economic - Business diversity in Redditch</p>																															
<p>Headline Issues:</p> <ul style="list-style-type: none"> - A higher percentage of Redditch Borough's population are employed as 'process plant and machine operatives' than in Great Britain - High proportion of Redditch Borough's population working in the manufacturing industry - New business registration rates in Redditch are very low compared to other Worcestershire Districts - Between 2005 and 2010 employment levels in Worcestershire are expected to decrease in the Agriculture (-4.3%), mining and quarrying (-1.3%), manufacturing (-1.4%) and transport and communications (-0.6%). 	<p>Decrease of employment levels in Worcestershire by sector - Worcestershire County Economic Assessment (2007-2008).</p>

West Midlands	46.7	52.2	54.1	53.9	48.8	55.5	
England	54	59	61.6	59.2	54.8	64.2	

The above table provides an indication of the levels of entrepreneurship across Worcestershire, showing the number of new businesses per 10,000 people aged 16+. In 2007 the new business registration rate for Redditch was higher for Worcestershire (62.4) than for the West Midlands (55.5), but marginally below the rate for England (64.2) as a whole. Rates were highest in Wychavon (80.8) and lowest in Redditch (50.9). With Redditch demonstrating the lowest rates, this is an obvious concern and an area that needs attention.

Environmental - Climate Change in Redditch

Headline Issues:
- **Redditch Borough has lower domestic and road transport CO2 emission than all other Districts in Worcestershire**

Malvern Hills District	196	171	356	22	745	10.08
Redditch Borough	189	351	87	2	628	7.91
Worcester City	244	252	116	2	613	6.56
Wychavon District	308	512	582	28	1429	12.29
Wyre Forest	244	225	145	6	619	6.31
Worcestershire County	1432	1672	1814	69	4983	53.51

The table above indicates that Redditch Borough emits the least domestic and Road Transport CO2 emissions than any other Worcestershire District. In terms of domestic emissions, it is considered that the lower figure for Redditch may be because many parts of Redditch (as a former new town) have newer properties than in other Worcestershire Districts. Older properties are likely to require greater heating or cooling.

Number of homes built in 2006/7 to Code for Sustainable Homes Level 3 = 36

If we continue to discharge large amounts of greenhouse gases, by 2050 in the West Midlands:

There are a total of 67 local bus services in the Borough including routes to Lichfield, Evesham, Kidderminster and Stratford-on-Avon. The Redditch Borough local bus transport operators are:</p> <ul style="list-style-type: none"> - A& M Group Village Bus - A Touch of Class - Central Connect - Central Trains - Cresswell - Diamond Bus - Dudley's Coaches - First Midland Red West - Hardings - Johnsons - Stagecoach Midland Red - Whittle Bus - Worcestershire County Council 					Railway Station	1994	1995	Change (%)	Redditch	331,946	756,275	128%	Worcestershire	3,502,637	5,850,485	67%	<p>Percentage of Redditch residents who think public transport has got better or stayed the same (2003/4) ODPM Best Value General Survey</p> <p>Chart showing perception of public transport (2003/4): Audit Commission Area Profiles http://www.areaprofiles.audit-commission.gov.uk/(mtm44kuydzs2iu55s11ixkaf)/ChartPage.aspx?id=10005014&chartIndex=6&screenWidth=753&screenHeight=432</p> <p>Percentage length of footpaths and public rights of way which are easy to use (2005/6) – Audit Commission Area Profile, Best Value PI 178</p>
Railway Station	1994	1995	Change (%)														
Redditch	331,946	756,275	128%														
Worcestershire	3,502,637	5,850,485	67%														
			Redditch %	Mean Value													
Percentage of residents who think that for their local area, over the past three years, that the level of traffic congestion 'has got better or stayed the same' (2003/4)			39.91%	32.03%													

Baseline **Data source**

The table and the chart above indicate that Redditch residents have more positive perceptions about traffic congestion improvements than perceptions generally held as indicated in the national mean and median values.

	Worcestershire	Mean Value
Percentage of residents satisfied with the frequency of buses (WCC) (2003/4)	55.88%	60.52%

This table suggests that there are concerns over the frequency of buses at a Worcestershire wide level, as the percentage is lower than the mean value.

	Redditch	Mean Value
Percentage of residents who think that for their local area, over the past three years, that public transport has got better or stayed the same (2003/4)	29.57%	70.49%

The table and the chart above indicate that there is a very high level of concern in Redditch Borough for public transport as is demonstrated by the significant difference between the low Redditch value and the higher National mean and median values.

	Worcestershire	Mean Value
Percentage length of footpaths and rights of way which are easy to use (WCC) (2005/6)	63.00%	74.58%

The table above suggests that Worcestershire residents are not satisfied with the ease of use of rights of way in comparison with the mean value.

Environmental - Biodiversity in Redditch

Baseline **Data source**

Headline Issues:

- **Five out of six of Redditch Borough's SSSIs are meeting the 100% PSA target**
- **Three out of six of Redditch Borough's SSSIs are described as 'favourable'**

Number and percentage of applications refused/amended/conditioned because of potential adverse impact on natural features or wildlife = 12 (2.68%)

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, that access to nature has got better or stayed the same (2003/4)	93.67%	93.45%

The table and chart above indicate that there is a perception that access to nature has got better or stayed the same, slightly above the national mean value but lower than the national median.

The Redditch Biodiversity Action Programme describes the habitats found within Redditch Borough and examples of where these can be found:

- Arable (Area south west of Redditch between Astwood Bank and Feckenham)
- Traditional Orchards (Arrow Valley Country Park, central sector)
- Ancient/Species Rich Hedgerows (Saxon Landscape around Feckenham)
- Scrub (Ipsley Meadows, Arrow Valley Country Park – Southern Section)
- Woodland (Wirehill Wood SSSI)
- Lowland Wood Pasture and Veteran Trees (Several scattered throughout Arrow Valley Park)
- Wet Woodland (Alder Carr at Ipsley Alders SSSI and nature reserve)
- Reedbeds (Feckenham Wyldes Moor SSSI and Nature Reserve)

Number and percentage of applications refused/amended/conditioned because of potential adverse impact on natural features or wildlife - Redditch Borough Council Annual Monitoring Report (2008)

Percentage of residents who think that for their local area that access to nature has got better or stayed the same (2003/4): Audit Commission Area Profile ([www.areaprofiles.audit-commission.gov.uk/\(mtm44kuydzs2iu55s11ixkaf\)/LAAPProfile.aspx](http://www.areaprofiles.audit-commission.gov.uk/(mtm44kuydzs2iu55s11ixkaf)/LAAPProfile.aspx))

Fen and Marsh (Ipsley Alders SSSI)
 Lowland Hay Meadow and Neutral Pastures (Proctors Barn Meadows)
 Road Verges (Alvechurch and Coventry Highways)
 Urban (Cemetery on Plymouth Road)
 Arrow Valley, Lodge Pool, Ipsley Pool
 Rivers and Streams (River Arrow and Bow Brook)

SSSI Name	Size (Ha)	Type	Condition description	% meeting PSA* target
Dagnell End Meadow	2.16	Neutral grassland/lowland	Unfavourable recovering	100%
Ipsley Alders Marsh	15.11	Fen, marsh & swamp	Unfavourable no change	0%
Rookery Cottage Meadows (Upper Beanhall Meadows)	5.82	Neutral grassland/lowland	Favourable	100%
Rough Hill & Wirehill Woods	52.03 (17.44 in Redditch Borough)	Broadleaved, mixed & yew woodland/lowland	Favourable	100%
Trickses Hole	2.85	Neutral grassland	Favourable	100%
Wylde Moor Feckenham	3.53	Neutral grassland/lowland	Unfavourable recovering	100%
	6.44	Fen, marsh & swamp	Favourable	
	1.38	Neutral grassland/lowland	Unfavourable recovering	

* PSA = The Governments Public Service Agreement target of 95% of the SSSI in favourable or recovering condition by 2010

The table above shows that five of the six SSSIs in Redditch Borough are meeting the PSA target at 100%. Ipsley Alders Marsh is not meeting the PSA target. Wylde Moor Feckenham has improved from 56% to 100% meeting the PSA target in the last 12 months. Neighbouring Bromsgrove District has eight designated SSSIs, 96 Special Wildlife Sites and 5 Landscape Protection Areas. Stratford-on-Avon District has 37 SSSIs.

Environmental - The landscape and townscape character in Redditch	
---	--

The 1996 Character of England Map compiled by the Countryside Commission and English Nature shows the extent of Joint Character Areas in England. It does state that the boundaries of the Joint Character Areas are not precise and that many of the boundaries should be considered as broad zones of transition. Redditch Borough lies at the heart of one of these transitions. To the North and East of the Borough the landscape is defined as being within 'Arden' and in the South and West of the Borough the landscape is defined as being within 'Severn and Avon Vales'.

Joint Character Areas - The Character of England Map (1996) Countryside Commission and English Nature (www.naturalengland.org)

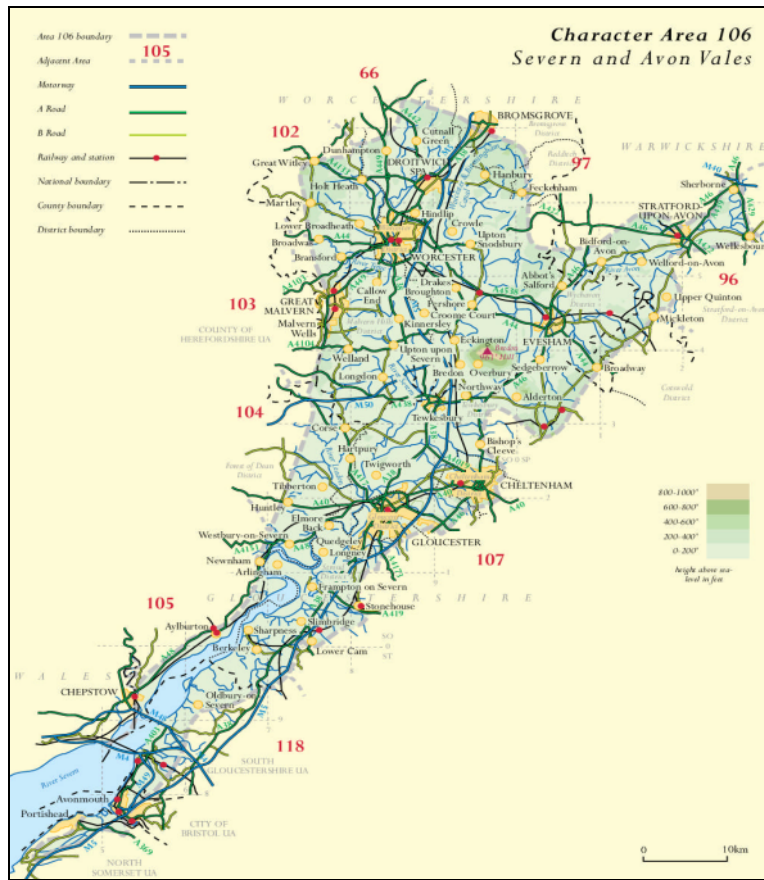

Map of Character Area 106 Severn and Avon Vales - (http://www.naturalengland.org.uk/Images/jca106severnandavonvalestcm2-21199_tcm6-5557.pdf)

Baseline

Data source

Number of Landscape Character Assessments in Redditch Borough = 2 (Callow Hill Ridge Landscape Character Assessment), Worcestershire Landscape Character Assessment (2004)

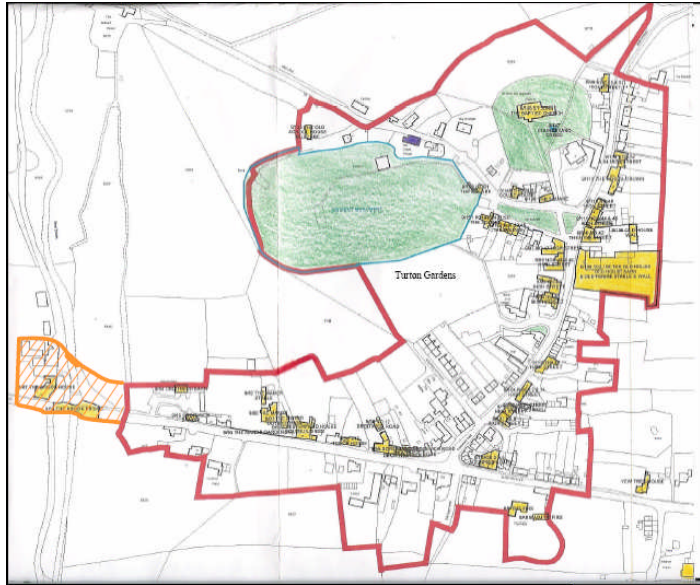

Number of Conservation Area Character Appraisals = 2 (Redditch Town Centre Conservation Area and Feckenham Conservation Area). Feckenham Conservation area was originally designated by Worcestershire County Council on 10 November 1969 and was extended by Redditch Borough Council on 20th June 1995 to cover 14.2 hectares in extent. Church Green Conservation Area in the Town Centre of Redditch was originally designated by Worcestershire County Council on 6 August 1971 and extended by Redditch Borough Council on 15 November 1978 and is 2.77 hectares in extent.

The plan on the left shows the extent of the Feckenham Conservation Area (in blue) and the approved extension to the conservation area (in red). The plan on the right

Baseline **Data source**

shows the Church Green (Town Centre) Conservation Area (in blue) and the approved extension to the conservation area (in red).

■ Listed Building	— Conservation area boundary
■ Buildings of local interest	— Scheduled ancient monuments
■ Green open spaces with public access	— Proposed boundary change

The plan above is a drawing taken from the Feckenham Conservation Area Character Appraisal (2005) showing the listed buildings, locally listed buildings, conservation area boundary, Scheduled ancient monument, green open spaces with public access and the now approved extension to the conservation area.

The Western Areas Strategy Plan was undertaken by Redditch Development Corporation in September 1972 to inform the New Town expansion of Redditch. This plan had a very strong focus on the need for good landscaping with any new development. One of the most important principles of this Strategy Plan was to ensure that the ridges in the Borough were kept clear from development.

Environmental - Water quality and water resources in Redditch and foul drainage

Headline Issues:

- **The percentage of River length in Redditch Borough assessed as good biological quality is fairly low**
- **There is a negative supply and demand balance of water in the Severn area**

	Redditch %	Mean Value
Percentage of river length assessed as good biological quality (2005)	44.51%	54.20%

Biological quality of the water in Redditch is below the mean average. This means that in Redditch, the macro-invertebrates (or small animals) living in or on the river can be found at a lower frequency or density than elsewhere. Statistics in the Audit Commission Area Profile suggest that in Redditch there is an increasing amount of river length deemed to be of good biological quality.

Percentage of river length in Redditch Borough assessed as good biological quality (2005), Environment Agency River Quality – Audit Commission Area Profile

Percentage of river length in Redditch Borough assessed as good chemical quality (2005), Environment Agency River Quality – Audit Commission Area Profile

Baseline	Data source
----------	-------------

	Redditch %	Mean Value
Percentage of river length assessed as good chemical quality (2005)	56.06%	53.90%

The chemical quality of water in Redditch is above the mean average. This means that the three standard determinants measured (dissolved oxygen, biochemical oxygen demand and ammoniacal nitrogen) are stable. Statistics in the Audit Commission Area Profile suggests that in Redditch the percentage of river length assessed as good chemical quality is increasing.

There are eight sites where there are water discharge consents in Redditch Borough.

Midlands % of Total by date	Good %	Fair %	Poor or bad %
1990	35%	46%	19%
1995	45%	46%	9%
2000	59%	34%	6%
2001	63%	30%	7%
2002	63%	31%	6%
2003	58%	34%	8%
2004	56%	36%	8%
2005	59%	32%	8%
2006	64%	28%	7%

The table above shows that in the Midlands the number of kilometres of river classed as A and B (Good) has risen considerably between 1990 and 2005. Furthermore the number of kilometres of river classed as F (Bad) has decreased between 1990 and 2005. The percentage of rivers in the Midlands classed as good has risen from 35% to 59% in the same time period and also the percentage of Midlands rivers classed as poor or bad has decreased from 19% to 8%.

	Redditch	Mean Value
Daily domestic water use (per capita consumption, litres)	138 litres	154.14 litres

The table above indicates that less water is consumed in Redditch in comparison with the mean consumption value. It is not clear if this figure relates to consumption per person or per household.

	Redditch	Mean Value
Average water supply leakage (within the resource zone) per day (megalitres)	12.4 mgl per day	157.39 mgl per day

The table above indicates that there is less water leakage in Redditch Borough per day in comparison with the mean value.

In terms of water resources, in the West Midlands the average annual rainfall is about 750mm, compared to an average of about 900mm for England and Wales. About a quarter of the region is underlain by useable aquifers, including the widespread Permo-Triassic Sandstone and the Old Red Sandstone in Herefordshire. Over 1400 million litres of water per day (Ml/d) are extracted for public water supplies and 230 Ml/d for industrial uses. An average of about 80Ml/d are abstracted for spray

Severn Water Resource Zone supply - Bromsgrove and Redditch Water Cycle Strategy (2009)

The map above shows the Avon Catchment Area Management Strategy area which includes Redditch Borough (to the north west). The map shows the extent of the River Arrow, a tributary of the River Avon and the Bow Brook extending into the rural parts of Redditch Borough. There are no canals of relevance to Redditch Borough.

Year	Percentage
Percentage of new homes connecting to the mains drainage systems (2007/8)	91.53%
Percentage of new homes connecting to the non-mains drainage system (2007/8)	8.47%
Percentage of new homes connecting to the mains drainage systems (2006/7)	100%

Baseline		Data source	
Percentage of new homes connecting to the mains drainage systems (2005/6)	99.50%		
Percentage of new homes connecting to the non-mains drainage system (2005/6)	0.50%		
Percentage of new homes connecting to the mains drainage systems (2004/5)	99%		
Percentage of new homes connecting to the non-mains drainage system (2004/5)	1%		
Percentage of new homes connecting to the mains drainage systems (2003/4)	100%		
Percentage of new homes connecting to the non-mains drainage system (2003/4)	0%		
Percentage of new homes connecting to the mains drainage systems (2002/3)	97.50%		
Percentage of new homes connecting to the non-mains drainage system (2002/3)	2.50%		
Percentage of new homes connecting to the mains drainage systems (2001/2)	97%		
Percentage of new homes connecting to the non-mains drainage system (2001/2)	3%		
Percentage of employment land connecting to the mains drainage system (2007/8)	100%*		
* 100% connectivity experienced annually since 2001/2.			

The table above shows the percentage of new homes and employment connecting to the main and non-main drainage systems between 2001 and 2007.

	Industry Average 2004/05	Severn Trent Water 2004/05	Severn Trent Water 2005/06
Leakage as a proportion of water put into supply (M5)	27.90%	26.10%	27.80%
Per capita domestic water consumption litres/ head/ day (S3)	150.65	131.4	136.5
Number of daily abstraction licences exceeded (N8)	12 (pro rata)	2	4
Volume of water abstracted in excess of licensed daily volume (N8)	560MI	1.8MI	106.86MI

The table above shows that in the Severn Trent catchment, water leakage is roughly in line with the industry average. The water consumption is considerably lower than the average, also the number of daily abstraction licenses exceeded and volume of water abstracted is lower.

Baseline

Data source

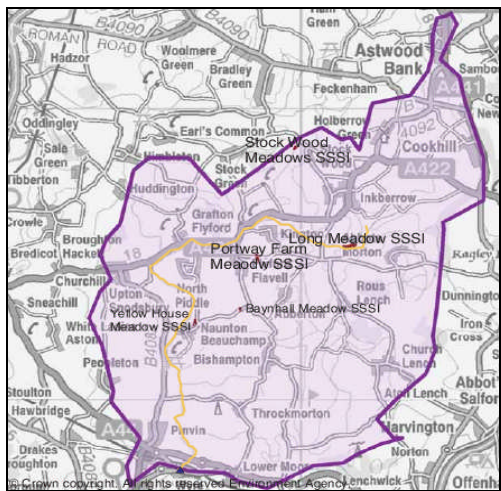

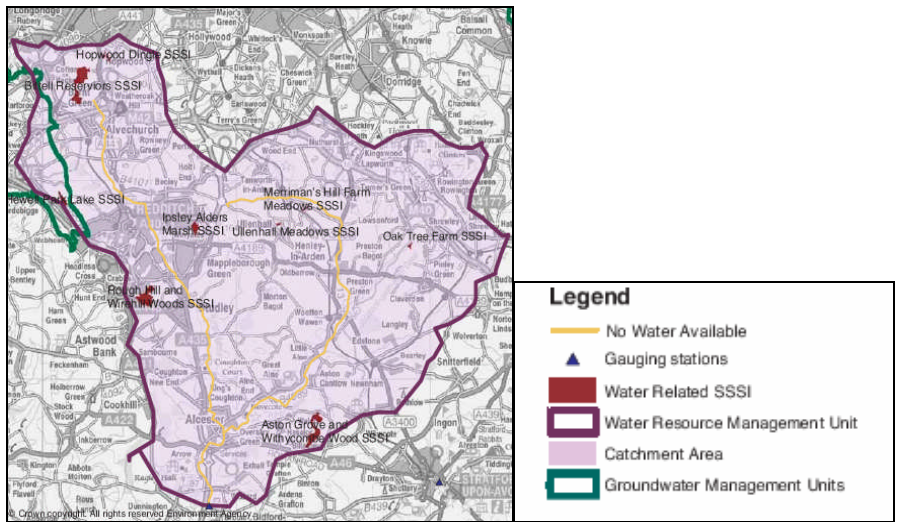

The graph above shows the average daily leakage for the Severn Trent Catchment Average leakage for 2007/08 was 491 MI/d (against an Ofwat target of 505 MI/d).

Year	Rainfall (mm)	% Historic Average

Baseline

Data source

Baseline **Data source**

The table below shows that the Severn Water Resource Zone has a negative supply demand balance from 2006/7 and this balance remains negative throughout the plan period and beyond, becoming increasingly negative over time. Close to the end of the planning period covered in 2024/5, the shortfall in this WRZ is over 80MI/d. Note that a negative value indicates an increased risk of shortfall (deficit) or resources to meet demand and a positive value indicates surplus of resources over demand.

Zone	Year when supply demand balance becomes negative	Supply demand balance in 2014/15 (MI/d)	Supply demand balance in 2019/20 (MI/d)	Supply demand balance in 2024/25 (MI/d)	Supply demand balance in 2029/30 (MI/d)
East Midlands	2011/12	-29.3	-76.86	-88.73	-104.92

Operator Name	Site address	Year	Quantity of Carbon Dioxide released (tonnes)
Polkacrest Midlands Limited	Alexandra Hospital Incinerator, Alexandra Hospital, Woodrow Road, Redditch	2005	10830
		2006	23703
		2007	24448
First Energy (Redditch) LTD	Windsor Road, Redditch	2005	<10000
		2007	<10000

The above table gives the details of the locations in Redditch Borough where carbon dioxide is produced. There are two active sites, including the hospital waste incineration plant and a combustion plant. Carbon dioxide emissions from the incinerator at the hospital have more than doubled between 2005 and 2007.

Operator Name	Site address	Year	Quantity of Dioxins released (g)
Polkacrest Midlands Limited	Alexandra Hospital Incinerator, Alexandra Hospital, Woodrow Road, Redditch	2005	0.4
		2006	<0.1
		2007	<0.1
BA Tubes LTD	Studley Road, Redditch	2005	<0.1
		2007	<0.1

The above table gives the details of the locations in Redditch Borough where dioxins are produced. There are two active sites, including the hospital waste incineration plant and an operator specialising in coating, printing and textiles. The hospital site has seen a reduction in dioxin emissions between 2005 and 2007 whilst the BA Tubes Ltd site has remained the same.

Baseline **Data source**

Operator Name	Site address	Year	Quantity of Nitrogen Oxides released (tonnes)
First Energy (Redditch) LTD	Windsor Road, Redditch	2005	<100
		2007	<100
BA Tubes LTD	Studley Road, Redditch	2005	<100
		2007	<100

Number of applications refused/amended/conditioned because of unacceptable levels of pollution - Redditch Borough Council Annual Monitoring Report (2008)

Baseline	Data source
----------	-------------

	2007	<100
--	------	------

The above table gives the details of the locations in Redditch Borough where Sulphur Oxides are produced. There are three sites including the hospital waste incineration plant, an operator specialising in coating, printing and textiles and a combustion plant. All sites have remained the same in terms of Sulphur Oxide emissions.

In Redditch Borough, there are 500 'sites of potential concern' in terms of land contamination (2005/6).

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, the level of pollution has got better or stayed the same (2003/4)	68.04%	61.21%

As the table above indicates in Redditch there is a very high percentage of residents who think pollution has got better or stayed the same in comparison to the National mean and median percentages.

	Redditch	Mean Value
Local estimates of CO2 emissions (tonnes CO2) - Total emissions per capita	7.2tonnes	10.4tonnes
Local estimates of CO2 emissions (tonnes CO2) - Domestic emissions per capita	2.3tonnes	2.67tonnes

As the table above indicates, the Redditch estimate for total Co2 emissions is considerably lower than the National mean value.

Number of applications refused/amended/conditioned because of unacceptable levels of pollution = 41 (9.15%)

Environmental - Managing waste in accordance with the waste hierarchy	
---	--

Headline Issues:

- **The majority of Redditch Borough's waste is incinerated**

Household Waste	Percentage
Household waste recycled:	20.30%
Household waste incinerated:	57%
Household waste landfilled:	43%

The table above indicates that the majority of Redditch Borough's waste is incinerated.

	Redditch (2005/6)	Redditch (2006/7)	Mean Value (2005/6)
Kilograms of household waste collected per head	414.0 kg	408 kg	438.62 kg

Statistics in the Audit Commission Area Profile suggests that in Redditch this is a decreasing trend. In Redditch, there are fewer kilograms of waste collected per head in comparison to the mean value.

Amount and percentage of waste recycled and incinerated / landfilled, Redditch Borough Council 2006/7 Figures (Un-audited)

Household waste collected per head in Redditch - Audit Commission Area Profile, Best Value PI 84 (2006/7 figures are un-audited figures from Redditch Borough Council)

Percentage of household waste used to recover heat, power and other energy sources in Worcestershire (2004) - Audit Commission Area Profile, Best Value PI 82c

Baseline			Data source
	Worcestershire	Mean Value	Percentage of people in Redditch satisfied with household waste recycling – Audit Commission Area Profile, Best Value PI 90b (2006/7) Figures are un-audited figures from Redditch Borough Council)
Percentage of household waste used to recover heat, power and other energy sources (2005/6)	6.72%	11.95%	
<p>Statistics in the Audit Commission Area Profile suggests that in Worcestershire the percentage of household waste used to recover heat, power and other energy sources is an increasing trend; however it is lower than the mean value.</p>			
	Redditch (2003/4)	Redditch (2006/7)	Mean Value (2003/4)
Percentage of people satisfied with household waste recycling	77%	70.9%	68.03%
<p>Statistics in the Audit Commission Area Profile suggests that in Redditch the percentage of people satisfied with household waste recycling is increasing. The satisfaction in Redditch is higher than the mean value.</p> <p>More recent satisfaction figures in terms of waste collection and recycling are displayed in Redditch Borough Council's Best Value Satisfaction Survey (March 2007) which indicates the following: Percentage of residents satisfied with waste collection = 87% Percentage of residents satisfied with recycling collection = 71% Percentage of residents satisfied with recycling facilities = 70% Proportion who feel that local recycling facilities have improved = 42%</p> <p>It is estimated that the landfill site currently used to dispose of municipal waste collected in Herefordshire and Worcestershire has less than 12 years of capacity remaining.</p>			
Environmental - Redditch's Green Belt			
<p>Since March 2002 there have been two planning applications granted in the green belt, both for residential development totalling 2.96 hectares</p> <p>Number of applications refused/ amended/ conditioned because of adverse impacts on the Green Belt/ Open Countryside/ ADR: = 5 (1.12%)</p>			<p>Redditch Borough Council Monitoring</p> <p>Number of applications refused/ amended/ conditioned because of adverse impacts on the Green Belt/ Open Countryside/ ADR - Redditch Borough Council Annual Monitoring Report (2008)</p>
Environmental - Redditch's best agricultural land			
<p>Over 950,000 hectares of land are used for agriculture in the West Midlands, accounting for over 70 per cent of land use in the region</p> <p>There are nearly 26,000 farms in the region; 42 per cent of these are small farms of less than 5 hectares</p> <p>The chart below shows the farm sizes in the West Midlands in 2006 and also by County. In Worcestershire, as with other Counties, the predominant farm size is less than 5 Hectares.</p> <p>The total agricultural land in Worcestershire for 2006 is 131, 164 hectares representing an increase of 2,253 hectares since 2005. Of this total 51.8% is grassland.</p>			<p>Agriculture in the West Midlands and West Midlands Farm Sizes (2006) broken down by county – State of the Environment Report West Midlands</p> <p>Total agricultural land in Worcestershire for 2006 - Worcestershire County Economic</p>

Environmental - Flooding and flood risk prevention in Redditch

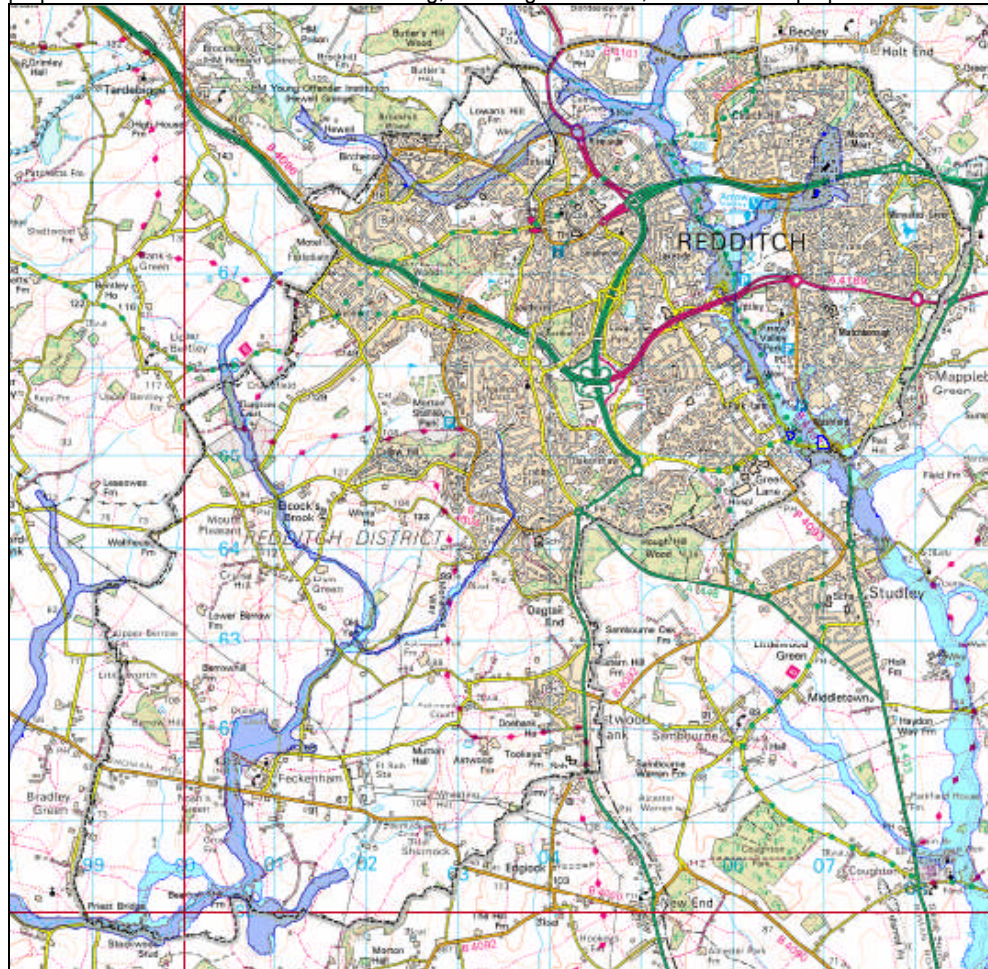

Area of Redditch in the 1/100 flood risk = 2.66 square km (or 266 hectares)

In the West Midlands: Around 94,000 properties are at risk from flooding (4% of properties). Nearly 83% of these properties (~78,000) are residential properties; around 17% (~16,000) are commercial properties. Nearly 34,000 properties are at significant risk from flooding, including around 27,000 residential properties. Nearly 27,000

Flooding facts for the West Midlands – State of the Environment Report West Midlands, Environment Agency <http://www.environment->

Baseline

properties are at moderate risk from flooding, including around 22,000 residential properties.

The map above shows the extent of Redditch Borough and the Flood Zones 2 and 3 are indicated by pale blue (flood zone 2) and darker blue (flood zone 3).

Data source

<p>Social - Redditch's Historic Environment</p> <p>Whilst there are no buildings at risk in Redditch Borough, there are two in adjoining Bromsgrove District and three in adjoining Stratford-on-Avon District. The nearest building at risk is Gorcott Hall, which is a Grade II* listed hall to the north-east of Redditch Borough boundary, and has recently been recommended to be removed from the buildings at risk register.</p> <p>In terms of parkland loss, there is no data available for Redditch Borough, however the neighbouring District of Stratford-on-Avon has the second largest loss of parkland (in Hectares) between 1918 and 1995 of any Local Authority in the Country with a loss of 2477Ha (64.4% of its parkland).</p>		<p>Loss of Historic Parkland - Heritage Counts (2008) English Heritage</p> <p>Listed Buildings, Scheduled Ancient Monuments, Registered Parks and Gardens in Worcestershire Districts – Heritage Counts (2008) Conservation Areas - Heritage Counts (2006)</p>																														

Baseline						Data source
	I	II*	II			
Worcestershire	101	326	5918	175	18	131
Bromsgrove	6	27	434	14	2	10
Malvern Hills	35	84	1754	50	6	21
Redditch	0	10	149	8	0	2
Worcester City	14	40	648	21	0	17
Wychavon	40	140	2272	74	8	65
Wyre Forest	5	25	661	9	1	16

The table above indicates that in Redditch Borough there are no grade I listed buildings, but there are grade II* and grade II listed buildings which need consideration. There are other assets that need to be considered, such as Scheduled Ancient Monuments and Conservation Areas.

County	Desk based assessment	Evaluation	Excavation	Watching brief	Building recording	Total all work
Herefordshire	6	16	9	47	11	89
Worcestershire	15	35	7	28	18	103
Warwickshire	1	13	7	73	14	108
West Midlands	33	33	12	39	32	149
Shropshire	7	13	4	16	0	40
Staffordshire	12	15	10	28	17	82
REGION TOTAL	74	125	49	231	92	571

The table above indicates that in Worcestershire most of the archaeological assessment consists of 'evaluation'. This mode of assessment is undertaken more frequently in Worcestershire than any other County.

<p>Between June 2005 and December 2006 in the West Midlands region 67% of all adults attended at least one historic environment site, slightly below the national average. Only 42% of Black and Minority Ethnic adults visited a site, the lowest participation rate in England.</p> <p>56% of those with a limiting disability or illness and 54% from lower socio-economic groups visited historic environment sites. Only London had lower levels of participation.</p> <p>There were 4.13 million visits to 84 properties, sites and places in the West Midlands, of which 1.16 million visits were to Heritage/Visitor centres such as the Black Country Museum or the Gladstone Pottery Museum. There were more visits to this category of attraction than anywhere else in England (one quarter). The majority of visitors (60%) to heritage attractions in this region were local, 14% from overseas and 26% from elsewhere in the UK.</p>			

Baseline	Data source
<p>Approximately 319,500 of the 3.5 million National Trust members are residents of the West Midlands region (2007) a little over 9%.</p> <p>Number and percentage of applications refused/amended/conditioned because of adverse impacts on heritage and historic assets = 30 (6.70%)</p> <p>Number and percentage of applications refused/amended/conditioned because of poor design and/or impact on local distinctiveness = 304 (67.85%)</p> <p>There are 172 grade I and II* buildings and structures deemed by English Heritage to be 'at Risk' in the West Midlands. This represents a net decrease for the second year running by a further 7 to 172 entries.</p>	
Social - Redditch's Local Distinctiveness	
<p>What is Locally Distinctive about Redditch Borough:</p> <p>General</p> <ul style="list-style-type: none"> - Redditch is a former New Town - Before being a New Town, Redditch was a Market Town - Before the town of Redditch developed, in 1152, Bordesley Abbey was founded by Cistercian monks near to the 'Red Ditch' - Redditch Borough covers a relatively small geographical area - Redditch suffers from a poor image - Issues in Redditch are generally perceived to be similar to those in an inner-city area - Redditch is famed for its roundabouts - People in Worcestershire attend church more often than the national average - The outer edge of the Green Belt boundary for the West Midlands of a detrimental effect on residential amenity/limits economic activity - Redditch benefits from a prime central location that offers east access to the countryside and culturally rich areas such as Stratford-on-Avon. However, it is disadvantageously situated for access to the coast - Housing is usually cheaper in Redditch than surrounding areas - There is no urban fringe in Redditch - the transition from urban to rural is instant - Redditch has a distinctive skyline - with the Ridgeway at Astwood Bank, the water tower, St Stephens Church etc - There is an abundance of green buffers/tree lined highways, giving the urban area a 'rural atmosphere' - Redditch has a ring road, acting as a town centre boundary feature - Worcestershire operates a three tiered Schooling system <p>Transport and Accessibility</p> <ul style="list-style-type: none"> - Excellent links to MUA/Birmingham, within 30 minutes - Good links to NEC, Airport and motorways (under 5 miles) - Excellent train links to Birmingham - Very poor rail links to other areas - Accessibility within Redditch Borough by car is excellent, but less so in the more rural areas - Very poor cycling provision – choice of either having to stick to pavements or travel on high speed roads - Lack of evening bus services (with the exception of the taxi bus) - Segregated bus only route in the New Town - Segregated footways include 94 underpasses 	<p>Local Distinctiveness – Redditch Borough Council Development Plans (2007)</p>

Baseline	Data source														
<ul style="list-style-type: none"> - Car parking in the Town Centre is all in private ownership - Very poor parking availability in New Town housing estates <p>Housing/Employment Layouts</p> <ul style="list-style-type: none"> - Lack of natural surveillance historically in New Town areas, but this is improving - Higher density residential development increases natural surveillance - Recent flats/apartments influx into Redditch may create the impression of less garden space - Residential Areas and Employment Areas are well segregated in the New Town with substantial tree buffers - Segregation of residential and employment areas in the New Town limits surveillance of employment areas at certain times - Lack of segregation between residential and employment in the older parts of Redditch increases the likelihood of a detrimental effect on residential amenity/limits economic activity <p>Architecture/Building Style</p> <ul style="list-style-type: none"> - There are a variety of dwelling types in the borough ranging from post-medieval, Victorian, 1930's semi-detached to the more modern builds - The former spring works/needle mills in Redditch are distinctive features in the building stock - The older (pre-New Town) employment areas provide Redditch Borough with a balanced portfolio of employment sites - Access to the older employment areas is weaker than in the New Town employment areas <p>Shopping</p> <ul style="list-style-type: none"> - The main shopping area in Redditch is the covered Kingfisher Shopping Centre - There is no 'high street' in the Town Centre - The majority of town centre shopping is in private ownership - There is only one Town Centre in the Borough, and no District Centres as defined in Planning Policy Statement 6. There are other local centres/parades of shops etc - There is a lot of floorspace for supermarkets 															
<p>Social - Housing in Redditch</p>

Baseline	Data source
----------	-------------

The figures above indicate that there are lower percentages of social housing in Worcestershire in comparison to the UK. However, Redditch Borough has a very high proportion of social housing (in 2004) in comparison to any other measured area (in 2001).

District	Average Sale Price	Number of Sales	Change from 2006/07
Bromsgrove	£241,080	1,671	3.8%
Malvern Hills	£266,885	1,219	4.8%
Redditch	£169,865	1,609	5.5%
Stratford-on-Avon	£278,946	2,347	4.3%
Warwick	£240,042	2,855	2.0%
Worcester City	£187,678	1,985	3.5%
Wyche	£253,582	1,944	8.9%
Wyre Forest	£182,859	1,639	4.6%
South HMA	£229,662	15,269	5.2%

The table above shows Average Sale Prices and Number of Sales by District (2007/08) for the South Housing Market Area of which Redditch is part. The average price for Redditch is the lowest in the South Housing Market Area and significantly lower than the average for the area. In neighbouring Bromsgrove District, the average house price (2007/8) was £241,080, significantly higher than the average price for Redditch. This highlights the difficulties for people in Redditch to move outside of the area if desired.

The number of Households in Redditch was 31,652 (2001). The number of Households in neighbouring Bromsgrove District was 35,168 (2001). The number of households in Stratford-on-Avon District was 52,501 (2001). Whilst Redditch is geographically smaller than Bromsgrove, it shares a similar number of households, thus suggesting that housing in Redditch is more concentrated than its neighbouring District.

Household Tenure	Redditch Number	Redditch (%)	Worcestershire %	England %
Owned outright	6,780	21.4 %	32.1 %	29.2 %
Owned with a mortgage/loan	15,557	49.2 %	43.4 %	38.9 %
Shared ownership	98	0.3 %	0.5 %	0.7 %
Rented from Local Authority	6,109	19.3 %	7.8 %	13.2 %
Rented from Housing Association/RSL	1,064	3.4 %	7.5 %	6.1 %
Privately rented	1,202	3.8 %	5.9 %	8.8 %
Rented from other	842	2.7 %	2.9 %	3.3 %

The table above shows that there are a lower percentage of people in Redditch Borough that own a property outright compared to Worcestershire and England. There are, however a higher percentage of people in Redditch Borough that owns a property with a mortgage or loan. In total, in Redditch Borough, 70.6% of the population are homeowners, this figure being lower than the Worcestershire percentage but higher than the England percentage. In neighbouring Bromsgrove District 83% of the population are homeowners, much higher than all averages. There are a higher percentage of people in Redditch Borough that rent a property from Redditch Borough Council but less from housing associations or Regional Social Landlords. In Stratford-on-Avon District 76% of households are owner occupied.

Baseline				Data source
Households comprising one person: pensioner	3,507	11.1 %	13.7 %	
Households comprising one person: other	4,654	14.7 %	12.9 %	
Households comprising of one family: all pensioners	2,343	7.4 %	10.1 %	
Married couple households: no children	4,586	14.5 %	15.5 %	
Married couple households: dependent children	6,505	20.6 %	19.4 %	
Married couple households: all children non dependent	2,321	7.3 %	6.8 %	
Cohabiting couple households: no children	1,784	5.6 %	5.3 %	
Cohabiting couple households: dependent children	1,314	4.2 %	3.4 %	
Cohabiting couple households: all children non dependent	144	0.5 %	0.4 %	
Lone parent households: dependent children	2,036	6.4 %	5.0 %	
Lone parent households: all children non dependent	953	3.0 %	2.8 %	
Other households: With dependent children	647	2.0 %	1.7 %	
Other households: All student	5	0.0 %	0.1 %	
Other households: All pensioner	81	0.3 %	0.4 %	
Other households: Other	772	2.4 %	2.6 %	

The table above shows that Redditch has a lower percentage of pensioner households than Worcestershire. There are, however, a higher percentage of one person households than the Worcestershire percentage.

		Redditch	West Midlands	England
No. households accepted as homeless total	Households	354	14,125	121,179
LA dwellings let to homeless households in priority need	Dwellings	150	6,561	50,345
Unintentionally and intentionally homeless in priority need total	Households	366	-	-
Unintentionally homeless in priority need total	Households	354	-	-

The table shows that Redditch has 354 accepted homeless households, which is less than 3% of the West Midlands total.

	Redditch	Mean Value
House price to income ratio	3.96	4.21

Statistics in the Audit Commission Area Profile for Redditch Borough indicates that this is an increasing local trend. The table confirms that house prices are generally more affordable for Redditch residents than the mean value.

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, that affordable decent housing has got better or stayed the same.	47.80%	44.35%

Baseline **Data source**

The table and the chart above confirm that there is a local concern that decent affordable housing is being provided when comparing the Redditch value to the National mean or median values.

Local Authority/ Borough	Total empty homes	% empty homes	Local Council	Housing Association	Other public body	Private landlord	Private homes empty > 6 months	Low demand dwellings
Bromsgrove	643	1.68%	2	24	0	619	217	100
Malvern Hills	1085	3.35%	0	54	0	1031	514	0
Redditch	370	1.08%	59	18	0	293	453	36
Worcester	1269	3.06%	0	67	5	1197	448	326
Wychavon	1074	2.13%	0	31	1	1042	639	6
Wyre Forest	1974	4.52%	0	71	0	1903	514	469

The table above indicates that in Redditch, there are less empty homes as a percentage of all homes than any other Worcestershire District. In Redditch Borough, unlike the other Worcestershire Districts many of these empty homes are Local Authority owned, with a small amount owned by Housing Associations.

Area	Mean	Median	Lower quartile
Bromsgrove	£237,599.00	£203,750.00	£152,500.00
Malvern Hills	£266,234.00	£226,000.00	£170,000.00

Wyre Forest	£298,543	£299,275	£166,749	£158,143.00	£138,892.00	£124,269.00	£114,257.00	£116,111.00	£191,271	£182,011.00	
Worcestershire	£332,629	£322,102	£190,273	£182,702.00	£154,716.00	£145,881.00	£132,241.00	£128,463.00	£222,633	£214,515.00	
<p>The trend demonstrated in the above table illustrates that Redditch Borough's property prices are all lower than the other Local Authorities across Worcestershire, for all property types, with the exception of flats and maisonettes during Q3 2008. The table also provides solid evidence of the decline in property prices for the corresponding quarters for 2007 and 2008.</p>											
Social - Local services and facilities in Redditch											
Headline Issues: <ul style="list-style-type: none"> - Poor public perception of community activities - Very poor perception of facilities for young children 										Percentage of Redditch residents who think community activities have got better or stayed the same (2003/4) - ODPM Best Value General Survey	
							Redditch %	Mean Value			
Percentage of residents who think that for their local area, over the past three years, that community activities have got better or stayed the same (2003/4)							79.16%	84.89%			
<p>The table above indicate that Redditch residents are not satisfied with the community activities in the Borough in comparison to the National mean and median values.</p>											
							Worcestershire %	Mean Value			
Percentage of the population living within 1 mile of a public library							52.30%	82.54%			
										Percentage of the population within 1	

Baseline

Statistics on the Audit Commission Area Profile for Redditch Borough indicate that the trend for the percentage of the population living within one mile of a public library is stable within Worcestershire. The Worcestershire percentage is however significantly lower than the mean value.

	Redditch %	Mean Value
Percentage of residents who think that, over the past three years, that facilities for young children have got better or stayed the same (2003/4)	65.24%	77.26%

The table and chart above indicate that there is a big problem with the perception of facilities for young people in Redditch Borough, with a significantly low number of people thinking that facilities have got better or stayed the same in comparison to the National mean and median values.

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, that activities for teenagers have got better or stayed the same (2003/4)	44.1%	60.4%

The table above and the chart show that in Redditch Borough there is a poor perception of activities for teenagers in comparison to the National Mean and Median values.

3.5.1 Fear of crime district map

Alcohol related crime statistics - North Worcestershire Community Safety Strategic Assessment Redditch (2008)

Town Centre night time economy crime - North Worcestershire Community Safety Strategic Assessment Redditch (2008)

Reports of anti-social behaviour in Redditch - North Worcestershire Community Safety Strategic Assessment Redditch (2008)

The table below shows the 2008-2011 LAA Indicator targets (where applicable) for North Worcestershire but there are no comparators from which to analyse these results yet. North Worcestershire had experienced a large reduction in British Crime Survey comparator crime across all three districts. Overall, British Crime Survey Comparator crime had fallen by over 31% in the four years between 2003/04 and 2007/08 in North Worcestershire.

Target	Baseline	08 - 09	09 - 10	10 - 11
Assault with injury rate	7.12 per 1000	7.12	7.00	6.91
Alcohol-harm related hospital admission rates	1,245 per 100,000	+ 8% (1,518)	+ 3% (1,564)	- 2% (1,533)
Improved street & environmental cleanliness (litter)	11%	10%	9%	8%

Between August 2007 and July 2008 alcohol-related crime constituted 18% of the total offences in Redditch.

The town centre night-time economy (NTE) in Redditch accounted for 30% of all alcohol-related violent, public order and criminal damage offences in the district, and

Baseline	Data source
----------	-------------

the licensed premises alone accounted for 3%.

August 2007 to July 2008, there were 6,909 incidents of anti-social behaviour (ASB) reported to the Police in Redditch. This represented a slight reduction (10.8%) compared to the previous 12 months.

Social – Qualifications and Skill Base in Redditch	
--	--

Headline Issues:

- There are a high percentage of people in Redditch Borough with no qualifications/level unknown
- There's a low percentage of people in Redditch Borough with higher level qualifications
- GCSE and A-level performance is poor
- There is a perception that educational provision is not improving in Redditch Borough
- Attainment of higher level (level 3 and level 4) qualifications is low in Redditch

Qualifications in Redditch Borough and Great Britain, 2001 Census, Office of National Statistics (www.statistics.gov.uk)

 Annual Population Survey 2004-2007, Annual Local Area Labour Force Survey 2001 to 2003.

The table above shows that in Redditch Borough the percentage of pupils achieving five or more GCSEs at grades A* to C is marginally higher than the National Mean value.

Highest qualification held by people 19-59/64: qualified to at least level 4, 2001-7 - Office for National Statistics.
 Annual Population Survey 2004-2007, Annual Local Area Labour Force Survey 2001 to 2003.

The table and chart above offers a more up to date figure on the percentage of students achieving grade A* - C at GCSE level and in Redditch the percentage has increased to above the mean value. The chart below provides a graphical representation of the Redditch figures in comparison with mean and median national values for the period between 2003 and 2006.

	Redditch %	Mean Value
Percentage of residents who think that for their local area, over the past three years, that education provision has 'got better or stayed the same'	71.54%	85.98%

The table above indicates that in Redditch Borough, a lower percentage of the population think that education provision has 'got better or stayed the same' in comparison to the mean value.

According to the findings of the National Employer Skills Survey (2008), 6% of employees in Herefordshire and Worcestershire have a skills gap compared to 5% for the whole of the West Midlands.

Total gross value added (GVA) for Herefordshire and Worcestershire in 2003 (latest data) was £9,550 million, contributing 12% to the regional GVA figure of £77,797

Baseline	Data source
----------	-------------

million in 2003.

In relation to achievement of level 2 qualifications at 19, Herefordshire and Worcestershire rates currently stand at 73% compared to 68% for the West Midlands and 70% nationally. Redditch is below local, regional and national levels of performance at 58%. Achievements at level 3 by 19 in Herefordshire and Worcestershire currently stands at 50% compared to 43% across the West Midlands and 46% nationally. Redditch is below local, regional and national performance at 36%.

	Redditch %	Mean Value
Percentage of young people (16 -24 year olds) in full time education or employment	87.3%	84.82%

The table above indicates that there are a higher proportion of young people in full time education or employment in comparison to the mean value.

Area	2007 Total Population aged 19-59/64 (000s)	2007	2007	2007	2006	2005	2004	2003	2002	2001
		Number (000s)	%	CI	%	%	%	%	%	%
Redditch	49	35	70.7	6.6	69.6	71.9	63.2	51.8	58.9	59.7
Worcestershire	312	223	71.3	2.9	70	68.4	66.1	63.2	67.2	68.6
West Midlands	3,043	1,989	65.4	0.8	64.9	63.8	63.4	61.8	61.6	60.3
England	29,519	20,341	68.9	0.2	68.2	67.3	66.6	66	65.1	63.9

For Redditch, the percentage of people achieving level 2 (A* - C GCSE Equivalent) has slowly improved since 2001. Worcestershire and West Midlands have also slightly improved but Redditch's 2007 % is higher than West Midlands and England Average, but less than the rest of Worcestershire.

Area	2007 Total Population aged 19-59/64 (000s)	2007	2007	2007	2006	2005	2004	2003	2002	2001
		Number (000s)	%	CI	%	%	%	%	%	%

<p>For Level 3 and Level 4 (certificate of higher education) qualifications Redditch falls behind the County and English average. This is concerning given the focus for the Borough to a more high level skills based economy. Therefore the move to higher skills based economy needs to work hand in hand with the improvement qualifications attained and maintained in the Borough.</p>

Baseline	Data source
----------	-------------

The table above details the 2004 based population projections in Redditch Borough up until 2029. It indicates that the younger population of Redditch (between 0 and 44) are likely to decrease. The older population is predicted to increase (over 65's) and this age group is already experiencing a significant increase. The number of over 75's is expected to double by 2029.

Nationals of more than 33 countries registered for National Insurance Numbers in Worcestershire in 2006/7; The vast majority (53.8%) of registrations were made from people from Poland. Each local authority in the county received most of it's overseas nationals from Poland.

Town	Population
Kidderminster	55,200
Redditch	74,000
Bromsgrove	32,900
Malvern	33,400
Droitwich	23,800
Evesham	22,500
Stourport-on-Severn	20,100
Pershore	7,100
Bewdley	11,300

The above table shows that Redditch is the second biggest Town in Worcestershire, making it an important centre.

District Ward Name	All Ages	0-14	15-24	25-44	45-64	65-plus
Abbey	5,146	926	665	1,363	1,496	696
Astwood Bank & Feckenham	5,499	930	620	1,425	1,676	848
Batchley	7,958	1,715	934	2,822	1,508	979
Central	5,910	1,041	921	1,761	1,385	802
Church Hill	7,978	1,524	1,179	2,329	2,187	759
Crabbs Cross	5,609	970	695	1,626	1,614	704
Greenlands	8,314	1,818	1,102	2,321	2,064	1,009
Headless Cross & Oakenshaw	8,447	1,324	1,012	2,186	2,348	1,577
Lodge Park	5,033	991	672	1,378	1,289	703
Matchborough	5,832	1,106	736	1,592	1,777	621
West	5,586	987	603	1,465	1,674	857
Winyates	8,168	1,487	1,048	2,464	2,449	720

This table identifies that population breakdown for each ward in Redditch in 2006. It shows that the most populated ward is Headless Cross & Oakenshaw, while the least populated in Lodge Park.

Total	79,600	80,000	80,300	80,700	81,100	82,900	84,800	86,600	

This table identifies that the amount of young people (under 19) and older people (over 60) which increase significantly, whereas the age range in between will decrease.

Social - Open Space in Redditch			
Headline Issues:			
- Some of Redditch Borough's wards suffer from a deficiency in Open Space in comparison to the Borough wide standard			
- There is a public perception that parks and open spaces are not improving			
Ward	Number of Open Spaces	Informal (ha/1000)	Variance (ward/borough standard ha./000)
Abbey	23	4.04	-1.86
Astwood Bank & Feckenham	20	9.92	+4.02
Batchley	24	6.58	+0.68
Central	27	12.25	+6.35
Church Hill	34	3.43	-2.47

Hectares of Open Space by ward - Redditch Borough Council Open Space Needs Assessment, June 2009 (www.redditch.whub.org.uk)

Percentage of Redditch residents who think parks and open spaces have got better or stayed the same (2003/4) Audit Commission Area Profile for Redditch Borough ([www.areaprofiles.audit-commission.gov.uk/\(ahvyqh45xkbbkvv](http://www.areaprofiles.audit-commission.gov.uk/(ahvyqh45xkbbkvv))

Baseline				Data source	
Crabbs Cross	13	2.69	-3.21	hrretvx45)/LAAPProfile.aspx) Typologies of sites allocated in Redditch Borough compared with the classification with the definition used in the PPG 17 typology - Redditch Borough Council Open Space Needs Assessment (March 2009) Borough-wide standards of open space - Redditch Borough Council Open Space Needs Assessment (March 2009)	
Greenlands	28	4.23	-1.67		
Headless Cross and Oakenshaw	35	5.9	+1.92		
Lodge Park	20	3.18	-2.72		
Matchborough	23	3.77	-2.13		
West	24	10.71	+4.81		
Winyates	33	4.29	-1.61		
<p>The table above is based upon the data contained in Redditch Borough Council's Open Space Needs Assessment published in 2009. The Borough Informal Standard (excluding sub-regional sites and sites less than 0.4ha) is 5.9ha/1000 population. It shows that there is a deficiency of open space provision in Abbey ward, Church Hill ward, Crabbs Cross Road, Greenlands ward, Lodge Park ward, Matchborough ward and Winyates ward compared to the Borough wide standard. There is a surplus of open space identified in Astwood Bank and Feckenham ward, Batchley ward, Central ward, Headless Cross and Oakenshaw ward and West ward compared to the Borough wide standard.</p>					
			Redditch %		Mean Value
Percentage of residents who think that for their local area, over the past three years, that parks and open spaces have 'got better or stayed the same'			84.51%		86.80%
<p>The table above indicates that the percentage of Redditch Borough residents who think that parks and open spaces have 'got better or stayed the same' is slightly lower than the mean value.</p>					
PPG17 Typology	Redditch Typologies	Number of Sites (All sites)

Winyates	5																											
Not in Redditch Borough Council	5																											
<p>The table above clearly established that there are a total of 112 playing pitches in Redditch Borough (including those without facilities). These are concentrated mainly in Greenlands ward and Batchley ward with Church Hill ward possessing the fewest facilities.</p> <p>Number of allotment sites in Redditch Borough = 15</p> <p>Number of allotment sites in Bromsgrove District (maintained by the Council) = 8</p>																												

Baseline							Data source
Shortfall of adult football	Shortfall of junior football	Shortfall of cricket	Shortfall of adult rugby	Shortfall of junior rugby	Shortfall of hockey	Total shortfall/surplus	facilities (2006) – Sport England, Audit Commission Area Profile (www.areaprofiles.audit-commission.gov.uk/(ahvyqh45xkbbkvvhrretvx45)/LAAPProfile.aspx)
12.1	-17.1	-4	4	-3.5	-1	-9.5	
<p>The table above gives the figures in hectares for sports pitches in Worcestershire, which indicates shortfalls in junior football, cricket, junior rugby and hockey provision, totalling a shortfall of -9.5 hectares.</p>							<p>Percentage of Redditch residents who think sports and leisure facilities have got better or stayed the same (2003/4) – ODPM Best Value General Survey</p> <p>Percentage of Redditch Residents who think activities for teenagers has got better or stayed the same (2003/4) – ODPM Best Value General Survey</p> <p>Percentage of residents satisfied with local authority sports and leisure facilities (2003/4) – ODPM Best Value General Survey (http://www.areaprofiles.audit-commission.gov.uk/(5vmfazvgnc4vxv55gbc2uw55)/SurveyResults.aspx?entit y=10000149)</p>
					Redditch %	Mean Value	
Percentage of the population that are within 20 minutes travel time (urban - walking; rural - driving) of a range of 3 different sports facility types, at least one of which has achieved a quality mark (2005/6)					26.44%	31.64%	
<p>Statistics from the Audit Commission Area Profile for Redditch indicates that the percentage of the population that are within 20 minutes travel time of three sports facilities is locally increasing. The table above indicates that there is a lower percentage of the population within 20 minutes drive of facilities in Redditch Borough in comparison to the mean value. Considering the demographics of Redditch which, suggests that currently the Borough has a young population, the figure for those who are within a 20 minute drive of sports provision is low.</p>							
					Redditch %	Mean Value	
Percentage of residents who think that for their local area, over the past three years, that sports and leisure facilities have got better or stayed the same (2003/4)					84.67%	88.55%	
<p>In terms of the percentage of the population who think sport and leisure facilities have improved, in Redditch Borough this is slightly less than the mean value.</p>							
					Redditch %	Mean Value	
Percentage of residents who think that for their local area, over the past three years, that activities for teenagers has got better or stayed the same (2003/4)					44.10%	60.40%	
<p>The table above indicates that Redditch residents do not think that activities for teenagers have got better or stayed the same when comparing with the national average. This is again concerning when considering given the young profile of the population in Redditch Borough.</p> <p>Percentage of residents satisfied with local authority sports and leisure facilities = 53% (2003/4)</p>							

Appendix B Concluding Comments

Appendix B outlines the social, economic and environmental information that has been collected to inform preparation of the LDF. Information collected relates to the administrative area of Redditch Borough plus additional lands that may be required to meet strategic development targets to meet local needs. During the consultation period on this Scoping Report consultees are invited to consider if they hold further relevant baseline data or to identify if any information in Appendix B is inaccurate or irrelevant.

APPENDIX C – Measuring the effectiveness of Sustainability Objectives

Appendix C continues to develop the Sustainability Appraisal Framework. First of all it displays the Sustainability Appraisal Objectives, as set out under Stage A4 of this Scoping Report and against each of these objectives is a set of decision-making criteria. The decision-making criteria set out the ways in which each objective should be achieved.

The indicators have then been developed to answer the questions posed by the decision-making criteria. By measuring these indicators we can determine if the Sustainability Appraisal Objectives are being achieved. The table then displays the quantified data that is available for each indicator; however there are some data gaps. A column is also presented of the historical trends and this may show the likely direction or the likely future trends for that indicator.

Table 5: Measuring the effectiveness of Sustainability Objectives

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
To manage waste in accordance with the waste hierarchy: reduce, reuse, recycle, compost, recovery, disposal	Are opportunities to increase recycling incorporated into the LDF?	Number of LDF policies aiming to increase recycling	3 – Local Plan No.3 policies B(BE).28, B(BE).29 and B(BE).19	No policies in Local Plan No.3
	Will it reduce the production of waste and manage waste in accordance with the waste hierarchy?	Total waste arising: <ul style="list-style-type: none"> • %/Amount of waste gone to landfill • %/Amount of waste recycled • %/Amount of waste incinerated or sent to waste energy plants 	<ul style="list-style-type: none"> • Percentage of household waste recycled: 33% (2007/8) • Percentage of household waste incinerated: 48% (2007/8) • Percentage household waste landfilled/sent to waste energy plants: 19% (2007/8) 	<ul style="list-style-type: none"> • Percentage of household waste recycled: 20.30% (2006/7) • Percentage of household waste incinerated: 57% (2006/7) • Percentage household waste landfilled/sent to waste energy plants: 43% (2006/7) <p>Amount of waste recycled has increased, and the percentage of incinerated and landfilled waste has decreased. Therefore, from a policy perspective no change is required.</p>
		Volume of household waste collected	Kilograms of household waste collected (2006/7) = 408kg	Kilograms of household waste collected (2005/6) = 414.0kg so this is a decreasing trend
		Percentage of the population satisfied with household waste recycling	Percentage fairly or very satisfied 2006/7 = 70.9%	Percentage of the population satisfied with household waste recycling (2003/4) = 77%.

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
				Statistics suggested that this trend was increasing but there has been a recent decrease
	Are opportunities to increase the amount of construction and demolition waste that is reused incorporated into the LDF?	Number of LDF policies aiming to increase recycling	4 – Local Plan No.3 policies B(BE).28, B(BE).29, B(BE).19, B(BE).4	No policies in Local Plan No.3
Reduce causes of and adapt to the impacts of climate change	Will it reduce emissions of greenhouse gases?	CO2 emissions by sector	<ul style="list-style-type: none"> Domestic CO2 emissions (KT CO2) = 189 (2005) Industrial & Commercial CO2 emissions (KT CO2) = 351 (2005) Road Transport CO2 emissions (KT CO2) = 87 (2005) Land-use change CO2 emissions (KT CO2) = 2 (2005) 	<ul style="list-style-type: none"> Domestic CO2 emissions (KT CO2) = 185 (2004) Industrial & Commercial CO2 emissions (KT CO2) = 289 (2004) Road Transport CO2 emissions (KT CO2) = 97 (2004) Land-use change CO2 emissions (KT CO2) = 2 (2004)
	Does it promote patterns of spatial development that are adaptable to and suitable for predicted changes in climate?	Countywide/Borough-wide CO2 emissions	Total CO2 emissions for Redditch Borough (KT CO2) = 628 (2005) Total CO2 emissions for Worcestershire County = 4983 (2005)	Total CO2 emissions for Redditch Borough (KT CO2) = 573 (2004) Total CO2 emissions for Worcestershire County = 5281 (2004)
		Average SAP rating of new housing	No data available	N/A
	Are opportunities to promote measures to mitigate causes of climate change in the LDF?	Number of LDF policies promoting measure to mitigate the causes of climate change	None in Local Plan No.3	None in Local Plan No.2
To reduce the need to travel and move towards more sustainable travel patterns	Will it reduce the need to travel?	Percentage of households without a car/van	21% (2001)	N/A
		Percentage of new developments within existing urban areas and settlement boundaries	2007/8 = 96.68%	<ul style="list-style-type: none"> 2006/7 = 99.78% 2005/6 = 97.33% 2004/5 = 98.62%
		Percentage of households with 2 or more cars	29% (2001)	N/A
		Number of applications approved featuring multimodal access arrangements in their design	No data available	No data available
		Average commuting distance	2001 Census data: <ul style="list-style-type: none"> Works mainly at or from home = 3,100 	No data available

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
			<ul style="list-style-type: none"> • Less than 2km = 8,942 • 2km to less than 5km = 11,309 • 5km to less than 10km = 3,381 • 10km to less than 20km = 6,013 • 20km to less than 30km = 4,190 • 30km to less than 40km = 623 • 40km to less than 60km = 311 • 60km and over = 824 • No fixed place of work = 1,488 • Working outside the UK = 66 • Working at offshore installation = 11 	
		Percentage of housing developments within 1000m of a mean of public transport (e.g. railway station, bus stop)	No data available	No data available
	Will it provide opportunities to increase sustainable modes of travel?	Methods of travel to work (Employed aged 16-74 living in the Borough)	<ul style="list-style-type: none"> • Mainly work at home = 3100 (7.7%) • Tube, metro, light rail, tram = 16 (0.0%) • Train 474 (1.2%) • Bus, Minibus or Coach = 3064 (7.6%) • Motorcycle, scooter, moped = 379 (0.9%) • Driving a car or van = 25,865 (64.2%) • Passenger in a car or van = 3149 (7.8%) • Taxi = 119 (0.3%) • Bicycle = 729 (1.8%) • On foot = 3258 (8.1%) • Other = 105 (0.3%) 	N/A
		Percentage of housing developments within 1000m of a mean of public transport (e.g. railway station, bus stop)	No data available	No data available
	Does it focus development in existing centres, and make use of existing infrastructure to reduce the need to travel?	Number and percentage of applications permitted which extend/improve walking routes	No data available	No data available
		Number and percentage of applications permitted which extend/improve cycling routes	No data available	No data available
		Number of railway stations in Redditch	1 – Redditch	No change

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
		Motorways accessible within a 5 mile radius of the Town Centre	1 – M42	No change
		Percentage of new developments within the existing urban area and settlement boundaries	2007/8 = 96.68%	<ul style="list-style-type: none"> • 2006/7 = 99.78% • 2005/6 = 97.33% • 2004/5 = 98.62%

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
	Does it promote and support the development of new technologies, of high value and low impact?	Employment land available by type	23.06 ha (not broken down by type) (2007/8)	2006/7 figure = 28.82 ha, creating a fall of 5.76 ha
		Amount of employment land lost to residential development	1.11 Hectares or 11100m2 (2006/7)	3.38Ha of employment land was lost to residential development in 2004/5. This figure was identified in last years AMR, however, this site has reached full completion. Losses to stock will, from now on, be recorded only when development has taken place
Protect and improve the quality of water, soil and air and water resources	Will it provide opportunities to improve or maintain water quality?	Number of planning permissions granted contrary to the advice of the Environment Agency on either flood risk or water quality grounds	0 (2007/8)	0
	Will it improve or maintain air quality?	Number and location of AQMA in the Borough	0 AQMAs	0 AQMAs
	Will it provide opportunities to improve or maintain soil quality?	Percentage of new housing and employment on Previously Developed Land	<ul style="list-style-type: none"> Housing on PDL = 82% (2007/8) Employment on PDL = 100% (2007/8) 	<ul style="list-style-type: none"> Housing on PDL = 87.4% (2006/7) Employment on PDL = 16.2% (2006/7) Housing on PDL = 95% (2005/6) Employment on PDL = 53% (2005/6)
		Percentage of new developments incorporating rainwater harvesting/water efficiency measures	No data available	No data available
	Will it provide opportunities to improve or maintain water resource?	Number of developments with a percentage of domestic water use in operation provided for by rain water collection and / or grey water recycling systems	No data available	No data available
Ensure development does not occur in high-risk flood prone areas and does not adversely contribute to fluvial flood risks or contribute to surface water flooding in all other areas	Does it protect the floodplain from inappropriate development?	Number of new allocated developments located in the floodplain	N/A - No new developments allocated through the LDF	N/A – No new developments allocated through the LDF
		Number of planning permissions granted contrary to the advice of the Environment	0 (2007/8)	0

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
		Agency on either flood risk or water quality grounds		
		Number/percentage of new (residential and commercial) development in flood zone 3 and flood zone 2	0	Data not available
	Does it take account of all types of flooding?	Number of applications approved in areas prone to non-fluvial flooding	0	No data available
	Are opportunities to reduce the risk of flooding in existing developed areas in the LDF?	Number of flooding policies in the LDF	1 – Local Plan No.3 policy B(BE).27	1 - Local Plan No.2 policy ES.8
	Does it promote Sustainable Urban Drainage Systems where appropriate?	Percentage of new developments incorporating SUDS	No data available	No data available
To improve the vitality and viability of Town and District Centres and the quality of and equitable access to, local services and facilities, regardless of age, gender, ethnicity, disability, socio-economic status or educational attainment	Will proposals enhance the provision of local services and facilities?	Amount of new residential development within 30 minutes drive time of a GP, hospital, primary school and secondary school, employment and a major retail centre	236 dwellings (100%) 2007/8	2006/7 saw 454 dwellings therefore whilst there has been a decrease in the number of dwellings within the 30 drive time. It remains that 100% of dwellings are within this 30 minutes for 2004/5, 2005/6, and 2006/7
		Percentage of new developments within the existing urban area and settlement boundaries	2007/8 = 96.68%	<ul style="list-style-type: none"> • 2006/7 = 99.78% • 2005/6 = 97.33% • 2004/5 = 98.62%
		Amount of completed office development	120m2 (2006/7)	2004/5 = 0.5 hectares (5000m2), a fall of 4880m2 for 2005/6
		Amount of completed retail development	0m2 (2006/7)	No change
		Number of first schools	23 (2007/8)	No change
		Number of middle schools	8 (2007/8)	No change
		Number of high schools	4 (2007/8)	No change
		Number of further education colleges	1 (2007/8)	No change
		Number of community centres	8 (2007/8)	No change
		Number of libraries	3 - Redditch library, Woodrow Library and mobile library (2007/8)	No change

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
	Will it contribute to rural service provision across the Borough?	Rural villages with key services (There are two rural villages in Redditch Borough: Astwood Bank and Feckenham)	1 – Astwood Bank	1- Astwood Bank
	Will it enhance accessibility to services by public transport?	Amount of completed leisure development in the Town Centre	0m2 (2006/7)	No change
		Amount of completed office development in the Town Centre	120m2 (2006/7)	In 2004/5 there was 5000m2 of office development outside of the Town Centre and none within. 2005/6 saw an increase in office development within the Town Centre
		Amount of completed retail development in the Town Centre	0m2 (2006/7)	No change
Safeguard and strengthen landscape and townscape character and quality	Will it safeguard and strengthen landscape and townscape character and quality?	Number of applications refused/amended/conditioned because of impact on character or local distinctiveness	304 (67.85%) (2007/8)	No data available for 2006/7 For development in 2007/8, 67.85% of applications were refused, amended or conditioned. Figures suggest that local plan policies are being well implemented and achieving intended effect, regardless of type, location or purpose of development
To protect and enhance biodiversity and geodiversity	Will it help to safeguard the Borough's biodiversity and geodiversity?	Change in areas of biodiversity importance including: • Change in areas designated for their intrinsic environmental value including sites of international, national, regional or sub-regional significance	(2007/8) • Meeting PSA Target = 87.52% • Favourable = 50% • Unfavourable Recovering = 37.5% • Unfavourable No Change = 12.5% • Unfavourable Declining = 0% • Part Destroyed/ Destroyed = 0%	(2006/7) • Meeting PSA Target = 63.42% • Favourable = 59.47% • Unfavourable Recovering = 3.95% • Unfavourable No Change = 27.61% • Unfavourable Declining = 8.97% Part Destroyed/ Destroyed = 0.00%
		Number of applications refused/amended/conditioned because of potential adverse impact on natural environment features or wildlife	12 (2.68%) (2007/8)	No data available
		Percentage of the Borough that is open space, Green Belt or Open Countryside	• Open Countryside = 10% (2007/8) • Green Belt = 33.7% (2006/7) • Open Space = 16.4% (2006/7) • Total percentage of the Borough that is open space, Green Belt or Open Countryside = 60.2% (2006/7)	No data available
	Will it protect sites and habitats designated for nature	Change in areas of biodiversity importance including:	• 1.35 Ha of scrubland lost to housing development	N/A

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
	conservation?	<ul style="list-style-type: none"> Change in priority habitats and species (by type) 	<ul style="list-style-type: none"> Increase of reedbed habitat Increase of lowland hay meadows Increase of lowland heath Pool restoration and de-silting Over 1 km of hedge-laying Orchard planting Discovery of rare heathland habitat in Wirehill Wood New confirmed findings of Slow Worms New confirmed findings of White Clawed Cray-fish 	
		Condition of Sites of Special Scientific Interest (SSSI) habitats	(2007/8) <ul style="list-style-type: none"> Meeting PSA Target = 87.52% Favourable = 50% Unfavourable Recovering = 37.5% Unfavourable No Change = 12.5% Unfavourable Declining = 0% Part Destroyed/ Destroyed = 0% 	(2006/7) <ul style="list-style-type: none"> Meeting PSA Target = 63.42% Favourable = 59.47% Unfavourable Recovering = 3.95% Unfavourable No Change = 27.61% Unfavourable Declining = 8.97% Part Destroyed/ Destroyed = 0.00%
		Number of sites designated for nature conservation lost to new development	N/A – No new developments allocated though the LDF	N/A – No new developments allocated through the LDF
		Percentage of water courses exceeding water framework directive standards for water quality	No data available	No data available
		Number of developments where existing wildlife corridors are protected or new ones created to link habitats within a site or link to habitats outside the development	No data available	No data available
	Will it help to achieve targets set out in the Biodiversity and Geodiversity Action Plans?	Achievement of BAP Targets	No data available	No data available
To improve the health and well being of the population and reduce inequalities in health	Will it improve access to health facilities across the Borough?	Loss of healthcare land or buildings to other uses	0 (2007/8)	In 2004/5 there were also no losses of healthcare land or buildings to other uses
		Number of applications permitted for homes for the elderly	0 (2007/8)	In 2006/7 there was 1 application. In 2004/5 there were 3 applications permitted for homes for the elderly, decreasing to 1 in 2005/6

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
				Whilst no applications have been received, the policy concerned only relates to guidelines when considering applications rather than encouraging homes for the elderly
		Number of existing homes for the elderly	10 (2007/8)	In 2006/7 there were 9 existing homes for the elderly
	Will it help to improve quality of life for local residents?	Number of homes achieving lifetime homes standard (i.e. Part M of Building Regulations)	No data available	No data available
	Will it promote healthier lifestyles?	Number of hospitals	1 – Alexandra Hospital	No change
		Number of other health facilities	Smallwood Health Centre (Child Health) Smallwood House (Elderly and mental health day care clinics and diabetic unit. Also family planning, young people's clinics, chiropody, occupational therapy)	No change
		Number of Doctor's surgeries	14 (2007/8)	No change
		Number of dental practices	12 (2007/8)	No change
		Number of opticians	7 (2007/8)	No change
		Life expectancy	<ul style="list-style-type: none"> Life expectancy at birth (males, 2003) = 77.00 Life expectancy at birth (females, 2003) = 81.10 	<ul style="list-style-type: none"> Life expectancy at birth (males, 2002) = 77.00. This figure has not changed Life expectancy at birth (females, 2002) = 80.60. This figure has increased
	Does it mitigate against noise pollution?	Number of noise pollution complaints received	No data available	No data available
	Does it mitigate against light pollution?	Number of light pollution complaints received	No data available	No data available
Provide decent affordable housing for all that is cheap to run, of all the right quality and tenure for local needs, in clean, safe and pleasant local environments	Will it provide opportunities to increase affordable housing levels within urban and rural areas of the Borough?	Affordable housing completions (dwellings)	78 dwellings (2007/8)	Affordable housing completions 2006/7 = 59 dwellings, an increase of 19 dwellings. Affordable housing completions 2004/5 = 26 dwellings, an increase of 33 dwellings for 2005/6
		Percentage of total housing completions which are affordable	2006/7 = 17.4% ALI	<ul style="list-style-type: none"> 2005/6 = 19.5% 2004/5 = 36.8%
	Will it provide affordable	Percentage of housing completions by	•2006/7:	•2005/6:

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
	housing access to a range of housing tenures and sizes?	size	1 Bed = 20.5% 2 Bed = 46.3% 3 Bed = 11.2% 4+ Bed = 22% ALI	1 Bed = 16.1% 2 Bed = 50.4% 3 Bed = 13.7% 4+ Bed = 19.8%

		Number of persons registered as homeless	No data available	No data available
	Does it see to provide high quality, well-designed residential environments?	Number of homes meeting the Code for Sustainable Homes (Level 3) standards	No data available	No data available
		Number of homes exceeding the Code for Sustainable Homes (Level 3) standards	No data available	No data available
		Number of homes not assessed against the Code for Sustainable Homes	No data available	No data available
	Are opportunities to increase the amount of construction and demolition waste that is reused incorporated into the LDF?	Number of LDF policies aiming to increase recycling	3 – Local Plan No.3 policies B(BE).28, B(BE).29 and B(BE).19	No policies in Local Plan No.3
To raise the skills levels and qualifications of the workforce	Will it provide opportunities to further develop educational and attainment facilities within the Borough?	Percentage of the Borough's school leavers with 5 A*-C GCSE's	<ul style="list-style-type: none"> All 15 year old pupils achieving Grades A* - C in GCSEs (2007) = 53.5% 	<ul style="list-style-type: none"> All 15 year old pupils achieving Grades A* - C in GCSEs (Sep 04-Aug 05) = 50.3 Percentage of students achieving 2 or more GCE/VCE/ A Level or equivalent passes (Sep 04 – Aug 05) = 91.1% Percentage of students achieving 3 or more GCE/VCE/ A Level or equivalent passes (Sep 04 – Aug 05) = 6.1%

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
				<ul style="list-style-type: none"> All 15 year old pupils achieving Grades A* - C in GCSEs (Sep 03-Aug 04) = 52.3 so despite a steady increase, the latest figure shows a decrease in GCSE attainment. All 15 year old pupils achieving Grades A* - C in GCSEs (Sep 02-Aug 03) = 46.0 All 15 year old pupils achieving Grades A* - C in GCSEs (Sep 01-Aug 02) = 46.6
		Percentage of the Borough's population with a FE/HE qualification	Number aged 16-74 with level 4/5 qualifications (2001) = 7,874	N/A
		Amount of new residential development within 30 minutes drive time of a GP, hospital, primary school and secondary school, employment and a major retail centre	236 dwellings (100%) 2007/8	2006/7 saw 454 dwellings therefore whilst there has been a decrease in the number of dwellings within the 30 drive time. It remains that 100% of dwellings are within this 30 minutes for 2004/5, 2005/6, and 2006/7
		Number and percentage of applications permitted which contribute towards educational facilities as covered by the requirements of the education provision SPD	0	No data available
Reduce crime, fear of crime and anti-social behaviour	Does it seek to provide high quality well designed environments?	Number and percentage of applications permitted which incorporate crime prevention measures in their design	No data available	No data available
		Crime statistics per 1000 of the population for sexual offences	0.3%(2006/7)	2004/5 = 0.3 No change for 2005/6
		Crime statistics per 1000 of the population for violence against the person	20.5 (2007/8)	2006/7 = 5.5 indicating a rise in the number of crimes. 2004/5 = 7.1% indicating a fall in the number of crimes for violence against the person for 2005/6
		Crime statistics per 1000 of the population for robbery offences (non domestic burglary)	4.6 (2007/8)	2006/7 = 0.3 indicating a rise in the number of crimes. 2004/5 = 0.4% indicating a fall in the number of crimes for robbery offences for 2005/6
		Crime statistics per 1000 of the population for burglary dwelling offences	10.7 (2007/8)	2006/7 = 2.8 indicating a rise in the number of crimes. 2004/5 = 2.9% indicating a fall in the number of crimes for burglary dwelling offences in 2005/6

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
		Crime statistics per 1000 of the population for vehicle and other theft	9.3 (2007/8)	2006/7 = 8.4 indicating a rise in the number of crimes. 2004/5 = 9.2% indicating a fall in the number of crimes for vehicle and other theft for 2005/6
		Crime statistics per 1000 of the population for drug offences	5.6 (2007/8)	2006/7 = 1.2 indicating a rise in the number of crimes. 2004/5 = 0.6% indicating an increase in the number of crimes for drug offences for 2005/6
	Does it promote wide community engagement and civic responsibility?	Percentage of Redditch residents who feel unsafe on their local street	81% (2007/8)	2006/7 = 33% indicating a rise in the perception of crime which appears to be high. Therefore, analysis of this should be monitored in future because it could assist in policy implementation.
	Does it promote mixed development that encourages natural surveillance?	Number and percentage of applications permitted which incorporate crime prevention measures in their design	No data available	No data available
Conserve and enhance the architectural, cultural and historic environment heritage and seek well-designed, resource efficient, high quality built environment in new development proposals	Does it provide opportunities for sustainable construction?	Number of homes meeting the Code for Sustainable Homes (Level 3) standards	No data available	No data available
		Number of applications refused/amended/conditioned because of adverse impacts on heritage and historic assets	30 (2007/8)	No data available
	Will it enhance the Borough's Conservation Areas?	Total size (hectares) of Conservation Areas	Church Green Conservation Area (Town Centre) = 4.13 Ha; Feckenham Conservation Area = 14.7 Ha	None
		Change in the character or appearance of Conservation Areas	No data available	No data available
	Will it help safeguard the Borough's Listed Buildings?	Number of listed buildings	<ul style="list-style-type: none"> • Grade I = 0 (2007/8) • Grade II* = 10 (2007/8) • Grade II = 151 (2007/8) • Locally listed buildings = 35 (2007/8) 	<ul style="list-style-type: none"> • 2004/5 Grade I = 0 No change • 2004/5 Grade II* = 10 No change • 2004/5 Grade II = 146 • 2004/5 Locally listed buildings = 38

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
	Does it improve the quality of the built environment?	Number of listed buildings at risk	None	None
		Number of Scheduled Monuments at risk	None	None
		Number of locally listed buildings at risk	No data available	No data available
		Percentage of Redditch covered by historic landscape/urban characterisation studies	0%	0%
Ensure efficient use of land through safeguarding of mineral reserves, the best and most versatile agricultural lands, land of Green Belt value, maximising use of previously developed land and reuse of vacant buildings, where this is not detrimental to open space and biodiversity interest	Will it safeguard the Borough's mineral resources?	Number and percentage of mineral applications permitted/modified related to need/environmental factors/quality of restoration or aftercare	No data available	No data available
	Will it maximise the use of Previously Developed Land?	Percentage of new and converted dwellings on previously developed land	82%(2007/8)	Figures for 2007/8 show a slight decline. However There was a big increase in the amount of new and converted dwellings for 2004/5 = 60%, meaning an increase of 35% up to 2005/6.
		New homes and employment sites on Previously Developed Land	Housing on PDL = 82%(2007/8) Employment on PDL = 100% (2007/8)	<ul style="list-style-type: none"> • Housing on PDL = 87.4% (2006/7) • Employment on PDL = 16.2% (2006/7)
	Will it protect the Borough's open spaces of recreational and amenity value?	Percentage of new dwellings completed at 30 dwellings per hectare	2.7% (2006/7)	<ul style="list-style-type: none"> • Housing completions in 12 months have significantly increased with respect to meeting density rates. Over 97% of completions were achieved at expected density levels, which is an increase of 14% on last year. • In 2004/5 the percentage of new dwellings completed at 30 dwellings per hectare was 17%. This percentage has decreased dramatically to just 2.7%
		Percentage of new dwellings completed at	54.6% (2006/7)	<ul style="list-style-type: none"> • Housing completions in Redditch over the

		between 30 and 50 dwellings per hectare		<p>past 12 months have significantly increased with respect to meeting density rates. Over 97% of completions were achieved at expected density levels, which is an increase of 14% on last year</p> <ul style="list-style-type: none"> • In 2004/5 the percentage of new dwellings completed between 30-50 dwellings per hectare was 59%. This has slightly fallen to 54.6% in 2005/6
		Percentage of new dwellings completed at above 50 dwellings per hectare	42.7% (2006/7)	<ul style="list-style-type: none"> • Housing completions in Redditch over the past 12 months have significantly increased with respect to meeting density rates. Over 97% of completions were achieved at expected density levels, which is an increase of 14% on last year • In 2004/5 the percentage of new dwellings completed above 50 dwellings per hectare was 24% and this has increased to 42.7% in 2005/6
	Will it preserve the openness of the Green Belt?	Green Belt land lost to development	2.96 Ha (2006/7)	<ul style="list-style-type: none"> • 2004/5 = None • 2003/4 = None
		Number/percentage of developments in the Green Belt	2006/7 = 1 dwelling (0.22%)	<ul style="list-style-type: none"> • 2005/6 = 1 dwelling (0.38%) • 2004/5 = 4 dwellings (1.38%)
	Will it help to protect the Borough's agricultural land from adverse developments?	Percentage of agricultural land lost to new development	2006/7 = 0%	No data available
	Does it provide opportunities for sustainable construction?	Number of homes meeting the Code for Sustainable Homes (Level 3) standards	No data available	No data available
Promoting resource efficiency and energy generated from renewable energy and low carbon sources	Will it encourage opportunities for the production of renewable and low carbon energy?	Renewable energy capacity installed by type	None	No change
	Will it promote greater energy efficiency?	Number or percentage of new development incorporating on-site renewable energy generation	No data available	No data available
		Average percentage of energy needs met	No data available	No data available

Sustainability Appraisal Objectives	Decision Making Criteria	Indicators from the Sustainability Framework	Quantified Data	Trends (Past trends and future trends under the 'do-nothing /business as usual scenario)
		from on-site renewable energy generation in new developments		
		Number of homes meeting the Code for Sustainable Homes (Level 3) standard	No data available	No data available
	Will it encourage opportunities to achieve energy efficiency measures above the minimum standard, as defined by the Code for Sustainable Homes?	Number of homes that have met the minimum standard energy efficiency measures (Level 1), as defined by the Code for Sustainable Homes	No data available	No data available

Appendix C Concluding Comments

The table above displays the Borough of Redditch's Sustainability Appraisal Framework for its Local Development Framework. This SA Framework provides the basis for assessing the sustainability of policies or options for any future Local Development Documents prepared by the Borough Council. The SA Framework does have data gaps. It is envisaged that where there is currently no data available, the Borough Council can, in the future collect these indicators.
