Subject: RE: 21/01830/FUL WCC landscape comments

Dear Holly,

Thank you for forwarding me copies of the revised Masterplan and Arboricultural Impact Assessment. I have reviewed these in context with comments set out in the Response to Consultee Comment letter of 19th July 2022. I am reassured and satisfied that retained trees in close proximity to plots 34-35; 121-126; 135-138, and 142-143 will be afforded a sufficient buffer, within the context of public open space provision, to effectively mitigate the risk of ad-hoc pruning. I recommend that all retained trees (as numbered in the AIA) are linked with specific management prescriptions to secure their sustainable management following completion of the scheme. This should be a measure included in the LEMP that I have requested the LPA secure by condition.

That concludes my comments, however, please do not hesitate to contact me if I can be of further assistance.

Kind regards,

Adam

Hi Adam,

Further to the below, a number of revised plans and reports have now been submitted to the Council in relation to the site at Hither Green, which have been prepared in order to address comments provided by a number of consultees, including yourself.

I have attached the revised landscape masterplan and AIA for your review. These have also been sent directly to the case officer (copied in).

If you have any queries, let me know.

Kind regards

Holly
