

# Stop housing development on Abbey Park Golf Course

To: Redditch Borough Council

We call on the Redditch Borough Council to do everything in their power to stop any part of this precious green space being turned into a housing development and to reject planning application 21/01830/FUL.

## Why is this important?

We are deeply concerned that building houses on the Abbey golf course (Redditch) will have direct negative impact to all residents of Hither Green Lane as well as affecting residents of Church Hill, Beoley and Bordesley.

The proposed development would have a detrimental effect on the environment, biodiversity and the wild life in the area which includes deer, foxes, bats, rabbits and birds in and around the numerous ponds. There is also an even greater risk of flooding as more and more fields are concreted over.

This would mean further loss of green space in an area that has already suffered heavy losses in green space with the newly built Bovis homes opposite the Abbey Stadium and the planned development of 800 plus Persimmons homes adjacent to it; all on greenfield sites. The Redditch Borough Council has sufficient land allocated to housing development in order to meet its stated targets up to 2030 which therefore renders any development on the golf course (within this timeframe) completely unnecessary.

The Birmingham Road (A441) and Dagnell End Road traffic light junction is already over capacity with frequent traffic jams occurring as a result. The additional cars and journeys that come with those houses would extend people's travel times and increase air and noise pollution. During a climate emergency this is counter to the council's commitment to reduce carbon emissions.
